Why work for someone else when you can call your own shots, pursue your dreams, and find success on your terms by starting your own business? So many people end up bored with their jobs, stuck in the corporate grind, never following their true passions. As wildly successful young entrepreneur Cameron Johnson shows, you don't have to live that way. We've entered a new age of entrepreneurship, with the Web making it easier than ever to start and run your own company. As Johnson's remarkable story

reveals, the entrepreneurial way of life is a great way to make sure you love what you do -- and it offers the potential to achieve extraordinary success by following your gut instincts and going for what you really want. What about the risks? Don't you need lots of money? Don't most start-ups fail? Johnson shares his essential secrets to entrepreneurial success that show you how he got into the life at very low risk, and, with very little money, took an idea that excited him and ran with it, achieving great success and satisfaction with businesses he loved. He didn't have an MBA; he didn't even have a college degree. But he had learned the simple yet vital secrets he reveals. Cameron Johnson is a seriously happy entrepreneur who started his first business when he was nine with \$50 and a home computer. Before he'd turned twenty-one he'd started twelve successful businesses and was offered \$10 million in venture capital to grow his hot Web company CertificateSwap.com -- praised by Entrepreneur magazine as one of the Web businesses helping the tech industry get its groove back -- even bigger. He has never taken out a loan or racked up any debt, and every one of his businesses has been highly profitable -- so profitable that he made his first million before graduating from high school, and he's put away enough cash so that he could retire today. But that's the last thing on earth he'd want to do; he's much too happy starting up new companies. Through the story of his own impressive career so far, in *You Call the Shots*, Johnson takes you behind the scenes of entrepreneurial success and empowers you to hit the ground running with your own great business idea, no matter how young you are or how little money you have to invest.

*The Art of Creation* is the Process of Turning Your Ideas into

Reality Right now you have within you the power and potential to create whatever you want in life. Yes, anything! That doesn't necessarily mean that you have the materials, the experience or the willpower to see the art of creation through to completion, but you do have the power and the potential. How powerful would it be to become conscious of the process that results in your life as you experience it now? Wouldn't it be empowering to have the tools to consciously create all the time and in all areas? What will you create next? Whether that means building a business, traveling the world, writing a book or mastering a language, *The Art of Creation* guides you through the process of dreaming big and making it real. In Part 1 you will learn *The Hierarchy of Creation Energy* to align your thoughts, emotions and actions to become a master creator. This is all about understanding the non-physical dimensions of life that influence all that we think, feel and do. These are the dimensions of Consciousness, Spirit and Soul. Your level of consciousness determines your worldview and outlook on life, your connection to spirit determines how much of life's energy is available to you at any given time, and embodying your soul allows your unique gifts to be shared with the world. From there, we'll explore the physical dimensions of life which are the mental, emotional and physical planes of existence. The mental plane is the realm of the mind, which governs the thoughts we think and logical problem solving. The emotional plane are the feelings in our bodies and the intuitive guidance they provide. The physical plane is where our actions play out, which determines how others experience us. Aligning your life with *The Hierarchy of Creation Energy* empowers you to live authentically and let your light shine for all the world to see. In Part 2 you'll be introduced to *The Vision-MAP Creative Palette*, which is the toolbox that turns your ideas into reality. You'll learn how to create a compelling vision for the life you want to live and all that is in it, then craft a MAP to achieve it. MAP stands for Mission, Action & Product and this is the tactical process of moving from where you are now to where you want to be. Whereas your vision is personal and is limited only by your imagination, the mission you define is meant to make a difference in the lives of others. Your mission is what drives your actions and coordinates the energies and efforts of others around a common purpose. Finally the end product is the outcome you create, the real-world results that move you step-by-step towards actualizing

the vision you hold. The Art of Creation is your guide to consciously create the life of your dreams. May you be inspired and empowered to realize your full potential and live a life that will leave a legacy!

An award-winning business writer dismantles the myths of entrepreneurship, replacing them with an essential story about the experience of real business owners in the modern economy. We're often told that we're living amidst a startup boom. Typically, we think of apps built by college kids and funded by venture capital firms, which remake fortunes and economies overnight. But in reality, most new businesses are things like restaurants or hair salons. Entrepreneurs aren't all millennials -- more often, it's their parents. And those small companies are the fabric of our economy. The Soul of an Entrepreneur is a business book of a different kind, exploring our work but also our passions and hopes. David Sax reports on the deeply personal questions of entrepreneurship: why an immigrant family risks everything to build a bakery; how a small farmer fights to manage his debt; and what it feels like to rise and fall with a business you built for yourself. This book is the real story of entrepreneurship. It confronts both success and failure, and shows how they can

change a human life. It captures the inherent freedom that entrepreneurship brings, and why it matters.
