Evolve Quiz Chapter 23 Flashcards |  
QuizletThis chapter will review the  
currently available data on the  
pharmacology of TMS. Only studies on  
healthy subjects will be considered. The  
most often used experimental approach  
is to measure motor cortical excitability

before (baseline) and at one or more  
time points after intake of a single dose  
of the drug under study (post  
measurements).Chapter 23
