Trust, the second element of the triad, is the leader's key to achieving open communication and collaborative, committed action.

Zand shows that the degree to which people trust a leader determines how much access they will give him or her to their knowledge and how well they will implement decisions.

Power, the third element of the triad, is a leader's traditional right to make decisions and resolve conflicts. Although a leader can make decisions by command, Zand notes that in today's knowledge-driven organization with educated, informed employees, the effective leader rarely issues directives, but instead acts more as a consultant and a client. The Leadership Triad is a down-to-earth, powerful guide with many examples from the author's extensive consulting experience and from companies such as General Motors, Wal-Mart, and American Express and organizations in electronics, manufacturing, financial services, and health care.

Regarded as one of the most influential management books of all time, this fourth edition of *Leadership and Organizational Culture* transforms the abstract concept of culture into a tool that can be used to better shape the dynamics of organization and change. This updated edition focuses on today's business realities. Edgar Schein draws on a wide range of contemporary research to redefine culture and demonstrate the crucial role leaders play in successfully applying the principles of culture to achieve their organizational goals.

How did the replication bomb we call "life" begin and where in the world, or rather, in the universe, is it heading? Writing with characteristic wit and an ability to clarify complex phenomena (the New York Times described his style as "the sort of science writing that makes the reader feel like a genius"), Richard Dawkins confronts this ancient mystery.

Learning agility is not a new concept, but it took years of research to prove that it really does exist, and can be quantified on an individual level. Out of that research came the introduction of the

Burke Learning Agility Inventory₂ (Burke LAI) as the first reliable, theoretically grounded way to measure learning agility. This book explains how learning agility is measured, and explores the ways that this information can be developed and applied by individuals and organizations.

Public Policy Analysis, the most widely cited book on the subject, provides readers with a comprehensive methodology of public policy analysis.

Starting from the premise that policy analysis is an applied social science discipline designed for solving practical problems facing public and nonprofit

organizations, the book bridges the gap between theory and practice. It provides practical skills for conducting policy analysis and communicating findings through memos, position papers, and other forms of structured analytical writing. The book asks readers to critically analyze the arguments of policy practitioners as well as political scientists, economists, and political philosophers.

Nabi Muhammad Saw merupakan pembawa ajaran Islam yang utama. Beliau menerima ajaran tersebut dalam bentuk wahyu, lalu disampaikan kepada para sahabatnya, dan diteruskan dari generasi ke generasi. Selain sebagai utusan Allah, Nabi Muhammad Saw juga manusia seperti umumnya kita. Beliau hidup dalam sebuah masyarakat yang sudah memiliki budaya, adat-istiadat, kegemaran, dan hobi yang bisa jadi berbeda antara satu bangsa dan lainnya. Disisi lain,

hadis yang merupakan perkataan dan perbuatan Nabi Muhammad Saw yang diriwayatkan dan kita terima sebagai sumber ajaran Islam, berisi informasi yang bisa jadi merupakan agama, tetapi tidak sedikit sebenarnya yang merupakan ekspresi budaya Rasulullah SAW belaka. Karenanya, kiranya penting untuk membuat pemilahan antara perkataan/perbuatan Rasulullah SAW yang timbul dalam konteks menjelaskan masalah agama dan perkataan/perbuatan beliau yang timbul dalam konteks budaya. Buku yang ada di hadapan pembaca ini adalah hasil penelitian terhadap model pemahaman komunitas Jama'ah Tabligh

terhadap hadis Rasulullah SAW. Komunitas Jama'ah Tabligh merupakan salah satu komunitas di kalangan umat Islam yang berasal dari India, dan mulai tumbuh di Indonesia. Sebagai bagian dari umat Islam, Jama'ah Tabligh merujuk hadis Nabi sebagai dasar kehidupan beragamanya. Ada citra yang ingin di tampilkan para anggotanya bahwa mereka ingin menjadi umat Islam yang berpegang teguh kepada sunnahnya.

"This booklet takes up the two-fold challenge of establishing the linkages between educational quality and national economic productivity, and then identifying those aspects of educational reform that are most likely to deliver enhanced levels of educational quality. The booklet presents arguments in favour of improved teacher quality as the key pathway to improved student performance ?

and offers sound advice concerning the planning and timeframe required to develop and evaluate progress towards a more effective teaching force."-- p. 4.

Ibarat pacaran, menjadi guru perlu nekat. Ya, nekat untuk menjadi guru berkualitas, cerdas dan revolusioner. Jika sekadar menjadi guru, semua orang bisa dikatakan bisa. Namun yang paling utama adalah bagaimana cara

meningkatkan kualitas, profesionalitas dan mengembangkan potensi. Tanpa kualitas, guru akan menjadi “buruh” tiada arti. Menjadi guru itu bisa mudah, bisa sulit. Mudah jika ada keseriusan tinggi, modal ilmu, motivasi kuat, semangat berjuang dan tidak salah jurusan ketika kuliah. Menjadi guru harus berpendidikan guru, karena saat ini kualifikasi akademik sangat diutamakan. Jangan sampai muncul “guru abal-abal” yang meresahkan dunia pendidikan. Menjadi guru akan sulit jika tidak ada niat mengabdikan pada bangsa, hanya mengejar recehan dan tidak berlatarbelakang pendidikan/keguruan. Guru sekolah dasar (SD) dan Madrasah

Ibtidaiyah (MI) adalah profil guru penuh cinta, kasih sayang, senyum dan keceriaan. Tiada sedih dan “galau” bagi mereka, karena setiap hari mengajarkan kegembiraan. Dengan alasan apa pun, guru tetap profesi mulia dan terhormat di dunia dan akhirat. Tanpa guru, pendidikan sunyi, jika manusia tidak berpendidikan, dunia akan berhenti, peradaban stagnan bahkan hancur dan mati. Guru SD di Indonesia harus sehat dan bebas penyakit. Para guru di era digital seperti ini tidak boleh mengidap penyakit-penyakit seperti Tidak Punya Selera (Tipus), Mutunya Amat Lemah (Mual), Kurang Disiplin (Kudis), Asal Masuk Kelas (Asma), Kurang Strategi (Kusta), Tidak Bisa Computer (TBC),

Kurang Terampil (Kram), Asal Sampaikan Materi Urutan Kurang Akurat (Asam Urat), Lemah Sumber (Lesu), Di Kelas Anak-anak Diremehkan (Diare) dan Gaji Nihil Jarang Aktif dan Terlambat (Ginjal). Penyakit penyakit tersebut diyakini bukan saja menghambat mutu pendidikan, tetapi juga menjauhkan apresiasi masyarakat terhadap guru dan pendidikan. Semua calon guru SD/MI atau bagi guru-guru SD/MI sejak saat ini harus introspeksi atau berobat ke dokter akademik. Artinya, meskipun secara jasmani sehat, namun secara edukatif masih banyak guru SD/MI yang mendera penyakit-penyakit di atas. Bagi calon guru SD/MI harus mencegah

penyakit di atas, dan bagi guru yang sudah terlanjur mengajar di sekolah harus segera mengobati penyakit tersebut jika mengidapnya. Ini menjadi penting karena belajar dari guru SD/MI yang sehat ibarat seperti minum es jus yang segar. Namun belajar dari guru yang mengidap penyakit ibarat minum air comberan. Maka sehat lahir batin dan sehat edukatif menjadi keniscayaan bagi guru SD/MI atau calon guru SD/MI. Jika Anda sakit, apakah Anda akan memberi air comberan kepada peserta didik? Tentu hal itu sama saja meracuninya. Sebelum terjangkiti penyakit di atas, semua insan guru SD/MI harus meningkatkan kualitas menjadi guru ideal, profesional sesuai

rukun iman dalam pendidikan yang sudah ditentukan pemerintah. Jika ingin menjadi guru SD/MI profesional, maka jangan sampai calon mahasiswa memilih jurusan selain PGSD/PGMI. Ini mutlak dilakukan jika serius ingin menjadi guru SD/MI profesional dan berkompeten di bidang pendidikan dasar. Salah jurusan adalah pintu gerbang kecelakaan akademik. Jumlah jurusan/program studi PGSD/PGMI di Indonesia saat ini sudah menjamur. Bahkan hampir tiap tahun saat digelar SNMPTN/SBMPTN/SMPTAIN, jurusan PGSD/PGMI selalu menjadi pilihan pertama. Apalagi jumlah PNS yang pensiun dari formasi guru SD sangat banyak

sekali. Inilah yang menjadi alasan pelajar memilih jurusan PGSD/PGMI. Akhirnya, siapkah Saya menjadi guru SD revolusioner? Handbook of Leadership National Academies Press The sixth edition of Professional Meeting Management is the newest edition of the longtime standard reference and textbook for the meetings industry and meetings education.
