

riveting history, Eric Lee explores the little-known saga of the country's experiment in democratic socialism, detailing the epic, turbulent events of this forgotten chapter in revolutionary history. Along the way, we are introduced to a remarkable cast of characters - among them the men and women who strove for a more inclusive vision of socialism that featured multi-party elections, freedom of speech and assembly, a free press and a civil society grounded in trade unions and cooperatives. Though the Georgian Democratic Republic lasted for just three years before it was brutally crushed on the orders of Stalin, it was able to offer, however briefly, a glimpse of a more humane alternative to the Soviet reality that was to come.

THE ALLEGORY OF THE CAVE - Plato DigiCat

When President George Washington ordered an army of 13,000 men to march west in 1794 to crush a tax rebellion among frontier farmers, he established a range of precedents that continues to define federal authority over localities today. The "Whiskey Rebellion" marked the first large-scale resistance to a law of the U.S. government under the Constitution. This classic confrontation between champions of liberty and defenders of order was long considered the most significant event in the first quarter-century of the new nation. Thomas P. Slaughter recaptures the historical drama and significance of this violent episode in which frontier West and cosmopolitan East battled over the meaning of the American Revolution. The book not only offers the broadest and most comprehensive account of the Whiskey Rebellion ever written, taking into account the political, social and intellectual contexts of the time, but also challenges conventional understandings of the Revolutionary era.

The Life and Times of Alexander the Great Da Capo Press

The strong-willed, heroic wife of Alexander Hamilton tells her story in this historical novel by the bestselling author of *The Secret Wife of Aaron Burr*. As the daughter of a respected general, Elizabeth Schuyler is accustomed to socializing with dignitaries and soldiers. But no visitor to her parents' home has affected her so strongly as Alexander Hamilton, a charismatic, ambitious aide to George Washington. They marry quickly, and despite the tumult of the American Revolution, Eliza is confident in her husband and in her role as his helpmate. But it is in the aftermath of war, as Hamilton becomes one of the country's most important figures, that she truly comes into her own. In the new capital, Eliza becomes an adored member of society, respected for her fierce devotion to Hamilton as well as her grace. Behind closed doors, she astutely manages their expanding household and assists her husband with his political writings. Yet some challenges are impossible to prepare for. Through scandal, betrayal, heartbreak, and tragedy, she is tested again and again. In the end, it will be Eliza's strength that makes her not only Hamilton's most crucial ally in life, but also his most loyal advocate after his death, determined to preserve his legacy while pursuing her own path through the nation they helped shape together. "Scott expertly handles the complex history and complicated romance, moving the personal and political plots briskly. Readers will be captivated by the affecting portrait Scott has painted of Eliza as an American patriot who was witness and counsel to Alexander's enduring legacy." —Publishers Weekly (starred review) "Your next Hamilton obsession." —Bustle

The Genius of Alexander the Great Read Books Ltd

Works in the Museum's collection that embody the Renaissance interest in classical learning, fame, and beautiful objects are illustrated and discussed in this resource and will help educators introduce the richness and diversity of Renaissance art to their students. Primary source texts explore the great cities and powerful personalities of the age. By studying gesture and narrative, students can work as Renaissance artists did when they created paintings and drawings. Learning about perspective, students explore the era's interest in science and mathematics. Through projects based on poetic forms of the time, students write about their responses to art. The activities and lesson plans are designed for a variety of classroom needs and can be adapted to a specific curriculum as well as used for independent study. The resource also includes a bibliography and glossary.

Download your copy now and embark on a trivia odyssey through the remarkable journey of Alexander the Great.

Heavenly Khan CHANGDER OUTLINE

The author follows Alexander the Great's 22,000 mile expedition from Greece to India, recreating the epic marches and battles.

The Code of Hammurabi Teachers College Press

By the time Alexander the Great was twenty-six, he had conquered the world's mightiest empire, Persia. He was the envy of every man. But Alexander had a higher aspiration-to be the envy of the gods. And so, Alexander embarked on a long campaign of conquest across Asia. He marched his army through the mountains of Afghanistan to the Indian subcontinent. But as he pushed forward in his wild pursuit of glory and immortality, he grew increasingly unpredictable, sporadically violent, and megalomaniacal. In the end, only seven years after he had conquered Persia, Alexander the Great was defeated not by any external enemy but by himself, unable to control his passions. Writer and intrepid explorer John Prevas informs his "absorbing" (Raleigh News & Observer) narrative through a personal retracing of much of Alexander's route through what is now Iran, Afghanistan, and Pakistan. The author's research and travels bring brilliantly to life this riveting story of Alexander's decline and fall-in the land where he sought his greatest glory.

The Age of Alexander Lebooks Editor

Plutarch's parallel biographies of the great men in Greek and Roman history are cornerstones of European literature, drawn on by writers and statesmen since the Renaissance, most notably by Shakespeare. This selection provides intimate glimpses into the lives of these men, depicting, as he put it, 'those actions which illuminate the workings of the soul'. We learn why the mild Artaxerxes forced the killer of his usurping brother to undergo the horrific 'death of two boats'; why the noble Dion repeatedly risked his life for the ungrateful mobs of Syracuse; why Demosthenes delivered a funeral oration for the soldiers he had deserted in battle; and why Alexander, the most enigmatic of tyrants, self-destructed after conquering half the world.

Alexander the Great and the Mystery of the Elephant Medallions Wiley-Blackwell

Annotation A rare set of coin medallions is used to analyze Alexander the Great's reputation for invincibility in war. The book's backbone is the history of the discovery and interpretation of these medallions, to which are added the extraordinary story of Alexander, and a brief introduction to the science of numismatics.

The Federalist Papers Oxford University Press

"At last we have a wonderful book which makes us privy to these Chinese images of the West and lets us see how they were formed and how they changed over the last century and a half."—Orville Schell, author of *Discos and Democracy*
