In 1925 Harold Ross hired Katharine Sergeant Angell as a manuscript reader for *The New Yorker*. Within months she became the magazine's first fiction editor, discovering and championing the work of Vladimir Nabokov, John Updike, James Thurber, Marianne Moore, and her husband-to-be, E. B. White, among others. After years of cultivating fiction, White set her sights on a new genre: garden writing. On March 1, 1958, *The New Yorker* ran a column entitled "Onward and Upward in the Garden," a critical review of garden catalogs, in which White extolled the writings of "seedmen and nurserymen," those unsung authors who produced her "favorite reading matter." Thirteen more columns followed, exploring the history and literature of gardens, flower arranging, herbalists, and developments in gardening. Two years after her death in 1977, E. B. White collected and published the series, with a fond introduction. The result is this sharp-eyed appreciation of the green world of growing things, of the aesthetic pleasures of gardens and garden writing, and of the dreams that gardens inspire.

We all have mountains to conquer and in the process of climbing them, we find that we're really conquering ourselves. By stepping beyond my

comfort zone to discover what I was made of, I learned some valuable lessons about habits, discipline, mindfulness, friendship, challenges, attitude, mindset, comfort, mental strength, and my perceived physical limitations. Reading this book, you'll learn a lot about them as well! Hiking the forty-eight, four-thousand-foot peaks of New Hampshire's White Mountains changed my life forever. It taught me more than I could ever imagine, and my quest can teach you a lot too. Have you ever wanted to embark on a life-changing adventure, but felt too scared to do it? I decided to embrace the unknown and took on the enormous challenge, the difficult and rewarding journey, and the exciting venture. I'm forever glad I did. In this infectiously exciting book, Bryan Magee tells the story of his own discovery of philosophy and not only makes it come alive but shows its relevance to daily life. Magee is the Carl Sagan of philosophy, the great popularizer of the subject, and author of a major new introductory history, *The Story of Philosophy*. *Confessions* follows the course of Magee's life, exploring philosophers and ideas as he himself encountered them, introducing all the great figures and their ideas, from the pre-Socratics to Bertrand Russell and Karl Popper, including Wittgenstein, Kant, Nietzsche, and Schopenhauer, rationalism, utilitarianism, empiricism, and existentialism.

A practical framework to avoid burnout and keep great teachers teaching *Onward* tackles the problem of educator stress, and provides a practical

framework for taking the burnout out of teaching. Stress is part of the job, but when 70 percent of teachers quit within their first five years because the stress is making them physically and mentally ill, things have gone too far. Unsurprisingly, these effects are highest in difficult-to-fill positions such as math, science, and foreign languages, and in urban areas and secondary classrooms—places where we need our teachers to be especially motivated and engaged. This book offers a path to resiliency to help teachers weather the storms and bounce back—and work toward banishing the rain for good. This actionable framework gives you concrete steps toward rediscovering yourself, your energy, and your passion for teaching. You'll learn how a simple shift in mindset can affect your outlook, and how taking care of yourself physically, mentally, and emotionally is one of the most important things you can do. The companion workbook helps you put the framework into action, streamlining your way toward renewal and strength. Cultivate resilience with a four-part framework based on 12 key habits Uncover your true self, understand emotions, and use your energy where it counts Adopt a mindful, story-telling approach to communication and community building Keep learning, playing, and creating to create an environment of collective celebration By cultivating resilience in schools, we help ensure that we are working in, teaching in, and leading organizations where every child thrives, and where the potential of every child is recognized and nurtured. Onward provides a step-by-step plan for reigniting that spark.

"Every Pixar movie is connected. I explain how and possibly why." These are the words that began the detailed essay now known as "The Pixar Theory," which came out way back in 2013. It collected over 10 million views on Jon's blog alone, and was syndicated on Buzzfeed, Mashable, Huffpost, Entertainment Weekly, and more - generating over 100 million impressions and now translated into a dozen languages. Now, these thoughts and ideas first written by Jon Negroni have been fully realized inside this book, aptly named The Pixar Theory. In this book, you'll find an analysis of every single Pixar movie to date and how it tells a hidden story lurking behind these classic movies. You'll learn about how the toys of Toy Story secretly owe their existence to the events of The Incredibles. You'll learn about what truly happened to the civilization of cars from Cars before the events of WALL-E. And of course, you'll find out the possible truth for why "Boo" of Monsters Inc. is the most important Pixar character yet. Welcome to the Pixar Theory. Don't forget to fasten your imagination.

Christianity Today "Beautiful Orthodoxy" Book of the Year in 2016. Keep Christianity Strange. As the culture changes all around us, it is no longer possible to pretend that we are a Moral Majority. That may be bad news for America, but it can be good news for the church. What's needed now, in shifting times, is neither a doubling-down on the status quo nor a pullback into isolation. Instead, we need a church that speaks to social and political issues with a bigger vision in mind: that of the gospel of Jesus Christ. As Christianity seems increasingly strange, and even subversive, to our culture, we have the opportunity to reclaim the freakishness of the gospel, which is what gives it its power in the first place. We seek the kingdom of God, before everything else. We connect that kingdom agenda to the culture around us, both by speaking it to the world and by showing it in our churches. As we do so, we remember our mission to oppose demons, not to demonize opponents. As we advocate for human dignity, for religious liberty, for family stability, let's do so as those with a prophetic word that turns everything upside down. The signs of the times tell us we are in for days our parents and grandparents never knew. But that's no call for panic or surrender or outrage. Jesus is alive. Let's act like it. Let's follow him, onward to the future.
