Light from the Cloister Franciscan Press
Jeanne Halgren Kilde's survey of church architecture is unlike any other. Her main concern is not the buildings themselves, but rather the dynamic character of Christianity and how church buildings shape and influence the religion. Kilde argues that a primary function of church buildings is to represent and reify three different types of power: divine power, or

ideas about God; personal empowerment as manifested in the individual's perceived relationship to the divine; and social power, meaning the relationships between groups such as clergy and laity. Each type intersects with notions of Christian creed, cult, and code, and is represented spatially and materially in church buildings. Kilde explores these categories chronologically, from the early church to the twentieth century. She considers the form, organization, and use of worship rooms; the location of churches; and the interaction between churches and the wider culture. Church buildings have been

integral to Christianity, and Kilde's important study sheds new light on the way they impact all aspects of the religion. Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice, church buildings are, in Kilde's view, dynamic participants in religious change and goldmines of information on Christianity itself.

Join a mother discovering the reality of climate change and how she can protect her children and their world. Lorna Gold's

journey brings hope for effective communal action. Environmentalist Lorna Gold issues a clarion call to take immediate action on climate change or risk bequeathing a stark legacy to future generations. Lorna shares her personal journey in coming to understand what 'climate change' means to her both as an activist and as a mother who is fearful for her children's prospects in a world that hovers on the brink of destruction. Rather than simply lament the grave situation facing our planet, however, Climate Generation offers the reader hope and a manifesto for change.

The Confraternity of Penitents is an international, private Catholic Association of the Faithful whose members are living, in their own homes, a modern adaptation of the rule for lay people, given by Saint Francis of Assisi to the Brothers and Sisters of Penance in 1221. Bishop Thomas Tobin, Bishop of the Diocese of Providence, stated, on 11 February 2009, "I wish to affirm my support of the Confraternity of Penitents (CFP), specifically its members' commendable efforts to live according to the First Rule of the Third Order of Saint Francis of 1221, as outlined in the CFP's own Constitutions."

All the information needed for anyone to learn about the Confraternity of Penitents and its way of life is found in the Handbook of the Confraternity of Penitents. It is also a book about how to approach the end of a year and the eve of a new one full of hope and optimism. ,This book has been professionally formatted for e-readers and contains a bonus book club leadership guide and discussion questions. The Mass is a central mystery of our Catholic faith, but that does not mean that everything about it has to be mysterious. In this book Father Thomas Richstatter uses simple, easy-to-understand language to explore and explain the Mass. The result is a guide to what the Mass means to our Catholic faith and how its different elements the Introductory and Concluding Rites and Liturgies of the Word and the Eucharist invite us to experience that faith more deeply and express it more fully. *Commentary on the Rule of the Secular*

Franciscan Order New City Press Prayer: Our Deepest Longing looks at the issues facing people of faith in today's culture, and offers a way of more effectively dealing with them by seeking out opportunities for prayer. With simple, down-to-earth language, Rolheiser illustrates the importance of prayer and offers techniques on how to pray, using examples from daily life, Scripture, and contemporary writers. He delves into the places that we fear to go with our issues about prayer, encouraging us with gentle kindness and words of hope and inspiration. The book is divided into five sections. 1. Why Pray? Illustrates the purposes and benefits of prayer for ourselves, as well as for the broader Catholic community and even the world. 2. Why Is It so Hard? Notes how our contemporary culture conspires against taking time out for solitude and prayer, and how our own ego—with its fears, restlessness, and narcissism—can work against developing a deeper relationship with God through prayer. 3. What Is Prayer? Outlines the two basic types of prayer, that is, affective (personal) and priestly (for the world). This section also

notes the many ways or methods for each type of prayer, such as meditation, contemplation, the divine office, the Mass, and Scripture. 4. Sticking with It When It Gets Hard. This section covers the development of mature prayer, discussing ways to pray in times of boredom, disillusionment, crisis, helplessness, or after a loved one's death. 5. Mysticism. Here we learn about this increasingly popular form of intimate relationship with God. There will be a leader's guide for this book, making it an ideal resource for use with prayer groups, small faith communities, and retreats. This is a book for all manner of believer, whether your faith is solidly rooted in Catholicism, wavering between the Christianity of childhood and non-participatory faith as an adult, or just not sure what you believe—or whether you believe at all. It addresses topics that typify our culture, such as narcissism, pragmatism, efficiency, and self-gratification, and that work against a healthy spiritual life. Finally, the book takes us to a place of contact and comfort, in relationship not only with God but with our true selves as well.

A Spiritual Commentary on the General Constitutions of the Secular Franciscan Order Ritual of the Secular Franciscan Order

Just as with his stirring narrative of the life of St. Francis, Saint Francis of Assisi: Passion, Poverty & the Man Who Transformed the Church, author Bret Thoman draws upon his profound knowledge of original sources, his familiarity with the places where these two great founders lived and breathed and changed the world, and his own Franciscan spirituality, to bring to life, like never before, the story of St. Clare of Assisi. Join Thoman as he skillfully weaves the known facts of Clare's life with imaginative passages that bring the reader into the profoundly spiritual world of the "Light from the Cloister." Hailing from an aristocratic or "Major" family, Clare continually-- in imitation of Our Lord and Francis--sought to make herself lesser or minor. In the process, in another of God's "divine paradoxes," she became a giant, not only of her Age, but of all time. Tenaciously attached to poverty, she became rich as only the saints are; docile and obedient, she stood up to her

aristocratic family and, later, princes of the Church in following the path upon which God had set her; frail and vulnerable, she caused Saracen invaders to turn tail and run . . . merely by prostrating herself before the Blessed Sacrament; and though not learned in either theology or canon law, she became the first woman to write a Rule for a new religious community. St. Clare truly was a "light from the cloister" not only for her era but for all time. Meet her as never before in these pages and, in what is sure to be a profoundly spiritual reading experience, let her light shine upon you. [The Writings of Saint Francis of Assisi](#) Servant Books

Masterfully written and intensely enlightening, Franciscan Prayer could very well be considered the essential handbook for all those seeking to pray and live the Franciscan way. With exquisite execution, Franciscan theologian Ilia Delio clearly outlines what it means to pray as a Franciscan. Through her experience as a discalced Carmelite nun and then her transformation into Franciscan scholar, Sister Delio brings to light the "contemplative," "cosmic" and

“evangelizing” aspects of Franciscan prayer. Everyone, says Delio, seems to know about Francis’ life, his miracles, his devotion to evangelization and his dedication to living a simple and humble life, yet few know about his prayer life, which seemed, over the centuries, to get lost in the paper shuffle between theologians, followers and historical biographers. It is through Clare of Assisi, Delio asserts, that we have insights into the Franciscan path of prayer. “[Clare] provides the ‘road-map’ of prayer for evangelical life...she was able to do this because she lived under monastic rule while ardently desiring evangelical life.” Through Clare’s letters and actions, we find the rudiments of Franciscan prayer: “Gaze—Consider—Contemplate—Imitate.” Delio also uses the insights of Saint Bonaventure as well as Saint Francis to fully show the meaning and purpose of prayer in the Franciscan tradition. *Climate Generation* Paulist Press

This book is for all those attracted to the way St. Francis & St. Clare of Assisi followed Jesus. All of us are called to make the Gospel an integral part of our lives, going from Gospel to Life and from Life to Gospel. Our Rule incorporates the very essence of the Gospel itself. We were taught to EVERY DAY READ the Bible, especially the Gospel, plus one paragraph from our Holy Rule. But deep commitment does not occur by a mere cursory reading of the Gospels or Rule. But here is a 2,000 year old way to truly pray Scripture and our Holy Rule; it's called "Lectio Divina,.." aptly described as "Prayerful Reading." The four steps are simply: Read, Reflect, Respond, and Receive/Resolve. Our St.

Bonaventure, O.F.M., has taken the second step much deeper by asking us to REFLECT first on the literal meaning and then the 3 spiritual meanings as they affect our faith, morals, & eternal destiny.

SFO Resource Library, Vol. 4 The short reflections on the Secular Franciscan Rule gathered here grew out of back-page editorials in the Franciscan Herald magazine. Meant as additional ideas and insights not touched on in the commentaries, they were assembled for directors of formation. But they are especially useful for the ordinary Secular Franciscan who is looking for a way to reflect on the Rule as a personal or communal means of ongoing formation, and a path to even truer gospel living and proclamation.

Consumerism has established itself as a dominant lifestyle, but the reasons behind this are often unclear. This study revisits a large amount of diverse research, and argues that consumerism is a powerful ritual “machine” that can make up for the modern lack of values with new symbols and rituals. Consumerism made its claim between the end of the 19th and the beginning of the 20th century, when the

traditional symbolic world had ended and a new one had not yet emerged. Slowly but progressively, consumerism began to develop new symbolic forms and new social rituals, becoming the basis for new mimetic behaviours. As nationalism has progressively declined, consumerism has permeated the entire social fabric. Supermarkets and shopping malls must be interpreted in the light of their ritual significance, as temples and holy cities of a new symbolic order. In the consumeristic era, many people are led to think and imagine in consumer terms, to identify themselves through consumption rituals. The impact of consumerism on culture, from literature to art, should not be underestimated. Many artists have tried to develop their aesthetics by triggering a dialectical, or openly critical, confrontation with consumerism. This book also takes into account the development of violence and the effects of consumerism on childhood and new generations. The book contains a preface by the German anthropologist Christoph Wulf, and the images illustrating the text are by Belgian

artist Michel Couturier.
