[A Biography of the First Lady of Jazz, Updated Edition](#) Hal Leonard Corporation

It's the Cowboy Way! tells the full story of the amazing true adventures of group members Ranger Doug, Woody Paul, Too Slim, and Joey "The CowPolka King" for the first time, from their first gigs at "Herr Harry's Phranks 'N' Steins," in Nashville, to their rise to the top of the Grammy heap. Since 1977, Riders In The Sky has faithfully tended a musical tradition kindled by singing cowboy legends, such as Gene Autry and the Sons Of The

Pioneers. Throughout its long career, the group has branded the genre with its own mark, crafting a well-balanced mix of both classic and original western songs—smooth harmony, hot licks, and comedy. Over the past quarter of a century, and more than 4,500 shows, 290 national TV appearances, 203 public radio shows, nearly 700 Grand Ole Opry appearances, 2.3 million miles on the road, two Grammy Awards, three television series, and 31 albums down the trail, a group that began with a commitment to carry on an American musical tradition has itself become a national treasure.

American Popular Song Psychology Press

Building on the foundation of Lerdahl and Jackendoff's influential A Generative Theory of Tonal Music, this volume presents a multidimensional model of diatonic and chromatic spaces that quantifies listeners' intuitions of the relative distances of pitches, chords, and keys from a given tonic. The model is employed to assign prolongational structure, represent paths through the space, and compute patterns of tension and attraction as musical events unfold, thereby providing a partial basis for understanding musical narration, expectation, and expression. Conceived as both a music-theoretic treatise and a contribution to the cognitive science of music, this book will be of interest to music theorists, musicologists, composers, computer musicians, and cognitive psychologists.

Jazz Classics (Songbook) Routledge

Pianist George Shearing is that rare thing, a European jazz musician who became a household name in the US, as a result of the "Shearing sound"—the recordings of his historic late 1940s quintet. Together with his unique "locked hands" approach to playing the piano, Shearing's quintet with guitar and vibraphone in close harmony to his own playing revolutionized small group jazz, and ensured that after seven years as Melody Maker's top British pianist, he achieved even greater success in America. His compositions have been recorded by everyone from Sarah Vaughan to Miles Davis, and his best known pieces include "Lullaby of Birdland", "She" and "Conception". His story is all the more remarkable because Shearing was born blind. His candid reminiscences include a behind the scenes experience of New York's 52nd Street in its heyday, as well as memories of a vast roll-call of professional colleagues that includes all the great names in jazz.
