Claiming His Pregnant Wife Eburon Uitgeverij B.V.
Here is a highly motivating book for grade-school students that will introduce them to

many of the world's most popular (and historically significant) scientific experiments. They'll learn about gravity simply by following the acrobatic antics of an ordinary coin. By trying to blow an egg out of a cup, they'll discover the principles of air pressure. Dancing soap bubbles will help them understand the effects of static electricity,

and by dropping quarters into a full glass of water without causing it to overflow, they'll study the effects of surface tension. These and over 40 other experiments have been carefully selected by noted educators Eugene and Asterie Baker Provenzo to familiarize children with classic science experiments involving optics, inertia, air pressure, magnetism, sound, topology, light, density, vibration, prisms, elasticity, gases, vacuum, perspective, geometry, centrifugal force,

buoyancy, color, and much more. Some experiments, such as the optical "Newton's Rings" are hundreds of years old. Still others, like the straw lever test, are based on Greek experiments with leverage and the center of gravity — first carried out thousands of years ago. Easy-to-follow instructions and illustrations show youngsters how to perform each experiment, most of which are prefaced with historical background, a list of necessary materials and an explanation of key

terms. Almost all experiments can be carried out with common household items (tissue paper, scissors, tapes, rubber balloons, pens, pencils, etc.) and can be worked at home or in the classroom to demonstrate specific scientific principles or to supplement a science-curriculum unit. Sources for all historical illustrations given in the text are listed at the end of the book.

NEW YORK TIMES
BESTSELLER • From the two-time Pulitzer Prize-winning author of *The*

Underground Railroad and The Nickel Boys, this gloriously entertaining novel is “fast-paced, keen-eyed and very funny ... about race, power and the history of Harlem all disguised as a thrill-ride crime novel” (San Francisco Chronicle). “Ray Carney was only slightly bent when it came to being crooked...” To his customers and neighbors on 125th street, Carney is an upstanding salesman of reasonably priced furniture, making a decent life for himself and his family. He and his wife

Elizabeth are expecting their second child, and if her parents on Striver's Row don't approve of him or their cramped apartment across from the subway tracks, it's still home. Few people know he descends from a line of uptown hoods and crooks, and that his façade of normalcy has more than a few cracks in it. Cracks that are getting bigger all the time. Cash is tight, especially with all those installment-plan sofas, so if his cousin Freddie occasionally drops off the odd ring or necklace, Ray

doesn't ask where it comes from. He knows a discreet jeweler downtown who doesn't ask questions, either. Then Freddie falls in with a crew who plan to rob the Hotel Theresa—the “Waldorf of Harlem”—and volunteers Ray's services as the fence. The heist doesn't go as planned; they rarely do. Now Ray has a new clientele, one made up of shady cops, vicious local gangsters, two-bit pornographers, and other assorted Harlem lowlifes. Thus begins the internal tussle

between Ray the striver and Ray the crook. As Ray navigates this double life, he begins to see who actually pulls the strings in Harlem. Can Ray avoid getting killed, save his cousin, and grab his share of the big score, all while maintaining his reputation as the go-to source for all your quality home furniture needs? Harlem Shuffle's ingenious story plays out in a beautifully recreated New York City of the early 1960s. It's a family saga masquerading as a crime novel, a hilarious morality play, a

social novel about race and power, and ultimately a love letter to Harlem. But mostly, it's a joy to read, another dazzling novel from the Pulitzer Prize and National Book Award-winning Colson Whitehead. Look for Colson Whitehead's new novel, *Crook Manifesto*, coming soon!

Chemistry 2e Harlequin When Francesco Romanelli met Erin Foyle, they were married within days—but it took just a month for their marriage to fall apart— Believing her husband to be nothing

The Postcard Killers

Legare Street Press

In this first installment of the Renée Ballard series, #1 bestselling author Michael Connelly introduces a "complicated and driven" young detective fighting to prove herself on the LAPD's toughest beat (The New York Times). Renee Ballard works the midnight shift in Hollywood, beginning many investigations but finishing few, as each morning she turns

everything over to the daytime units. It's a frustrating job for a once up-and-coming detective, but it's no accident. She's been given this beat as punishment after filing a sexual harassment complaint against a supervisor. But one night Ballard catches two assignments she doesn't want to part with. First, a prostitute is brutally beaten and left for dead in a parking lot. All signs point to a crime of premeditation, not passion, by someone with big evil on his mind. Then

she sees a young waitress breathe her last after being caught up in a nightclub shooting. Though dubbed a peripheral victim, the waitress buys Ballard a way in, and this time she is determined not to give up at dawn. Against orders and her partner's wishes, she works both cases by day while maintaining her shift by night. As the investigations intertwine, Ballard is forced to face her own demons and confront a danger she could never have

imagined. To find justice for these victims who can't speak for themselves, she must put not only her career but her life on the line. Propulsive as a jolt of adrenaline and featuring a bold and defiant new heroine, *The Late Show* is yet more proof that Michael Connelly is "a master of the genre" (*Washington Post*). *Know Your Rights and Claim Them* Simon and Schuster

Europe is stunning in the summer . . . but NYPD detective Jacob Kanon isn't there for the beauty. He's on a mission: to track down his daughter's killer. NYPD detective Jacob Kanon is on a tour of Europe's most gorgeous cities. But the sights aren't what draw him-he

sees each museum, each cathedral, and each cafe through the eyes of his daughter's killer. Kanon's daughter, Kimmy, and her boyfriend were murdered while on vacation in Rome. Since then, young couples in Paris, Copenhagen, Frankfurt, and Stockholm have been found dead. Little connects the murders, other than a postcard to the local newspaper that precedes each new victim. Now Kanon teams up with the Swedish reporter, Dessie Larsson, who has just received a

postcard in Stockholm- and they think they know where the next victims will be. With relentless twists and unstoppable action, *The Postcard Killers* may be James Patterson's most vivid and compelling thriller yet. **Silencer** Little, Brown

Digitaal lezen is sterk in opkomst. Maar hoe gaat het maken en verkopen van een ebook in zijn werk? Het creëren van een ebook in het ePub formaat, de standaard voor ebooks in Nederland,

is niet zo eenvoudig als het lijkt; even een manuscript omzetten is er helaas niet bij. Wiebe de Jager beschrijft in deze praktijkgids hoe je een ebook maakt met het open source programma Sigil en hoe je het ebook vervolgens op de markt brengt. Deze gids is interessant voor zowel auteurs die hun ebook in eigen beheer willen uitgeven als uitgevers die aan de slag willen met digitale boeken. Behandeld wordt onder andere het importeren van een manuscript, het

indelen in hoofdstukken, het toevoegen van structuur en opmaak, het invoegen van afbeeldingen en een omslag, het bewerken van metadata en het genereren en valideren van een ePub bestand dat gelezen kan worden op uiteenlopende apparaten, zoals ereaders, pcs, smartphones en tablets. Tot slot wordt ingegaan op de mogelijkheden om ebooks te promoten, distribueren, beveiligen en verkopen. Wiebe de Jager is directeur van uitgeverij Eburon en

medeoprichter van eReaders.nl. Hij schrijft veel over ebooks op zijn weblog en in vakbladen. Hij is daarnaast een veelgevraagd spreker op het gebied van digitaal uitgeven en de toekomst van het boek.
