### **Norton anthology of American Literature 1865-1914** W. W.

Norton

"Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate

preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal. W. W. Norton & Company Under Nina Baym's direction, the editors have considered afresh each selection and all the apparatus to make the anthology an even better teaching tool. The Norton Anthology of American Literature: American literature, 1820-1865 W.W. Norton & Company

A survey of American literature from 1865 to 1914, featuring excerpted and complete works from such authors as Emily Dickinson, Mark Twain, Henry James, James Weldon Johnson, and many others, and including a selection of Native American chants and songs.

Frederick Douglass (1818-1895) and Herman Melville (1819-1891) addressed in their writings a range of issues that continue to resonate in American culture: the reach and limits of democracy; the nature of freedom; the roles of race, gender, and sexuality; and the place of the United States in the world. Yet

they are rarely discussed together, perhaps because of their differences in race and social position. Douglass escaped from slavery and tied his well-received nonfiction writing to political activism, becoming a figure of international prominence. Melville was the grandson of Revolutionary War heroes and addressed urgent issues through fiction and poetry, laboring in increasing obscurity. In eighteen original essays, the contributors to this collection explore the convergences and divergences of these two extraordinary literary lives. Developing new perspectives on literature, biography, race, gender, and politics, this volume

ultimately raises questions that help rewrite the color line in nineteenth-century studies.
