In TN, each person in direct charge at a water treatment plant or a water distribution system must have a certificate in a grade equal to or higher than the grade of the plant or system. The Distribution track has multiple grades, and that there are common knowledge items that are included in all these exam levels. This product provides review questions that cover these common Distribution knowledge topics. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to "simulate" actual exam questions. "realistic" or actual questions that are for cheating purpose are not available in any of our products.
