Although he never played a day in the white major leagues, John Henry "Pop" Lloyd was one of the greatest baseball players who ever lived. A shortstop who could take over a game with his glove or his bat, Lloyd dominated early black baseball, drawing comparisons to the most celebrated National Leaguer of his day, Honus Wagner, who declared it a privilege to be mentioned with Lloyd. Beginning his career years before the first Negro National League was established, Lloyd played for a dizzying number of teams, following the money, as he'd put it, throughout the country and sometimes past its borders, doing several stints in Cuba. He was seemingly ageless, winning two batting titles in his 40s and playing at the highest levels of blackball until he was 48. (He would continue to coach and play semi-pro baseball for another ten years.) Admired by teammates and opponents alike for his generosity and quiet strength, Lloyd was also one of the most beloved figures in white or black baseball.

Wondering where to live in your later years? This strategic and thoughtful guide is aimed at anyone looking to determine the best place to call home during the second half of life. Place plays a significant but often unacknowledged role in health and happiness. The right place elevates personal well-being. It can help promote purpose, facilitate human connection, catalyze physical activity, support financial health, and inspire community engagement. Conversely, the wrong place can be detrimental to health, as the

COVID-19 pandemic has highlighted. In *Right Place, Right Time*, Ryan Frederick argues that where you live matters enormously—especially during the second half of your life. Frederick, the CEO of SmartLiving 360 and a recognized thought leader on the intersection of place and healthy aging, provides you with tools to evaluate your living situation, ensuring that you weigh all the necessary factors to make a sound decision that optimizes your current and future well-being. He explores the pros and cons of different living options, from remaining in your current home to downsizing, intergenerational living, co-housing, senior living, and more. Along the way, he helps readers answer important questions, including "Are you already in the right place?" and "In what areas does your current place not align with your needs and desires?" The rest of the book helps you to unpack specific options for place, beginning with considerations for regions and neighborhoods and then looking at specific housing models. It also focuses on how housing is changing, particularly from a technology, health, and health care perspective. The book closes by challenging the reader to develop a discipline of choosing the right place at the right time. Combining real-life stories about people selecting places to live with design thinking principles and interactive tools, *Right Place, Right Time* will appeal to empty nesters, retirees, solo agers, and even adult children seeking ways to support their parents and loved ones.

Richard Brookhiser wrote his first cover story for *National Review* at age fourteen, and became the magazine's youngest senior editor at twenty-three. William F. Buckley Jr. was Brookhiser's mentor, hero, and admirer; within a year of Brookhiser's arrival at the magazine, Buckley tapped him as his successor as editor-in-chief. But without warning, the relationship soured—one day, Brookhiser returned to his desk to find a letter from Buckley unceremoniously informing him "you will no longer be my successor." Brookhiser remained friends and colleagues with Buckley despite the breach, and in *Right Time, Right Place* he tells the story of that friendship with affection and clarity. At the same time, he provides a delightful account of the intellectual and political ferment of the conservative resurgence that Buckley nurtured and led. Witty and poignant, *Right Time, Right Place* tells the story of a young man and a political movement coming of age—and of the man who inspired them both.

Fate doesn't always happen overnight. Hudson Bradley is the cockiest, most stubborn, hard-headed man I've ever known. And for fifteen years, he's been my brother's best friend. But lately, what I'm feeling for him isn't friendship at all. Why is my heart racing every time his blue eyes lock on mine? Why does every word he rumbles in my ear make my body come alive? And worst of all, why did I bet him that I could find a woman he and his son would both love? If I hadn't given up on love altogether, Hudson would have been perfect for me. After all, he was there the day my world fell apart. He's spent the last six years piecing me back together. There are a million reasons why we could never work, but after a single kiss, I can't remember any of them. Now that the time is right, I have to make him mine--before I lose him forever.

Equal Time: Television and the Civil Rights Movement explores the crucial role of network television in reconfiguring new attitudes in race relations during the civil rights movement. Due to widespread coverage, the civil rights revolution quickly became the United States' first televised major domestic news story. This important medium unmistakably influenced the ongoing movement for African American empowerment, desegregation, and equality. Aniko Bodroghkozy brings to the foreground network news treatment of now-famous civil rights events including the 1965 Selma voting rights campaign, integration riots at the University of Mississippi, and the March on Washington, including Martin Luther King's "I Have a Dream" speech. She also examines the most high-profile and controversial television series of the era to feature African American actors--East Side/West Side, Julia, and Good Times--to reveal how entertainment programmers sought to represent a rapidly shifting consensus on what "blackness" and "whiteness" meant and how they now fit together.

For the past twenty-five years Americans have relied on Pulitzer Prize-winning wordsmith William Safire for their weekly dose of linguistic illumination in The New York Times Magazine's column "On Language" -- one of the most popular features of the magazine and a Sunday-morning staple for innumerable fans. He is the most widely read writer on the English language today. Safire is the guru of contemporary vocabulary, speech, language, usage and writing. Dedicated and disputatious readers itch to pick up each column and respond to the week's linguistic wisdom with a gotcha letter to the Times. The Right Word in the Right Place at the Right Time marks the publication of Safire's sixteenth book on language. This collection is a classic to be read, re-read, enjoyed and fought over. Fans, critics and fellow linguists wait with bated (from the French abattre "to beat down") breath for each new anthology -- and, like its predecessors, this one is bound to satisfy and delight. Safire finds fodder for his columns in politics and

current events, as well as in science, technology, entertainment and daily life. The self-proclaimed card-carrying language maven and pop grammarian is not above tackling his own linguistic blunders as he detects language trends and tracks words, phrases and clichés to their source. Scholarly, entertaining and thoughtful, Safire's critical observations about language and slanguage are at once provocative and enlightening. Safire is America's go-to guy when it comes to language, and he has included sharp and passionately opinionated letters from readers across the English-speaking world who have been unable to resist picking up a pen to put the maven himself in his place or to offer alternate interpretations, additional examples, amusing anecdotes or just props. The Right Word in the Right Place at the Right Time is a fascinating, learned and piquant look at the oddities and foibles that find their way into the English language. Exposing linguistic hooey and rigamarole and filled with Safire's trademark wisdom, this book has a place on the desk or bedside table of all who share his profound love of the English language -- as well as his penchant for asking "What does that mean?" Or, "Wassat?" This new collection is sure to delight readers, writers and word lovers everywhere and spark the interest of anyone who has ever wondered, "Where did the phrase 'brazen hussy' come from?"

In a series of essays that explore the notion of what brings significance to our existences, clarifying why we have this longing beyond the present moment and an insatiable dissatisfaction with where we are, scholar Frank Martela tackles the subject of finding meaning in life. With beautiful decorative elements and an engaging design, the book approaches its subject in a readily digestible form. It grapples with some of life's most pressing questions, like "Is happiness a worthy goal?" and "What is the foundation for meaning in a secular society?" and "Is life an existential void?" yet Martela answers these questions and more in a relaxed, conversational tone and with a wry sense of humor, placing some of life's greatest philosophical concerns and quandaries into a modern-day context. Martela quickly and concisely gets to the heart of the matter: your place in the world and how to find meaning in life as countless thinkers and philosophers have done before, yet the emphasis here is on what we do with the life we have and how we can make it more meaningful. Part prescriptive and part armchair philosophy book, A

Wonderful Life is accessible to everyone, from the well-read scholar to the apprentice as well as anyone curious about how to extract the greatest meaning and sense of purpose from their existence.
