PRECIOUS BRENDEN

Hackivism and Cyberwars Center Street

Dekker's groundbreaking Circle trilogy continues. Thomas Hunter finds himself in a desperate quest to rescue two worlds from collapse. In one world, he's a battle-scarred general commanding an army of primitive warriors. In the other, he's racing to outwit sadistic terrorists intent on creating global chaos through an unstoppable virus.

The Hacker Crackdown Routledge

Queen Levana is a ruler who uses her 'glamour' to gain power. but long before she crossed paths with Cinder, Scarlet, and Cress, Levana lived a very different story - a story that has never been told ... until now.

And They Found Dragons: 3 Book Bundle W. W. Norton & Company

Back in print by popular demand--"A stunning revelation of the historical Macbeth, harsh and brutal and eloquent." --Washington Post Book World. With the same meticulous scholarship and narrative legerdemain she brought to her hugely popular Lymond Chronicles, our foremost historical novelist travels further into the past. In King Hereafter, Dorothy Dunnett's stage is the wild, half-pagan country of eleventh-century Scotland. Her hero is an ungainly young earl with a lowering brow and a taste for intrigue. He calls himself Thorfinn but his Christian name is Macbeth. Dunnett depicts Macbeth's transformation from an angry boy who refuses to accept his meager share of the Orkney Islands to a suavely accomplished warrior who seizes an empire with the help of a wife as shrewd and valiant as himself. She creates characters who are at once wholly creatures of another time yet always recognizable--and she does so with such realism and immediacy that she once more elevates historical fiction into high art.

The Shadowglass Worthy Books

Using the exploits of three international hackers, Cyberpunk explores the world of high-tech computer rebels and the subculture they've created. In a book as exciting as any Ludlum novel, the authors show how these young outlaws have learned to penetrate the most sensitive computer networks and how difficult it is to stop them.

Red Macmillan

NOW THE ACCLAIMED HBO SERIES GAME OF THRONES—THE MASTERPIECE THAT BECAME A CULTURAL PHENOMENON Winter is coming. Such is the stern motto of House Stark, the northernmost of the fiefdoms that owe allegiance to King Robert Baratheon in far-off King's Landing. There Eddard Stark of Winterfell rules in Robert's name. There his family dwells in peace and comfort: his proud wife, Catelyn; his sons Robb, Brandon, and Rickon; his daughters Sansa and Arya; and his bastard son, Jon Snow. Far to the north, behind the towering Wall, lie savage Wildings and worse—unnatural things relegated to myth during the centuries-long summer, but proving all too real and all too deadly in the turning of the season. Yet a more immediate threat lurks to the south,

where Jon Arryn, the Hand of the King, has died under mysterious circumstances. Now Robert is riding north to Winterfell, bringing his queen, the lovely but cold Cersei, his son, the cruel, vainglorious Prince Joffrey, and the queen's brothers Jaime and Tyrion of the powerful and wealthy House Lannister—the first a swordsman without equal, the second a dwarf whose stunted stature belies a brilliant mind. All are heading for Winterfell and a fateful encounter that will change the course of kingdoms. Meanwhile, across the Narrow Sea, Prince Viserys, heir of the fallen House Targaryen, which once ruled all of Westeros, schemes to reclaim the throne with an army of barbarian Dothraki—whose loyalty he will purchase in the only coin left to him: his beautiful yet innocent sister, Daenerys.

Stowaway Basic Books

Hailed as "a chilling portrait" by The Boston Globe and "a crafty thriller" by Newsweek, this astonishing story of an obsessive hacker promises to change the way you look at the Internet forever. At Large chronicles the massive manhunt that united hard-nosed FBI agents, computer nerds, and uptight security bureaucrats against an elusive computer outlaw who broke into highly secured computer systems at banks, universities, federal agencies, and top-secret military weapons-research sites. Here is "a real-life tale of cops vs. hackers, by two technology writers with a flair for turning a complicated crime and investigation into a fast-moving edge-of-your-seat story" (Kirkus Reviews, starred). At Large blows the lid off the frightening vulnerability of the global online network, which leaves not only systems, but also individuals, exposed.

Day of Independence Random House

A sweeping epic set in the harsh deserts of Arabia and ancient Palestine. A war that rages between kingdoms on the earth and in the heart. The harrowing journey of the woman at the center of it all. Step back in time to the year of our Lord...A.D. 30. The outcast daughter of one of the most powerful Bedouin sheikhs in Arabia, Maviah is called on to protect the very people who rejected her. When their enemies launch a sudden attack with devastating consequences, Maviah escapes with the help of two of her father's warriors--Saba who speaks more with his sword than his voice and Judah, a Jew who comes from a tribe that can read the stars. Their journey will be fraught with terrible danger. If they can survive the vast forbidding sands of a desert that is deadly to most, they will reach a brutal world subjugated by kings and emperors. There Maviah must secure an unlikely alliance with King Herod of the Jews. But Maviah's path leads her unexpectedly to another man. An enigmatic teacher who speaks of a way in this life which offers greater power than any kingdom. His name is Yeshua, and his words turn everything known on its head. Though following him may present even greater danger, his may be the only way for Maviah to save her people--and herself.

King Hereafter Simon and Schuster

As global society becomes more and more dependent, politically and economically, on the flow of information, the power of those who can disrupt and manipulate that flow also increases. In *Hackivism and Cyberwars* Tim Jordan and Paul Taylor provide a detailed history of hacktivism's evolution from early hacking culture to its present day status as the radical face of online politics.

They describe the ways in which hacktivism has re-appropriated hacking techniques to create an innovative new form of political protest. A full explanation is given of the different strands of hacktivism and the 'cyberwars' it has created, ranging from such avant garde groups as the Electronic Disturbance Theatre to more virtually focused groups labelled 'The Digitally Correct'. The full social and historical context of hacktivism is portrayed to take into account its position in terms of new social movements, direct action and its contribution to the globalization debate. This book provides an important corrective flip-side to mainstream accounts of E-commerce and broadens the conceptualization of the internet to take into full account the other side of the digital divide.

BEKA COOPER IS a rookie with the Provost's Guard, and she's been assigned to the Lower City. It's a tough beat, but Beka can hear the voices of the dead on the wings of pigeons, and Beka's birds clue her in to two major murderers on the loose. The rest of the Guard is busy investigating the fire opal killer, so it's up to Beka to nab the Shadow Snake. Tamora Pierce begins a new Tortall trilogy introducing Beka Cooper, a young woman who lived 200 years before Pierce's popular Alanna character. Pierce employs first-person narration, bringing readers even closer to a character that they will love for her unusual talents and tough personality.

Eyes Wide Open Open Road Media

In the Ichidian Universe where The League is law, most live in fear. We fight back. Welcome to a world where corrupt assassination politics dominate everyone. It's kill or be killed. Welcome back to the future...and meet hell's new breed of heroes. Devyn Kell spent his life in service to the League until he learned of the double dealing and backstabbing that was costing innocent people their lives. Refusing to play those politics, he became a Runner—someone who makes sure planets get the weapons, medicine and supplies they need to survive. May the gods have mercy on any who get in his way, because he definitely won't. Alix Garran is a woman on the run from a past she can't escape. Signing on to work for Devyn as a System's Engineer, she finds a cause she can fight for—and a man she can respect. But as Alix's past catches up to her, and Devyn's old enemies turn lethal, they have to fight together...or fall alone, in *Born of Ice*, the third bestselling League novel from Sherrilyn Kenyon.

Holy Warrior Thomas Nelson Incorporated

The epic finale to The Bone Witch series! As Tea's dark magic eats away at her, she must save the one she loves most, even while her life—and the kingdoms—are on the brink of destruction. Perfect for readers of Leigh Bardugo's *Ninth House* and Holly Black's *The Cruel Prince*! In the Eight Kingdoms, none have greater strength or influence than the asha, who hold elemental magic. But only a bone witch has the power to raise the dead. Tea has used this dark magic to breathe life into those she has loved and lost...and those who would join her army against the deceitful royals. But Tea's quest to conjure a shadowglass, to achieve immortality for the one person she loves most in the world, threatens to consume her. Tea's heartsglass only grows darker with each new betrayal. Her work with the monstrous azi, her thirst for retribution, her desire to unmask the Faceless—they all feed the darkrot that is gradually consuming her heartsglass. She is haunted by blackouts and strange visions, and when she wakes with blood on her hands, Tea must answer to a power greater than the elder asha or even her conscience. Tea's life—and the fate of the kingdoms—hangs in the

balance. Thrilling and atmospheric, this bestselling series is perfect for readers looking for Memoirs of a Geisha meets dark fantasy stories with diverse representation and multicultural influences original worldbuilding and captivating writing witch and wizard series for teens and adults The Bone Witch Series: The Bone Witch (Book 1) The Heart Forger (Book 2) The Shadowglass (Book 3) Praise for The Shadowglass: "Satisfying." —Foreword "A must-purchase." —School Library Journal "A worthy conclusion to a story that is, at its core, about love and letting go." —Kirkus Reviews

Alice Snow, a thirteen-year-old orphan, is abducted from her adopted home by a strange man claiming that her real mother is alive, and a frantic FBI manhunt ensues.

Rogue State St. Martin's Paperbacks

"What corporations fear most are consumers who ask questions. Naomi Klein offers us the arguments with which to take on the superbrands." Billy Bragg from the bookjacket.

A.D. 30 Center Street

Rogue State and its author came to sudden international attention when Osama Bin Laden quoted the book publicly in January 2006, propelling the book to the top of the bestseller charts in a matter of hours. This book is a revised and updated version of the edition Bin Laden referred to in his address.

Takedown Bantam

Biohackers explores fundamental changes occurring in the circulation and ownership of scientific information. Alessandro Delfanti argues that the combination of the ethos of 20th century science, the hacker movement and the free software movement is producing an open science culture which redefines the relationship between researchers, scientific institutions and commercial companies. Biohackers looks at the emergence of the citizen biology community "DIYbio", the shift to open access by the American biologist Craig Venter and the rebellion of the Italian virologist Ilaria Capua against WHO data-sharing policies. Delfanti argues that these biologists and many others are involved in a transformation of both life sciences and information systems, using open access tools and claiming independence from both academic and corporate institutions.

Masters of Doom Simon & Schuster

New York Times bestselling author Ted Dekker brings an exotic tale of adventure and creates his most memorable character ever. The story of how I, Julian Carter, and my precious two-year old son, Stephen, left Atlanta Georgia and found ourselves on a white sailboat, tossed about like a cork on a raging sea off of Australia's northern tip in 1963, is harrowing. But it pales in comparison to what happened deep in the jungle where I was taken as a slave by a savage tribe unknown to the world. Some places dwell in darkness so deep that even God seems to stay away. There, my mind was torn in two by the gods of the earth. There, one life ended so another could begin. Some will say I was a fool for making the choices I made. But they would have done the same. They, too, would have embraced death if they knew what I knew, and saw through my eyes. My name is Julian and this is my story. But more, it is the story of my son who was born to change the world. From deep in the impenetrable jungles where New York Times bestselling author Ted Dekker was born and raised, comes OUTLAW, an epic adventure of two worlds that perhaps only he could write. Full of harrowing twists, sweeping violence, and wild love, Outlaw takes us beyond the skin of this world to another

unseen.

Levittown Createspace Independent Publishing Platform

ONE THING CONNECTS EYES WIDE OPEN, WATER WALKER, AND HACKER—THEY CALL HIM OUTLAW.

It all begins with Christy Snow in *Eyes Wide Open*: seventeen, buried alive in a coffin, and about to die. Is what she's experiencing real? Or is she suffering a delusional breakdown? In *Water Walker*, Alice Ringwald is a thirteen-year-old orphan suffering from amnesia. She is still adjusting to her new life when suddenly she is kidnapped by a strange man. Finally, in *Hacker*, skilled computer expert Nyah Parks is using her technical knowledge to get money for her mom's life-saving medical treatment. When Nyah cracks the wrong firewall, it's not just her mother's life that is in danger. Nyah is forced into one last hack that will either save her or kill her. Humming with intensity, *The Outlaw Chronicles Trilogy* is a raw adrenaline rush from the first page to the last from master of suspense Ted Dekker. .

At Large Macmillan + ORM

Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in history—*Doom* and *Quake*—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. *Masters of Doom* is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a

formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and compassionate account of what it's like to be young, driven, and wildly creative. “To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular laboratory of his own bedroom, invents the universe from scratch. *Masters of Doom* is a particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosi Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with *Queens of the Stone Age* cranked up all the way.”—Mark Leyner, author of *I Smell Esther Williams*
Cyberpunk Kensington Books

After the events of *Outlaw, Robin of Locksley*—and his sidekick and narrator, Alan Dale—finds himself in a very different England and a very changed world. In 1190 A.D. Richard the Lionheart, the new King of England, has launched his epic crusade to seize Jerusalem from the Saracens. Marching with the vast royal army is Britain's most famous, most feared, most ferocious warrior: the Outlaw of Nottingham, the Earl of Locksley—Robin Hood himself. With his band of loyal men at his side, Robin cuts a bloody swath on the brutal journey east. Daring and dangerous, he can outwit and outlast any foe—but the battlefields of the Holy Land are the ultimate proving ground. And within Robin's camp lurks a traitor—a hidden enemy determined to assassinate England's most dangerous rogue. Richly imagined and furiously paced, featuring a cast of unforgettable characters, *Holy Warrior* is adventure, history and legend at its finest.
