Vibal Foundation  
Nowhere is the

complex and  
destructive painter  
Jackson Pollock  
(1912-1956) revealed  
with more compassion  
and insight than in this  
exemplary biography.  
Friedman, a friend of  
Pollock's and active in

the art world, shows him to be a brilliant man tormented by his relationship to his family; an artist who worked hard through years of poverty to achieve his controversial painting technique; the first American painter to gain an international reputation for himself and for what has been variously called Action Painting or Abstract Expressionism; and a man who struggled with alcohol and the tension between gentleness and violence. Newly illustrated with seminal Pollock paintings, this book takes the reader inside the art world of New York during the '40s and '50s, when Action Painting first emerged. Friedman reveals what it meant to Pollock to

experience the invasion of his studio and of the very act of painting by the external pressures of shows, reviews, films, dealers, critics, hostile publicity; and how, despite it all, Pollock created many of the most graceful and powerful paintings ever made in America.

Wadsworth Publishing Company

Winner of the Helen and Howard Marraro Prize A Times Literary Supplement Book of the Year "Perhaps the greatest study ever written of Renaissance political thought."

—Jeffrey Collins, Times Literary Supplement  
"Magisterial...Hankins shows that the humanists' obsession with character explains their surprising indifference to

particular forms of government. If rulers lacked authentic virtue, they believed, it did not matter what institutions framed their power.” —Wall Street Journal “Puts the politics back into humanism in an extraordinarily deep and far-reaching way...For generations to come, all who write about the political thought of Italian humanism will have to refer to it; its influence will be...nothing less than transformative.” —Noel Malcolm, *American Affairs* “[A] masterpiece...It is only Hankins’s tireless exploration of forgotten documents...and extraordinary endeavors of editing, translation, and exposition that allow us to

reconstruct—almost for the first time in 550 years—[the humanists’] three compelling arguments for why a strong moral character and habits of truth are vital for governing well. Yet they are as relevant to contemporary democracy in Britain, and in the United States, as to Machiavelli.” —Rory Stewart, *Times Literary Supplement* “The lessons for today are clear and profound.” —Robert D. Kaplan *Convulsed* by a civilizational crisis, the great thinkers of the Renaissance set out to reconceive the nature of society. Everywhere they saw problems. Corrupt and reckless tyrants sowing discord and ruling through fear; elites who prized wealth and status over

the common good; religious leaders preoccupied with self-advancement while feuding armies waged endless wars. Their solution was at once simple and radical. "Men, not walls, make a city," as Thucydides so memorably said. They would rebuild the fabric of society by transforming the moral character of its citizens. Soulcraft, they believed, was a precondition of successful statecraft. A landmark reappraisal of Renaissance political thought, *Virtue Politics* challenges the traditional narrative that looks to the Renaissance as the seedbed of modern republicanism and sees Machiavelli as its exemplary thinker. James Hankins reveals that what most

concerned the humanists was not reforming institutions so much as shaping citizens. If character mattered more than laws, it would have to be nurtured through a new program of education they called the *studia humanitatis*: the precursor to our embattled humanities. [Reflections and Shadows](#) Rizzoli International Publications "This volume features more than 100 exceptional drawings, pastels, watercolors, and collages from the Bowdoin College Museum of Art, which has been collecting drawings since the 1811 bequest of James Bowdoin III. The works exemplify what compels artists to draw and thus illustrate the ongoing relevance of

drawing as the most foundational artistic practice"--

A major survey of American art from the Colonial period to the early 21st-century.

Savage Mind to Savage

Machine U of

Minnesota Press

Love him or hate him, admire him or revile him, there is no doubt that Clement

Greenberg was the most influential critic of modern art in the

second half of the twentieth century. His

championing of abstract expressionist painters such as

Jackson Pollock,

Barnett Newman, and

David Smith helped to put the United States on the international art

map. His support for

color-field painters

Morris Louis and

Kenneth Noland

dramatically

accelerated their

careers. The

intellectual power of

Greenberg's

sometimes polemical

essays helped bring

about the midcentury

shift that saw New York

replace Paris as the art

capital of the Western

world; his aggressive

personality and fierce

involvement in the

New York art scene

triggered a backlash so

potent that one critic

termed it a

"patricide." Florence

Rubinfeld has written

a gossipy, vivid, and

above all intelligent life

of Clement Greenberg-

not an easy figure to

depict. At once

sympathetic and

shrewdly insightful

about his polarizing

character, she has

given us a man whose

fabled orneriness and

power hunger was redeemed by his love of art."-James AtlasFlorence Rubinfeld was the East Coast editor of the New Art Examiner for many years. She lives in Washington, D.C. *The Eighteenth Century* Laurence King Publishing Featuring examples across many media and extending beyond ethnicity, 'Asian/American/Modern Art' brings into focus an underrepresented and vital group within American art. *Asian American Modern Art* Artpostasia A valuable resource for students of art and art history, this book is the fruit of two decades of research and association with social realists and other protest and in revolutionary artists.

Guillermo goes back to the origins of protest art in the 19th century and pursues it to its full flourishing in the Marcos regime and its variations during the Aquino administration. It also projects the trajectory of art into the future as new issues emerge to engage the political artist.

While Surrealism was becoming out of fashion in Europe in the 1930s, it enjoyed a growing popularity on the other side of the Atlantic. This text traces the history of this movement in the United States from about 1930 to 1950 by examining its manifestations

throughout the country.

Horror Vacui La fabrica In this first book of interviews with visual artists from across Texas, more than sixty artists reflect on topics from formative influences and inspirations to their common engagement with found materials. Beyond the art itself, no source is more primary to understanding art and artist than the artist's own words. After all, who can speak with more authority about the artist's influences, motivations, methods, philosophies, and creations? Since 2010, Robert Craig Bunch has interviewed sixty-four of Texas' finest artists, who have responded with honesty, clarity, and—naturally—great insight into their own

work. None of these interviews has been previously published, even in part.

Incorporating a striking, full-color illustration of each artist's work, these absorbing self-examinations will stand collectively as a reference of lasting value.

What is Philippine about Philippine Art? and Other Essays  
London : E. Benn ; New York : Barnes & Noble  
On the 500th anniversary of Martin Luther's 95 Theses,

this opulent book presents a colorful introduction to Renaissance art and history. featuring more than a hundred outstanding paintings, drawings, & prints, sculptures, and treasures of the Age of the Reformation, & this publication comprises masterpieces by Albrecht Dürer, & Lucas Cranach the Elder and Lucas Cranach the Younger, Hans & Holbein the Elder and Hans Holbein the Younger, Matthias & Grünewald, and Tilman Riemenschneider, among others. By & placing these works in their historical context, this beautifully & illustrated book uses art as a prism through which to consider & the religious, social and political upheavals of

the time. The & volume includes insightful texts that discuss pivotal subjects & such as traditional imagery and devotion, Reformation and & polemics, court life and culture, humanism and reality, as well & as portraiture and representation. Biographies of the artists, & an extensive bibliography and a glossary of central terms & concerning the German Reformation make this a comprehensive & study of a fascinating period in European art history. *Curated by Federico De Vera* The Museum of Modern Art "This concise study of Jackson Pollock provides a reliable survey of his life and work and an understanding of his paintings--their origins,

meanings, and influence. Unlike other books on Pollock that deal extensively with his life or with formal analysis of his works, Cernuschi's is broadly interpretive, discussing and explaining concerns and meanings crucial to an understanding of Pollock's paintings."

"The first part of the book surveys Pollock's life and work with particular attention to the artist's intentions and the interpretation of abstraction. The second part deals with the issues raised by Pollock's art above and beyond his intentions and how these issues intersect with the work of his contemporaries and with other intellectual currents. The final chapter discusses Pollock's influence and the

importance of criticism in shaping this influence. It also deals with the problems of defining modernism and postmodernism."

"Thoughtful and accessible, Cernuschi's study explains the complexity and meaning of Pollock's art for anyone interested in twentieth-century art and the pivotal position of Jackson Pollock in art since 1945. There are notes, a selected bibliography, and an index."--BOOK

 Dr. Rebecah Hall offers insight into her identity living between her Native upbringing and

the Christian world. These poems offer reflection, hope, love, inspiration, and honesty about the author and the truths we can find within ourselves.

Jackson Pollock Giles As The New Yorker's genius cartoonist, Saul Steinberg was universally admired for his playful and profound images of the life and times of his adopted homeland, the USA. In Reflections and Shadows, the artist evokes an equally enchanting portrait of his own life, conjuring images from his childhood in poverty-stricken Romania, his artistic education in Milan and his first taste of freedom and opportunity, in Washington and New York. Written in collaboration with his

close friend, the author Aldo Buzzi, Reflections and Shadows offers a wonderful insight into the life and work of one of the twentieth century's great talents.

**Virtue Politics** Da Capo Press

This book pays tribute to two important systems of architectural representation: the model and the photography. It rescues over one hundred original photographs of outstanding models - finally built or not built - in Spain during the twentieth-century. A modern, visual, critical and historiographical discourse of the first magnitude. Beyond the analysis of their technical or compositional structure, the book includes sample

pictures by  
 photographs like  
 Catala- Roca, Kindel ,  
 Pando, Llado, Maspons  
 - Ubina Gomez or  
 Massats and architects  
 as Aizpurua , de la Sota  
 and Higuera  
Anita Magsaysay-Ho  
 National Academy  
 Museum and School of  
 Fine Arts  
 The Sublime has been  
 considered an archaic  
 concept the relevance  
 of which was limited to  
 eighteenth-century  
 discourses on art,  
 literary criticism and  
 aesthetics. But it is  
 becoming obvious that  
 contemporary culture  
 requires of us a  
 response that is at  
 once emotional,  
 critical, powerful and  
 meaningful, and  
 recently the issue of  
 the sublime has found  
 its way back onto the  
 critical agenda. This  
 book asks a series of

critical questions about  
 this resurgence: What  
 is the legacy of the  
 discourse of the  
 sublime for us today?  
 In what ways has it  
 acquired an added  
 urgency in our new  
 millennium? To what  
 extent is this concept a  
 useful or dangerous  
 tool for the  
 understanding of  
 contemporary culture  
 and history? How does  
 the Sublime follow the  
 Post Modern? To what  
 uses can and should it  
 be put? Why the  
 Sublime now? The  
 editors have collected  
 writings from many  
 contemporary thinkers  
 who bring the critical  
 concept of the sublime  
 into their discussions of  
 contemporary cultures.  
 Spanning philosophy,  
 religion, ecology,  
 politics, literature,  
 avant-garde art,  
 popular cinema, comic

books, humour and digital cultures these essays consider the relevance of the sublime now. The authors make provocative readings of the original writings on the sublime, from Longinus, Burke, Kant and Nietzsche, to Freud, Lyotard, Derrida, Kristeva and others whilst bringing these writings to bear on today's cultural issues.

An examination of how concepts of “the savage” facilitated technological approaches to

modernist design Attempting to derive aesthetic systems from natural structures of human cognition, designers looked toward the “savage mind”—a way of thinking they associated with a racialized subaltern. In *Savage Mind to Savage Machine*, Ginger Nolan uncovers an enduring relationship between “the savage” and the development of technology and its wide-ranging impact on society, including in the fields of architecture and urbanism, the industrial arts, and digital design. Nolan focuses on the relationship between the applied arts and the structuralist social sciences, proposing that the late-nineteenth-century rise

of Freudian psychology, ethnology, and structuralist linguistics offered innovations and new opportunities in studying human cognition. She looks at institutions ranging from the Public Industrial Arts School of Philadelphia and the Weimar Bauhaus to the MIT Media Lab and the Centre Mondial Informatique, revealing a persistent theme of twentieth-century design: to supplant language with more subliminal, aesthetic modes of communication, thereby inculcating a deep intimacy between human habit and new technologies of production, communication, and consumption. This book's ultimate critique is of the development

of the ergonomics of the spirit—the design of the human cognitive apparatus in relation to new aesthetic technologies. Nolan sees these ergonomics as a means of depoliticizing societies through aesthetic technologies intended to seamlessly integrate humans into the programs of capitalist modernity. Revising key modernist design narratives, *Savage Mind to Savage Machine* provides a deep historical foundation for understanding our contemporary world.
