 "At last, a book that covers social media strategy in a practical, timely way that will help guide our students as they transition to the professional world." —Gina Baleria, San Francisco State University  
**Media for Strategic Communication: Creative Strategies and Research-Based Applications** teaches students the skills and principles needed to use social media in persuasive communication campaigns. The book combines cutting-edge research with practical, on-the-ground instruction to prepare students for the real-world challenges they'll face in the workplace. The text addresses the influence of social media technologies, strategies, actions,

and the strategic mindset needed by social media professionals today. By focusing on strategic thinking and awareness, it gives students the tools they need to adapt what they learn to new platforms and technologies that may emerge in the future. A broad focus on strategic communication—from PR, advertising, and marketing, to non-profit advocacy—gives students a broad base of knowledge that will serve them wherever their careers may lead.  Russia employs a sophisticated social media campaign against former Soviet states that includes news tweets, nonattributed comments on web pages, troll and bot social media accounts, and fake hashtag and Twitter campaigns. Nowhere is this threat more tangible than in Ukraine. Researchers analyzed social media data and conducted interviews with regional and security experts to understand the critical ingredients to countering this campaign.

 "An informed, provocative, astute consideration of salvific alternatives to contemporary policing and imprisonment." — Starred Review, Kirkus "With deep insight and moral clarity, Purnell invites us not only to imagine a world without police, but to muster the courage to fight for the more just world we know is possible.

Becoming Abolitionists is essential reading for our times." — Michelle Alexander, bestselling author of *The New Jim Crow* "At once specific and sweeping, practical and visionary, *Becoming Abolitionists* is a triumph of political imagination and a tremendous gift to all movements struggling towards liberation. Do not miss its brilliance!" — Naomi Klein, bestselling author of *The Shock Doctrine* For more than a century, activists in the United States have tried to reform the police. From community policing initiatives to increasing diversity, none of it has stopped the police from killing about three people a day. Millions of people continue to protest police violence because these "solutions" do not match the problem: the police cannot be reformed. In *Becoming Abolitionists*, Purnell draws from her experiences as a lawyer, writer, and organizer initially skeptical about police abolition. She saw too much sexual violence and buried too many friends to consider getting rid of police in her hometown of St. Louis, let alone the nation. But the police were a placebo. Calling them felt like something, and something feels like everything when the other option seems like nothing. Purnell details how multi-racial social movements rooted in rebellion, risk-taking, and revolutionary love pushed her and a generation of activists toward abolition. The book travels across geography and time, and offers lessons that activists have learned from Ferguson to South Africa, from Reconstruction to contemporary protests against police shootings. Here, Purnell argues that police can not be reformed and invites readers to envision new systems that work to address the root causes of violence. *Becoming Abolitionists* shows that abolition is not solely about getting rid of police, but a commitment to create and support different answers to the problem of harm in society, and, most excitingly, an opportunity to reduce and eliminate harm in the first place.

Boomer Esiason still holds the Cincinnati Bengals record for most passing yards in a game and is tied for the most 300-yard passing games. Jim Breech is the team's all-time leading scorer in points and remains a beloved figure more than twenty years after his retirement. Cris Collinsworth led the team in receptions and receiving yards several times in the 1980s and topped the team in receiving touchdowns three times. But these great players and many others aren't in the Bengals Hall of Fame, and it's for a simple reason: It does not exist. That needs to

change, according to die-hard fan Mark Powell. By creating its own Hall of Fame or Ring of Honor, the team would be paying tribute to its great players and personalities. But it would need to determine who is eligible and who should be honored first. Get a detailed look at one of the NFL's most interesting franchises, discover its rich history, and decide for yourself who deserves to be among the Legends of the Jungle.

With contributions from 30 leading media scholars, this collection provides a comprehensive overview of the main methodologies of critical media studies. Chapters address various methods of textual analysis, as well as reception studies, policy, production studies, and contextual, multi-method approaches, like intertextuality and cultural geography. Film and television are at the heart of the collection, which also addresses emergent technologies and new research tools in such areas as software studies, gaming, and digital humanities. Each chapter includes an intellectual history of a particular method or approach, a discussion of why and how it was used to study a particular medium or media, relevant examples of influential work in the area, and an in-depth review of a case study drawn from the author's own research. Together, the chapters in this collection give media critics a complete toolbox of essential critical media studies methodologies.

In 1927 Cuban national Ignacio S. Molinet was recruited to play with the Frankford Yellow Jackets of the old NFL for a single season. Mexican national Jose Martinez-Zorrilla achieved 1932 All-American honors. These are the beginnings of the Latino experience in American Football, which continues amidst a remarkable and diversified setting of Hispanic nationalities and ethnic groups. This history of Latinos in American Football dispels the myths that baseball, boxing, and soccer are the chosen and competent sports for Spanish-surname athletes. The book documents their fascination for the sport that initially denied their participation but that could not discourage their determination to master the game.

Poker is a centuries-old American game. Why has it become so popular in the twenty-first century? What does current interest in the game tell us about ourselves and some of our most pressing social issues? In this timely and thought-provoking book, Andrew Manno offers important insights into the intersection of gaming, gender, and capitalism that illuminate how the shift to a casino capitalist economy—combined with a culture of toxic masculinity—impacts workers and how it has led to the rise of populism in the United States that manifested in the 2016 election of Donald Trump.

Nebraska is not usually thought of as a focal point in the history of black baseball, yet the state has seen its share of contributions to the African American baseball experience. This book examines nine of the most significant, including the rise and fall of the Lincoln Giants, Satchel Paige's adventures in the Cornhusker State, a visit from Jackie Robinson, and the maturation of Bob Gibson both on and off the field. Also, recollections are featured from individuals who participated in or witnessed the African American baseball experience in the Omaha area.

This textbook provides a lively introduction to the fast-paced and multi-faceted discipline of social media management with international examples and perspectives. Aside from focusing on practical application of marketing strategy, the textbook also takes students through the process of strategy development, ethical and accurate content curation, and strategy implementation, through detailed explanations of content creation. Combining theory and practice, *Strategic Social Media Management* teaches students how to take a strategic approach to social media from an organisational and business perspective, and how to measure results. Richly supported by robust and engaging pedagogy and cases in each chapter, it integrates perspectives from public relations, marketing and advertising, and examines key topics such as risk, ethics, privacy, consent, copyright issues, and crises management. It also provides dedicated coverage of content strategy and campaign planning and execution. Reflecting the demands of contemporary practice, advice on self-care for social media management is also offered, helping to protect people in this emerging profession from the negativity that they can experience online when managing an organisation's social media presence. After reading this textbook, students will be able to develop a social media strategy, curate accurate and relevant content, and create engaging social media content that tells compelling stories, connects with target audiences and supports strategic goals and objectives. This is an ideal textbook for students studying social media strategy, marketing and management at undergraduate level. It will also be essential reading for marketing, public relations, advertising

and communications professionals looking to hone their social media skills and strategies.
