The two volume set, LNCS 12308 + 12309, constitutes the proceedings of the 25th European Symposium on Research in Computer Security, ESORICS

2020, which was held in September 2020. The conference was planned to take place in Guildford, UK. Due to the COVID-19 pandemic, the conference changed to an online format. The total of 72 full papers included in these proceedings was carefully reviewed and selected from 366 submissions. The papers were organized in topical sections named: database and Web security; system security; network security; software security; machine learning security; privacy; formal modelling; applied cryptography; analyzing attacks; post-quantum cryptography; security analysis; and blockchain.

The Journal of the Acoustical Society of Japan (E). IGI Global

Includes papers and proceedings of the annual meeting of the American Economic Association. Covers all areas of economic research.

Simulation Tools and Techniques

Springer Science & Business Media

This volume constitutes the refereed post-conference proceedings of the 11th International Conference on Simulation Tools and Techniques, SIMUTools 2019, held in Chengdu, China, in August 2019. The 97 revised full papers were carefully selected from 156 submissions. The papers focus on simulation methods, simulation techniques, simulation software, simulation performance, modeling formalisms, simulation verification and widely used frameworks.

The main criterion of consolidation of this book, "The Cardinal Traits of Insect Morphology and Physiology", is to fulfil the need of the students, who are appearing for JRF, SRF, ARS, NET, Civils and several other competitive exams. To consolidate this book, it takes several days to collect, edit and update the vast literatures from various reference books, journals and different websites. Due to compilation of all the topics into one book, there may be a chance of missing some of the things which will be most useful to the students, so we have tried to consolidate the two basic topics which are utmost important in the entomology, which will give a vast knowledge within a short period of time instead of reading several books and wasting the precious time. It is one of the most useful books to the aspirants, who are appearing for different competitive exams.

Computer Security - ESORICS 2020

Oswaal Books and Learning Private Limited

As modern technologies continue to develop and evolve, the ability of users to adapt with new systems becomes a

paramount concern. Research into new ways for humans to make use of advanced computers and other such technologies through artificial intelligence and computer simulation is necessary to fully realize the potential of tools in the 21st century. Advanced Methodologies and Technologies in Artificial Intelligence, Computer Simulation, and Human-Computer Interaction provides emerging research in advanced trends in robotics, AI, simulation, and human-computer interaction. Readers will learn about the positive applications of artificial intelligence and human-computer interaction in various disciplines such as business and medicine. This book is a valuable resource for IT professionals, researchers, computer scientists, and researchers invested in assistive technologies, artificial intelligence, robotics, and computer simulation.

The Cardinal Traits of Insect

Morphology and Physiology Oswaal Books and Learning Private Limited
"This book compiles estimable research on the global trend toward the rapidly increasing use of information technology in the public sector, discussing such issues as e-government and e-commerce; project management and information technology evaluation; system design and data processing; security and protection; and privacy, access, and ethics of public information technology"--Provided by publisher.

Recent innovations and new technologies in education have altered the way teachers approach instruction and learning and can provide countless advantages. The pedagogical value of specific technology tools and the cumulative effects of technology exposure on student learning over time are two areas that need to be explored to better determine the improvements needed in the modern classroom.

Advanced Methodologies and Technologies in Modern Education Delivery provides emerging research on educational models in the continually improving classroom. While highlighting the challenges facing modern in-service and pre-service teachers when educating students, readers will learn information on new methods in curriculum development, instructional design, and learning assessments to implement within their classrooms. This book is a vital resource for pre-service and in-service teachers, teacher education professionals, higher education administrative professionals, and researchers interested in new curriculum development.
