Mini Owner's Handbook Motorbooks

Philip Roth's bestselling alternate history—the chilling story of what happens to one family when America elects a charismatic, isolationist president—is soon to be an HBO limited series. In an extraordinary feat of narrative invention, Philip Roth imagines an alternate history where Franklin D. Roosevelt loses the 1940 presidential election to heroic aviator and rabid isolationist Charles A. Lindbergh. Shortly thereafter, Lindbergh negotiates a cordial “understanding” with Adolf Hitler, while the new government embarks on a program of folksy anti-Semitism. For one boy growing up in Newark, Lindbergh's election is the first in a series of ruptures that threaten to destroy his small, safe corner of America—and with it, his mother, his father, and his older brother. “A terrific political novel . . . Sinister, vivid, dreamlike . . . creepily plausible. . . You turn the pages, astonished and frightened.” — The New York Times Book Review

If there ever was a vision for success, it was the John Cooper brainchild—take an ordinary Mini with its shoe-box size and shape, its exaggerated roadholding and steering, and its already apparent popularity, and make it go faster. This is a strong, detailed development story of that famous, lovable roller-skate, the Mini Cooper. Included are contemporary, nostalgic anecdotes and a mass of interesting photographs, some specially shot in color, to pay tribute to that extrovert of extrovert Minis. About the Author: Jeremy Walton is a well known British journalist who as a school boy visited an Austin showroom to see the first Mini in 1959. Hugely experienced in the field he has authored many books on Ford, BMW, and the iconic Mini. He lives in Soberton, Hampshire, England.

Original Mini Cooper and Cooper S Haynes Manuals N. America, Incorporated

Here for the first time is a short history of the small car from 1885 to 2000 and an examination of what came before, during, but not after the Mini, including the fairly complete story of the Mini and Mini Cooper from 1959 to 2000. James Ruppert is not used to spending very much money on cars, so when he decided to finish the restoration of his 1964 Cooper, started in 1979, the bills started to mount up and mentally he began to fall apart. Bought for 200 and a bottle of wine, it would eventually cost almost one hundred times that to finish. Serial Mini owner James Ruppert explains how not to buy, run or restore a classic car, and why owning one might be some form of unwellness. He's a man who can't be trusted with an old car, but can be relied upon to explain how the Mini came about and what it was up against throughout the decades. From the author of the critically acclaimed, *The British Car Industry Our Part in its Downfall*, and the Mercedes

Montagu of Beaulieu winning *The German Car Industry*, *My Part in its Victory*, here is the full story of his seriously mistreated Mini and how the small car came to rule the world. James Ruppert has been a motoring journalist since the 1980s. He wrote for *Car* for almost twenty years, is a special correspondent for *Autocar* and has written for national newspapers including *The Daily Telegraph*, *Sunday Times* and *The Independent*. He coined the term *Bangernomics*, all about running vehicles on a budget and wrote the *Bangernomics Bible*. Ruppert is also the creator of the '70s superhero *Spencer Haze* comic strip.
