Silver Shadows Profile Books

In many countries, prolonged conflicts result in food emergencies that recur over years or even decades. Initial humanitarian relief efforts are rarely replaced by programmes that offer a longer-term perspective on food security. This book provides examples of opportunities to bridge the gap between emergency relief and longer term developmental approaches, which can help us rethink how to support food security in protracted crises. Somalia, Sudan and the Democratic Republic of Congo have all been affected by severe protracted crises. For the first time, evidence and in-depth analysis from these countries sheds light on how to support the livelihoods of local populations. Using concrete examples, Beyond Relief demonstrates how food security means different things in different contexts while also advocating a crosscutting learning process for longer-term approaches to protracted crisis. Published in association with the Food and Agriculture Organization of the United Nations.

A Guide to Mastering the Business of VIP Security Practical Action Pub

Seven Pillars of Wisdom is a memoir of the soldier known as 'Lawrence of Arabia.' Lawrence is a fascinating and controversial figure and his talent as a vivid and imaginative writer shines through on every page of his masterpiece. 'Seven Pillars of Wisdom' written between 1919 and 1926, is an extraordinary tale of action, politics and adventure. The story describes heroism through instances of war by a man who not only shaped events but was molded by them. The genre of the book can be related to many broad subjects like political history, military strategy, pathology or travel story. Lawrence, known as the defender of the empire, had found war in the Arab world and a long-lasting sideline to the War to End All Wars. This war produced more war during the time, in which, along with many other eminent writers, Lawrence was also involved. Seven Pillars of Wisdom provides a unique portrait of this extraordinary man and an insight into the birth of the Arab nation.

A Century of Philanthropic Innovation CreateSpace

This extraordinary book explains the engine that has catapulted the Internet from backwater to

ubiquity—and reveals that it is sputtering precisely because of its runaway success. With the unwitting help of its users, the generative Internet is on a path to a lockdown, ending its cycle of innovation—and facilitating unsettling new kinds of control. iPods, iPhones, Xboxes, and TiVos represent the first wave of Internet-centered products that can't be easily modified by anyone except their vendors or selected partners. These “tethered appliances” have already been used in remarkable but little-known ways: car GPS systems have been reconfigured at the demand of law enforcement to eavesdrop on the occupants at all times, and digital video recorders have been ordered to self-destruct thanks to a lawsuit against the manufacturer thousands of miles away. New Web 2.0 platforms like Google mash-ups and Facebook are rightly touted—but their applications can be similarly monitored and eliminated from a central source. As tethered appliances and applications eclipse the PC, the very nature of the Internet—its “generativity,” or innovative character—is at risk. The Internet's current trajectory is one of lost opportunity. Its salvation, Zittrain argues, lies in the hands of its millions of users. Drawing on generative technologies like Wikipedia that have so far survived their own successes, this book shows how to develop new technologies and social structures that allow users to work creatively and collaboratively, participate in solutions, and become true “netizens.”

Black Belt Anchor

The title of this book: CAN I SEE YOUR HANDS refers to one of the key outcomes of this book-- being able to tell whether or not people want to cause us harm. To put it very simply, if you can see someone's hands and they are not concealing them, holding a weapon or positioning to strike you, one's levels of trust and confidence can increase. This simple example can serve as a reminder to all of us in many of the complex moments we have to deal with, and difficult decisions we have to make, in everyday life.

A Manual for Inspiring Corporate Bodyguards Universal-Publishers

This easy-to-use reference explores the people and events that shaped Russian military history—and impacted Europe, Asia, and the world—over the past eight centuries. • Helps readers understand the sociopolitical history of Russia and how it continues to exert a major influence in international affairs • Showcases the complex role conflict has played in Russia throughout its history • Includes an introductory essay that discusses how warfare in Russia has progressed over the centuries • Offers entries on wars, battles, organizations, leaders, armies, weapons, and other aspects of war and military life • Provides a ready reference for readers with little or no prior knowledge of Russian history

Becoming Bulletproof Pen and Sword

Includes 3 maps and 7 illustrations The command of military forces in combat is unlike any other field of human endeavor. If war is the ultimate form of human competition, then the commander is the ultimate competitor. The commander operates in an environment of chance, uncertainty, and chaos, in which the stakes are, quite literally, life and death. He or she contends against an adversary who is using every means, fair or foul, to foil his plans and bring about his defeat. The commander is ultimately responsible for every variable that factors into military success or failure—training, logistics, morale, equipment, planning, and execution. The commander reaps the lion's share of plaudits in victory, but also must accept the blame in defeat, warranted or not. Very often the line that separates fame and ignominy is slender indeed. It is not difficult to identify “great” commanders, though the overwhelming majority of generals who win battles are never considered “great.” Something more than a favorable ratio of wins to losses is needed to establish greatness...The truly great commander is generally considered to be one who attains the unexpected or the unprecedented; one who stands above his contemporaries through his skill on the battlefield, or through the sheer magnitude of his accomplishments. ...The commanders selected were masters of warfare in their particular time and environment. Each capitalized upon the social, political, economic, and technological conditions of his day to forge successful military forces and win significant and noteworthy victories that profoundly altered the world in which he lived.—Dr Christopher R. Gabel. The Great Commanders covered by this volume are Alexander the Great, Genghis Khan, Napoleon, John J. Pershing, Erwin Rommel and Curtis E. LeMay Tuttle Publishing

The third in Robert Greene's bestselling series is now available in a pocket sized concise edition. Following 48 Laws of Power and The Art of Seduction, here is a brilliant distillation of the strategies of war to help you wage triumphant battles everyday. Spanning world civilisations, and synthesising dozens of political, philosophical, and religious texts, The Concise 33 Strategies of War is a guide to the subtle social game of everyday life. Based on profound and timeless lessons, it is abundantly illustrated with examples of the genius and folly of everyone from Napoleon to Margaret Thatcher and Hannibal to Ulysses S. Grant, as well as diplomats, captains of industry and Samurai swordsmen.

Corporate Executive Protection: an Introduction for Corporations and Security Professionals Butterworth-Heinemann

Introduction to Celebrity Protection and Touring offers a peek behind the scenes of the close protection industry, more commonly known as the bodyguard business. More than the stereotypical “bullet blocker,” the modern protection specialist is a skilled practitioner who utilizes verbal judo much more than his physical counterpart. This book, written by industry experts, Elijah Shaw and Dale June, also narrows the focus, centering in on an exciting, but misunderstood, sector that involves working with celebrities ranging from actors to musicians and entering into their world of touring, filming and promotional appearances. While many may think that celebrity protection is “one size fits all,” nothing could be further from the truth, as you are not only dealing with the protection of the client, but the client's reputation. All this with the added pressure of the entire world looking over your shoulder, just waiting for a misstep. With real-world advice, tactics and techniques on how to identify and defeat potential attackers, as well as covering everything from dealing with overzealous fans, to hyper-aggressive paparazzi, this book offers proven solutions from two experts that have covered the gambit from the Grammy Awards to the White House.

Great Commanders [Illustrated Edition] John Wiley & Sons

This is a book about strategy and war fighting. It contains 11 essays which examine topics such as military operations against a well-armed rogue state, the potential of parallel warfare strategy for different kinds of states, the revolutionary potential of information warfare, the lethal possibilities of biological warfare and the elements of an ongoing revolution in military affairs. The purpose of the book is to focus attention on the operational problems, enemy strategies and threat that will confront U.S. national security decision makers in the twenty-first century.

Seven Pillars of Wisdom Universal-Publishers

The Book that Sparked A Selling Revolution In 1985 one book changed sales and marketing forever. Rejecting manipulative tactics and emphasizing "process," Strategic Selling presented the idea of selling as a joint venture and introduced the decade's most influential concept, Win-Win. The response to Win-Win was immediate. And it helped turn the small company that created Strategic Selling, Miller Heiman, into a global leader in sales development with the most prestigious client list and sought-after workshops in the industry. Now Strategic Selling has been updated and revised for a new century of sales success. The New Strategic Selling This new edition of the business classic confronts the rapidly evolving world of business-to-business sales with new real-world examples, new strategies for confronting competition, and a special section featuring the most commonly asked questions from the Miller Heiman workshops. Learn: * How to identify the four real decision makers in every corporate labyrinth * How to prevent sabotage by an internal deal-killer * How to make a senior executive eager to see you * How to avoid closing business that you'll later regret * How to manage a territory to provide steady, not "boom and bust," revenue * How to avoid the single most common error when dealing with the competition.

Toward Combined Arms Warfare Elsevier

In New York Times bestselling author Jennifer L. Armentrout's gripping new novel, a young woman comes home to reclaim her life—even as a murderer plots to end it. . . It's been ten years since Sasha Keaton left her West Virginia hometown . . . since she escaped the twisted serial killer known as the Groom. Returning to help run her family inn means being whole again, except for one missing piece. The piece that falls into place when Sasha's threatened—and FBI agent Cole Landis vows to protect her the way he couldn't a decade ago. First one woman disappears; then another, and all the while, disturbing calling cards are left for the sole survivor of the Groom's reign of terror. Cole's never forgiven himself for not being there when Sasha was taken, but he intends to make up for it now . . . because under the quirky sexiness Cole first fell for is a steely strength that only makes him love Sasha more. But someone is watching. Waiting. And Sasha's first mistake could be her last.

A Novel Atria Books

Corporate Security Management provides practical advice on efficiently and effectively protecting an organization's processes, tangible and intangible assets, and people. The book merges business and security perspectives to help transform this often conflicted relationship into a successful and sustainable partnership. It combines security doctrine, business priorities, and best practices to uniquely answer the Who, What, Where, Why, When and How of corporate security. Corporate Security Management explores the diverse structures of security organizations in different industries. It shows the crucial corporate security competencies needed and demonstrates how they blend with the competencies of the entire organization. This book shows how to identify, understand, evaluate and anticipate the specific risks that threaten enterprises and how to design successful protection strategies against them. It guides readers in developing a systematic approach to assessing, analyzing, planning, quantifying, administrating, and measuring the security function. Addresses the often opposing objectives between the security department and the rest of the business concerning risk, protection, outsourcing, and more Shows security managers how to develop business acumen in a corporate security environment Analyzes the management and communication skills needed for the corporate security manager Focuses on simplicity, logic and creativity instead of security technology Shows the true challenges of performing security in a profit-oriented environment, suggesting ways to successfully overcome them Illustrates the numerous security approaches and requirements in a wide variety of industries Includes case studies, glossary, chapter objectives, discussion questions and exercises

" Sydney Sage is an Alchemist, one of a group of humans who dabble in magic and serve to bridge the worlds of humans and vampires. Now in the aftermath of an event that ripped their world apart, Sydney and Adrian struggle to pick up the pieces and find their way back to each other. But first, they have to survive"--

Beyond Charity Rand Corporation

She fought for her country. Now she's fighting for her family. When Sergeant Charlie McCabe returns from fighting in Afghanistan, she hopes to leave the war behind. Instead, she comes home to a father whose gambling has put him in deep trouble with a violent loan shark. She finds work as a professional bodyguard, but to save her father, she needs to get serious cash together fast. However, her father isn't the only one who needs saving. When Charlie's first client—a wealthy executive with a shady past—narrowly escapes a bomb plot, Charlie's investigation leads her into the heart of Boston's criminal underworld. Along the way, she stumbles upon clues about a diamond heist gone wrong that's been unsolved for decades. With the clock ticking and chaos descending, Charlie sees a solution to both problems, but it won't be easy, and it won't be pretty. A "normal" life may await Charlie on the other side of this mess, but part of her knows that the battle has just begun.
