The all-you-need-to-know guide to Investment. The yearbook is packed with practical guidance on who to contact and how to get investment. The Investors Handbook is a comprehensive directory of venture capital firms, start-up investors and angel networks. Essential for any individual or business looking for investment, it will help

entrepreneurs and business owners navigate the often complex world of sourcing finance. One of the main reasons start-ups fail is a lack of access to capital or accessing capital at the wrong time. Whatever stage a business is at, this book will help entrepreneurs and business owners understand and source in areas such as: Directory of investors When to fundraise How to meet investors Best people to connect and network with Pitching your ideas After and beyond investment A must-read book with contributions from investment experts David Bateman, Eileen Modral and Jonathan Reuvid. David Bateman, is a successful entrepreneur and has founded several businesses. He is an active investor and has spoken at many leading events and at university business schools including Oxford, Cambridge, Harvard, MIT, Wharton and Columbia. Eileen Modral, is an Investment Network Manager at Oxford Investment Opportunity Network (OION), one of the UK's most well-known and established angel networks. Jonathan Reuvid was formerly an economist for French oil

company Total, and later an entrepreneur. He is a published author of a range of business titles, and was writer and editor for of 'Managing Business Risk', and 'The Investors Guide to the United Kingdom'.

"We owe it to our plants to read this book. After all, while we just live with the weather, our plants have to survive it." —The Washington Post  
All gardeners are at the whim of Mother Nature, and so are our plants. Whether it's coping with extreme drought or record-breaking snow fall, gardeners—and gardens—across the country are fighting

against the elements. Instead of just reacting to the weather, Michael Allaby suggests that gardeners use knowledge about how the weather works to create the best growing conditions for their plants. Allaby brings big-picture atmospheric concepts to life with a comprehensive introduction to how weather works and explanations climate change, weather systems, and microclimates. *The Gardener's Guide to Weather and Climate* proves that instead of gardening at the mercy of the weather, knowledgeable gardeners can make the weather work for them

Since Alaska is so large and its options so varied, this guide is organized primarily to help travelers zero in on the activity or activities that most

appeal to them. The first ten chapters focus solely on adventure travel, each devoted to a single activity. The five regional chapters that follow focus mainly on the basics in a given area of the state — getting around, shopping, lodging, dining, and entertainment. The objective is not to provide the most information about destinations or attractions, but rather, the most useful information. Any destination or outfitter listed here has made the cut by proving itself a wonderful place to visit or a reliable company with which to do business.
