to allow networks running on different protocols to have an intermediary protocol that would allow them to communicate.  
 Chapter 5: Networking and Communication - Information ...Data Communication & Networking MCQs Set-1 . A + A ; A-This Portion of Data Communication and Networking contains more frequently asked MCQs (Multiple Choice Questions and Answers) / Objective Type Questions and Answers in the various competitive exams. Practice it now .  
 1. A computer network permits sharing of Data Communication and Networking MCQs Set-1 - EXAMRADAR  
 Data Communication and Computer Network 1  
 A system of interconnected computers and computerized peripherals such as printers is called computer network.  
 Data Communication and Computer Network  
 Data Communication deals with the communication and data transfers across different nodes and which helps in networking methodologies for the same.  
 Computer Network vs Data Communication | Top 7 Valuable ...  
 The purpose of communication and resource sharing is achieved by multiple computer linked through transmission media.

Through the network, we can transmit the data signal from one point to another.  
 5. A large community support provides by computer network and extensive documentation libraries.  
 Difference Between Computer Network and Data Communication ...  
 Switching techniques are used for transmitting data across networks. Different types are :  
 1. Circuit Switching: In the Circuit Switching technique, first, the complete end-to-end transmission path between the source and the destination computers is established and then the message is transmitted through the path. The main advantage of this technique is guaranteed delivery of the message.  
 Data Communication and Networking - Short Notes -1 - EXAMRADAR  
 Data communications (DC) is the process of using computing and communication technologies to transfer data from one place to another, or between participating parties. DC enables the movement of electronic or digital data between two or more network nodes, regardless of geographical location, technological medium or data contents.  
 What is Data Communications (DC)? - Definition from Techopedia
