Sonar Bangla? Orient Blackswan

The idea of the 'Bangladesh paradox' describes the unexpected social progress that Bangladesh has made in recent decades that has been both pro-poor and gender equitable. This began at a time when the country was characterised by extreme levels of poverty, poor quality governance, an oppressive patriarchy and rising Islamic orthodoxy. This 'paradox' has evoked a great deal of interest within the international development community because Bangladesh had been dubbed an 'international basket case' at the time of its independence in 1971, seemingly trapped in a development impasse. Previous attempts to explain this paradox have generally taken a top-down approach, focusing on the role of leading institutional actors – donors, government, NGOs and the private sector. In *Renegotiating Patriarchy: Gender, Agency and the Bangladesh Paradox*, Naila Kabeer starts with the rationale that policy actions taken at the top are unlikely to materialise into actual changes if they are not acted on by the mass of ordinary women and men. But what led these women and men to act? And why did they act in ways that modified some of the more oppressive aspects of patriarchy in the country? That is what this book sets out to investigate. It describes the history of the Bengal delta, and the forces that gave rise to the kind of society that Bangladesh was at the time of its independence. It considers the policy and politics that characterised post-independence Bangladesh and how these contributed to the progress captured in the idea of the Bangladesh paradox. But the key argument of the book is that much of this progress reflected the agency exercised by ordinary, often very poor, women in the course of their everyday lives. Their agency helped to translate institutional actions into concrete changes on the ground. To explore why and how this happened, the book draws on a rich body of ethnographic, qualitative and quantitative research on social change in Bangladesh – including studies by the author herself. The book is therefore about how norms and practices can change in progressive ways despite unpropitious circumstances as a result of the efforts of poor women in Bangladesh to renegotiate what had been described as one of the most non-negotiable patriarchies in the world.

With a literary history spanning centuries, the languages of Odisha have found myriad expression in prose, poetry, mythology, history, and politics. The Big Book of Odia Literature goes where very few have dared—into a history of language, literature and song that can be traced back all the way to the tenth century. In this careful curation, The Big Book curates essays, stories, poems, and plays that have defined the culture of a state and a people. A first of its kind, the volume is for lovers of linguistic history and literary traditions.

Swami Nityatmananda lived in the company of Sri M. for a long time, maintained a diary and elaborated it in sixteen parts of Sri Ma Darshan. The book is also available in English under the title 'M., the Apostle & the Evangelist.' All the sixteen parts are available in Bengali too. It is a continuation of the Kathamrita. This work is the result of twenty years of hard and incessant work and tapasya, on the banks of the Ganga in Rishikesh, in the Himalayas. In this series of 16 volumes the reader is brought in close touch with the life and teachings of Sri Ramakrishna family: Thakur, Swamiji, Holy Mother, M., Swami Shivananda, Swami Abhedananda and others. And there is the elucidation according to Sri Ramakrishna's line of thought, of the Upanishads, the Gita, the Bible, Guru Granth Sahib, the Holy Quran and other scriptures. The third specialty of this work is the commentary on the Gospel of Sri Ramakrishna by the author himself. Says Swami Shraddhananda, "One wonders at the unusual capacity of Swami Nityatmananda in recording these day to day conversations of this Vyasadeva of our time – M. – and later developing his notes into his masterly work. One cannot fail to discover the special training he received from Sri M. himself in this direction while he was serving as a teacher in M.'s school and living with him for years." When he read it, Swami Jagadananda remarked, "The author has presented M.'s words lifelike. After reading his Kathamrita, a study of this book will throw new light on the Kathamrita. There is no doubt about it." The great American and senior sadhu, Swami Atulananda, wrote, "This book may serve a double purpose. To those who are acquainted with M.'s Kathamrita, it may be welcome as a companion volume, and to those not yet acquainted with the Kathamrita, it may arouse a desire to make that acquaintance. For this book, which is a record of M.'s talks with his admirers about his reminiscences, not only reveals new facts about the life of Sri Ramakrishna, but throws new light on that wonderful life." Swami Virajananda, the late President of Sri Ramakrishna Math and Mission, heard the manuscript read to him by his Secretary when he visited Dehradun for the last time, and he was delighted to hear it. He told to the author, "What a wonderful thing you have written! Why didn't you show it to me earlier? Never mind, now go and finish the writing. Human life is so uncertain. If you complete the writing itself, publication can be taken up by others... Ah! The move is as dramatic as the subject is sublime...'

This book provides the state-of-the-art intelligent methods and techniques for solving real-world problems along with a vision of the future research. The fifth 2020 Future Technologies Conference was organized virtually and received a total of 590 submissions from academic pioneering researchers, scientists, industrial engineers, and students from all over the world. The submitted papers covered a wide range of important topics including but not limited to computing, electronics, artificial intelligence, robotics, security and communications and their applications to the real world.

After a double-blind peer review process, 210 submissions (including 6 poster papers) have been selected to be included in these proceedings. One of the meaningful and valuable dimensions of this conference is the way it brings together a large group of technology geniuses in one venue to not only present breakthrough research in future technologies, but also to promote discussions and debate of relevant issues, challenges, opportunities and research findings. The authors hope that readers find the book interesting, exciting and inspiring

Bangladesh Education Journal S. Chand Publishing

Bangla is spoken as the majority language in Bangladesh and the state of West Bengal in India, and as a minority language in several other Indian states. With almost 200 million native speakers, it ranks among the top ten languages in the world in number of speakers. Based on both primary and secondary materials, the CASL Bangla grammar provides comprehensive coverage of the phonology, orthography, morphology, and syntax of Bangla. Plentiful examples of naturally-occurring sentences provide native orthography, Romanization, and morpheme-by-morpheme glossing along with free translations. Unlike many Romanizations of Bangla, our system eschews Sanskritic influence and instead reflects actual Bangla phonology. We also offer comparative information of use to linguists, highlighting features of Bangla shared with the South Asian sprachbund, such as light verb constructions, as well as those that differentiate Bangla from its Indo-Aryan relatives; for example, its unique NP structure. Written in an accessible style from a theory-neutral perspective, this work will be of use to linguistic researchers, language scholars, and students of Bangla. A formal grammar focusing on the morphology is an available companion work.

Corpus Linguistics and Language Technology Stanford University Press

General Intelligence and Test of Reasoning owes its existence to comprehensive research and strategic planning. A thorough coverage of the reasoning section of various competitive examinations has been achieved after an in-depth research and proper analysis of original papers of the UPSC, SSC, banking services, B-school tests and tests by other central and state-level recruitment bodies. A unique aspect of this book is the approach it adopts in explaining the concepts of verbal analysis, non-verbal analysis, critical reasoning and data interpretation. Each chapter starts with a brief introduction to the various formats of questions asked in competitive examinations, followed by topic-specific tests, which provide numerous multiple-choice questions that involve students in an interactive way to improve their accuracy level. The last chapter provides scientifically structured and exam-oriented test papers to familiarize candidates with current trends and types of questions. These test papers and self-scoring tables will help students assess their own level of preparation.

The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it was published by All India Radio, New Delhi. In 1950, it was turned into a weekly journal. Later, The Indian listener became "Akashvani" in January 5, 1958. It was made a fortnightly again on July 1, 1983. It used to serve the listener as a Bradshaw of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. Eloquence in Trouble captures the articulation of several troubled lives in Bangladesh as well as the threats to the very genres of their expression, lament in particular. The first ethnography of one of the most spoken mother tongues on earth, Bangla, this study represents a new approach to troubles talk, combining the rigor of discourse analysis with the interpretive depth of psychological anthropology. Its careful transcriptions of Bangladeshi troubles talk will disturb some readers and move others--beyond past academic discussion of personhood in South Asia.

Jāmī in Regional Contexts: The Reception of 'Abd Al-Raḥmān Jāmī's Works in the Islamicate World is the first attempt to present in a comprehensive manner how 'Abd al-Raḥmān Jāmī (d. 898/1492), a most influential figure in the Persian-speaking world, reshaped the canons of Islamic mysticism, literature and poetry and how, in turn, this new canon prompted the formation of regional traditions. As a result, a renewed geography of intellectual practices emerges as well as questions surrounding authorship and authority in the making of vernacular cultures. Specialists of Persian, Arabic, Chinese, Georgian, Malay, Pashto, Sanskrit, Urdu, Turkish, and Bengali thus provide a unique connected account of the conception and reception of Jāmī's works throughout the Eurasian

continent and maritime Southeast Asia.

This is the first book to analyze agrarian change in rural Bengal since the recent upsurge in agricultural growth which began in the mid-1980s. A distinguished cast of contributors explore the complex linkages between agricultural growth, agrarian social change, government policy and local level practice.

India's Literary History Vikas Publishing House

Few places are as politically precarious as Bangladesh, even fewer as crowded. Its 57,000 or so

square miles are some of the world's most inhabited. Often described as a definitive case of the bankruptcy of postcolonial governance, it is also one of the poorest among the most densely populated nations. In spite of an overriding anxiety of exhaustion, there are a few important caveats to the familiar feelings of despair—a growing economy, and an uneven, yet robust, nationalist sentiment—which, together, generate revealing paradoxes. In this book, Nusrat Sabina Chowdhury offers insight into what she calls "the paradoxes of the popular," or the constitutive contradictions of popular politics. The focus here is on mass protests, long considered the primary medium of meaningful change in this part of the world. Chowdhury writes provocatively about political life in Bangladesh in a rich ethnography that studies some of the most consequential protests of the last decade, spanning both rural and urban Bangladesh. By making the crowd its starting point and analytical locus, this book tacks between multiple sites of public political gatherings and pays attention to the ephemeral and often accidental configurations of the crowd. Ultimately, Chowdhury makes an original case for the crowd as a defining feature and a foundational force of democratic practices in South Asia and beyond.
