A Handbook of Egyptian Religion Cambridge University Press

Combining philological investigation and theoretical reasoning, this book offers a completely new interpretation of the economic role of the state in ancient Egypt. The first part provides background outlining the relevance of Keynes General Theory to the ancient Egyptian economy. The central part uses ancient Egyptian texts as the foundation of an analysis of words commonly

assumed to relate to taxation during the New Kingdom (c. 1540-1070 B.C.E.). The conclusions summarize the philological results and explore the role of the temples in the ancient Egyptian state during the New Kingdom. The result places ancient Egyptian taxation and state economic activity in a market context, opening a new path to the understanding of the ancient Egyptian economy based on an analysis of primary sources.

THE FORTY TWO PRECEPTS OF MAAT, THE PHILOSOPHY OF RIGHTEOUS ACTION AND THE ANCIENT EGYPTIAN WISDOM TEXTS ADVANCED STUDIES This manual is designed for use with the 1998 Maat Philosophy Class conducted by Dr. Muata Ashby. This is a detailed study of Maat Philosophy. It contains a compilation of the 42 laws or precepts of Maat and the corresponding principles which they represent along with the teachings of the ancient Egyptian Sages relating to each. Maat philosophy was the basis of Ancient Egyptian society and government as well as the heart of Ancient Egyptian myth and spirituality. Maat is at once a goddess, a cosmic force and a living social doctrine, which promotes social harmony and thereby paves the way for spiritual evolution in all levels of society.

"In 1985, Ra Un Nefer Amen received, through divine revelation, the Metu Neter (Word of God) oracle ... In Maat, the 11 laws of God ... [he] shares the revelations he has received concerning the laws ... correlated with the Tree of Life - that influence and govern people's lives"--Back cover. His preface indicates that he refers to the Kamitic Tree of Life, rather than the somewhat different Hebraic version.

Child injuries are largely absent from child survival initiatives presently on the global agenda.

Through this report, the World Health Organization, the United Nations Children's Fund and many partners have set out to elevate child injury to a priority for the global public health and development communities. It should be seen as a complement to the UN Secretary-General's study on violence against children released in late 2006 (that report addressed violence-related or intentional injuries). Both reports suggest that child injury and violence prevention programs need to be integrated into child survival and other broad strategies focused on improving the lives of children. Evidence demonstrates the dramatic successes in child injury prevention in countries which have made a concerted effort. These results make a case for increasing investments in human resources and institutional capacities. Implementing proven interventions could save more than a thousand children's lives a day.--p. vii.

Book of the Dead Vandenhoeck & Ruprecht

2016 Reprint of 1909 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Originally published as "The Instruction of Ptah-Hotep" and also as "The Maxims of Ptahhotep," the work is believed by some scholars to be the oldest book in the world. Authorship is attributed to Ptahhotep, a vizier under King Iseki of the Egyptian Fifth Dynasty (ca. 2414-2375 BC). It is a collection of maxims and advice in the sebayt ("teaching") genre on human relations and are provided as instruction for his son. The work survives today in papyrus copies, including the Prisse Papyrus which dates from the Middle Kingdom and is on display at the Bibliotheque Nationale in Paris. There are considerable differences between the Prisse Papyrus version and the two texts at the British Museum. The 1906 translation by Battiscombe Gunn, published as part of the "Wisdom of the East" series and which is reprinted here, was made directly from the Prisse Papyrus, in Paris, rather than from copies. Some lessons include: Learning by listening to everybody and knowing that human knowledge is never perfect are a leitmotif. Avoiding open conflict wherever possible should not be considered weakness. Justice should be pursued and in the end it will be a god's command that prevails. Greed is the base of all evil and should be guarded against, while generosity towards family and friends is praiseworthy." *Kingship and the Gods* Oriental Institute Press

This book proposes that Coffin Texts spells 154-160, recorded at the beginning of the 2nd millennium BCE, form the oldest composition about the moon in ancient Egypt and, indeed, the world. Based on a new translation, the detailed analysis of these spells reveals that they provide a chronologically ordered account of the phenomena of a lunar month.

Axioms of Kemet Independently Published

'Man perishes; his corpse turns to dust; all his relatives pass away. But writings make him remembered' In ancient Egypt, words had magical power. Inscribed on tombs and temple walls, coffins and statues, or inked onto papyri, hieroglyphs give us a unique insight into the life of the Egyptian mind. Egyptologist Toby Wilkinson has freshly translated a rich and diverse range of ancient Egyptian writings into modern English, including tales of shipwreck and wonder, obelisk inscriptions, mortuary spells, funeral hymns, songs, satires and advice on life from a pharaoh to his son. Spanning over two millennia, this is the essential guide to a complex, sophisticated culture. Translated with an Introduction by Toby Wilkinson

Moses and Egypt Penguin UK

"Human beings," the acclaimed Egyptologist Jan Assmann writes, "are the animals that have to live with the knowledge of their death, and culture is the world they create so they can live with that knowledge." In his new book, Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole. Drawing on the unfamiliar genre of the death liturgy, he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt. Assmann describes in detail nine different images of death: death as the body being torn apart, as social isolation, the notion of the court of the dead, the dead body, the mummy, the soul and ancestral spirit of the dead, death as separation and transition, as homecoming, and as secret. Death and Salvation in Ancient Egypt also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual.

Reveals the secret language and words of power that enabled the ancient Egyptians to imagine the world into existence • Reveals ancient Egyptian Mystery teachings on immaculate conception, transubstantiation, resurrection, and eternal life • Explores the shamanic journeys that ancient Egyptian priests used to view the unconscious and the afterlife • Provides the essential spiritual

tools needed to return to Zep Tepi, the creative source Drawing from the Egyptian Book of the Dead, the Pyramid texts, the Book of Thoth, and other sacred hieroglyphic writings spanning the three millennia of the Egyptian Mystery Traditions, Normandi Ellis reveals the magical language of creation and words of power that enabled the ancient Egyptians to act as co-creators with the gods. Examining the power of hieroglyphic thinking--how thoughts create reality--and the multiple meanings behind every word of power, the author shows how, with the Neteru, we imagine the world into existence, casting a spell of consciousness over the material world. Uncovering the deep layers of meaning and symbol within the myths of the Egyptian gods and goddesses, Ellis investigates the shamanic journeys that ancient Egyptian priests used to view the unconscious and the afterlife and shares their initiations for immaculate conception, transubstantiation, resurrection, and eternal life--initiations that later became part of the Christian mystery school. Revealing the words of power used by these ancient priests/sorcerers, she explains how to search for the deeper, hidden truths beneath their spells and shows how ancient Egyptian consciousness holds the secret of life itself. Revealing the initiatory secrets of the Osirian Mystery school, Ellis provides the essential teachings and shamanic tools needed to return to Zep Tepi--the creative source--as we face the transitional time of radical change currently at hand.

Royal inscriptions, Herodotus and Manetho have been fundamental in order to reconstruct the chronology and history of ancient Egypt since Champillon's times. Without denying the righteousness of the approach, historical and pseudo-historical material are here analysed as historical documents per se, completely disregarding their value for the histoire événementielle . Genre and format of royal inscriptions become important in order to establish the power of the tradition, as the entire group of historical sources mentioned embody hopes, fears, as well as social and cultural conflicts existing in Egyptian society at the times they were written.

Moral Values in Ancient Egypt Sema Institute / C.M. Book Publishing

The shift from polytheism to monotheism changed the world radically. Akhenaten and Moses--a figure of history and a figure of tradition--symbolize this shift in its incipient, revolutionary stages and represent two civilizations that were brought into the closest connection as early as the Book of Exodus, where Egypt stands for the old world to be rejected and abandoned in order to enter the new one. The seven chapters of this seminal study shed light on the great transformation from different angles. Between Egypt in the first chapter and monotheism in the last, five chapters deal in various ways with the transition from one to the other, analyzing the Exodus myth, understanding the shift in terms of evolution and revolution, confronting Akhenaten and Moses in a new way, discussing Karl Jaspers' theory of the Axial Age, and dealing with the eighteenth-century view of the Egyptian mysteries as a cultural model.

What Is Not Sacred? World Health Organization

"Nearly four thousand years ago, kings in various ancient societies, especially in Mesopotamia (contemporary Iraq), faced a crisis of major proportions. Large portions of the population were horribly in debt, many being forced to sell themselves or their children into slavery to pay off their debts. The laws and customs seemed to support the commercial practices that allowed lenders to charge 20%-30% interest, and the law protected the lenders and gave no recourse for the indebted. Strict justice called for the creditors to receive what they were due. But another legal concept, the emerging idea of equity, seemed to call for a different result - the use of law as a vehicle to free people from economic oppression. Debt relief edicts were instituted - "clean-slate laws" as they were known - and are of obvious relevance today as well where crushing debt is a major issue underlying social inequality"--
