Building Regulations Update - Approved Documents A, B & C 2016 Stationery Office
Helps architects and other construction professionals to achieve compliance with the new Approved Document B of the Building Regulations, fire safety, which came into force on 6th April 2007.

Amendments to Statutory Guidance on Assessments in Lieu of Test in Approved Document B (Fire Safety)

Stationery Office
First Published in 2008.
Routledge is an imprint of Taylor & Francis, an informa company.

Building Regulations 2000 Approved Document B Fire Safety; B1 Means of Warning and Escape; B2 Internal Fire Spread (Linings); B3 Internal Fire Spread (Structure); B4 External Fire Spread; B5 Access and Facilities for the Fire Service The Stationery Office
(2006 edition incorporating 2010 and 2013 amendments) Approved Document B: Fire Safety covers building work in England and Wales, such as the erection, extension or material alteration of a building, and how fire safety is designed into a building. The Approved Document has been split into two volumes, Volume 1 deals with

dwellinghouses and Volume 2 deals with buildings other than dwellinghouses. Volume 1 includes updated standards for smoke alarms. Contracts and Management Publications Update Service: To ensure that you have the most up-to-date Approved Document or Amendment to an Approved Document to hand, you can now join our CAMPUS service. RIBA Bookshops will automatically send you copies of new releases as and when they are published. Visit our CAMPUS page for further details.

Fire Spread in Car Parks Riba Publishing Coming into effect 6 April 2007, when it replaces the 2000 edition (incorporating 2002 amendments) of approved document B

(TSO ISBN 011703634X). Approved document B Vol. 1 Dwellinghouses is also available (ISBN 0117037249) The Building Regulations 2010 Stationery Office The threat of fire is a major concern to construction clients, architects and other construction professionals. Beyond the critical life safety issues, major fires will severely interrupt business, with the cost to the UK economy exceeding £7 billion every year and the statistics for consequent business failure remaining high. Protecting property as well as people from fire is a key business objective and designing-in appropriate measures from the start can

considerably reduce the cost of implementation. In this guide, the extra measures needed for property protection and business resilience are combined with the essential life-safety measures required by Approved Document B: Fire Safety (Volume 2). Essentially reproducing the official Approved Document in full but enhanced by comprehensive annotations by RISC Authority, the guide provides the design community with a practical and easy-to-use shortcut to meeting the requirements of not just the Building Regulations, but also clients and their insurers. Now features: the 2013 revision of Approved Document B: Fire safety (volume 2 -

buildings other than dwellinghouses), reflecting the most recent building regulations; revised insurance providers' requirements, updated to reflect modern methods of construction, the green agenda and modular construction; a brand-new appendix dealing with the protection of buildings made of combustible structure (such as timber).

The Building Regulations 2010

The Stationery Office
This TSO version of approved document B supersedes ODPM version (ISBN 0117539112) now no longer available.

The Building Regulations 2010

TSO
Coming into effect 6 April 2007, when it replaces the 2000

edition (incorporating 2002 amendments) of approved document B (TSO ISBN 011703634X).

Approved document B Vol. 2 Buildings other than dwellinghouses is also available (ISBN 0117037257). With addenda (8p., February 2007) which contains two text amendments and an index to the main work

Approved Document B: Fire Safety, Volume 2 Buildings Other Than Dwellinghouses (2013 Edition)

Fire Safety Technical Guidance: Document B *Design for Fire Safety* In 2006 Communities and Local Government (CLG) Sustainable Buildings Division commissioned BRE to carry out a three year project titled Fire Spread in Car Parks. The existing guidance

for fire safety in car parks in England and Wales is in Approved Document B (Fire safety) to the Building Regulations in England and Wales (AD B). The basis for this guidance for fire safety strategies in car parks relates to fire initiation and fire growth involving cars whose designs are decades old. There has been increasing concern about the consequences of fires in car parks associated with modern car design (e.g. plastic fuel tanks) and how these fires may spread to other vehicles parked adjacently and nearby. This concern has been heightened by the entry into the market place of cars powered by alternative fuels such as LPG. Fires in car parks are rare, and,

although there have been few deaths or injuries recorded to date in the UK, there are concerns regarding new and emerging risks from modern cars and alternative fuels. There was a need to gather up-to-date information on fires involving cars in car parks in order that the current fire safety guidance could be reviewed and, if necessary, updated. The overall aim of the project has therefore been to gather information on the nature of fires involving the current design of cars and to use this new knowledge as a basis, if necessary, for updating current guidance in AD B (and possibly other Approved Documents) on fire safety

strategies for car parks. This report describes the project, the findings and conclusions.

The Building

Regulations 1991

Coming into effect 6 April 2007, when it replaces the 2000 edition (incorporating 2002 amendments) of approved document B (TSO ISBN 011703634X).

Approved document B Vol. 2 Buildings other than dwellinghouses is also available (ISBN 0117037257). With addenda (8p., February 2007) which contains two text amendments and an index to the main work

The Building

Regulations 2000

With binder holes.

Contains: B2/3/4 Fire spread. Superseded by 2002 ed. (ISBN 0117536385) but still

available from TSO's on-demand publishing service

Approved Document B

This publication is one of a series issued to provide practical guidance on the requirements of the Building Regulations 2000 for England and Wales. It deals with fire safety requirements for building work and provides a consolidation of the guidance previously issued in the original 2000 edition of Approved Document B and the subsequent amendments issued in 2000 and 2002. It covers the following requirements: means of warning and escape for dwellings and other buildings (B1); internal fire spread relating to wall and ceiling linings (B2) and structure (B3); external fire

spread (B4); access and facilities for the fire service (B5); and appendices.

The Building Act 1984

This guide, essentially an enhanced version of Approved Document B (Volume 2), offers extra insurer-friendly technical guidance for construction professionals about how to protect commercial buildings from fire beyond the building regulations critical life safety measures. With the cost of major fires costing the British economy over £7 billion a year and high rates of consequent business failure, property protection is a key business objective for construction clients and their insurers, who will value appropriate measures that are designed in rather than

added on as an afterthought. For the first time, this guide aligns guidance for property protection with the much more familiar Approved Document B. It succinctly and transparently annotates the existing document, providing a practical and easy-to-use shortcut to meeting the requirements of the Building Regulations, your clients and their insurers - all in one book. Co-published by the Fire Protection Association and supported by The Risk Authority (Risk Insight, Strategy and Control Authority) is an annually funded research scheme administered by the FPA and supported by a significant group of UK insurers that

conducts research in support of the development and dissemination of best practice on the protection of property and business. Updates in the 2015 edition include:

- Fully updated to cover the 2013 revision of Approved Document B: Fire Safety (Volume 2) (2006 edition incorporating 2007, 2010 and 2013 amendments)
- Also has the most up-to-date requirements of insurance providers' requirements, which have been updated to reflect modern methods of construction, the green agenda, timber frame (appendix K of ADB), modular construction etc.

Approved Document B: Fire Safety (Volume 2) -

Buildings Other Than Dwellinghouses): Incorporating Insurers' Requirements for Property Protection (2006 edition incorporating 2010 and 2013 amendments) Approved Document B: Fire Safety covers building work in England and Wales, such as the erection, extension or material alteration of a building, and how fire safety is designed into a building. The Approved Document has been split into two volumes, Volume 1 deals with dwellinghouses and Volume 2 deals with buildings other than dwellinghouses. Volume 2 includes amendments to the guidance on wall coverings and thermoplastic lighting

diffusers and rooflights. Contracts and Management Publications Update Service: To ensure that you have the most up-to-date Approved Document or Amendment to an Approved Document to hand, you can now join our CAMPUS service. RIBA Bookshops will automatically send you copies of new releases as and when they are published. Visit our CAMPUS page for further details.

Approved Document

For use from 6 April 2013 incorporating the changes made as a result of the Building Regulations 2010 and Building (Approved Inspectors etc) Regulations 2010. The changes mainly reflect regulation number changes as a result of re-ordering. There

have been no amendments to the substantive requirements in Schedule 1 (ie Parts A to P) of the Building Regulations.
