A revolutionary memoir about domestic abuse by the award-winning author of *Her Body and Other Parties* In the *Dream House* is Carmen Maria Machado's engrossing and wildly innovative account of a relationship gone bad, and a bold dissection of the mechanisms and cultural representations of psychological abuse. Tracing the full arc of a harrowing relationship with a charismatic but volatile woman, Machado struggles to make sense of how what happened to her shaped the person she was becoming. And it's that struggle that gives the book its original structure: each chapter is driven by its own narrative trope—the haunted house, erotica, the bildungsroman—through which Machado holds the events up to the light and examines them from different angles. She looks back at her religious adolescence, unpacks the stereotype of lesbian relationships as safe and utopian, and widens the view with essayistic explorations of the history and reality of abuse in queer relationships. Machado's dire narrative is leavened with her characteristic wit, playfulness, and openness to inquiry. She casts a critical eye over legal proceedings, fairy tales, *Star Trek*, and Disney villains, as well as iconic works of film and fiction. The result is a wrenching, riveting book that explodes our ideas about what a memoir can do and be.

In 2000, Sophie Cass, an ambitious journalist, may have finally found her big break. Convinced a celebrated painter in the Hamptons is hiding a dark secret, she sets off to unravel the truth about his past. Her research takes her back decades to 1940, as an international group of artists and intellectuals gather at The House of Dreams, a beautiful villa just outside Marseilles where American journalist Varian Fry and his remarkable team are working to help them escape France. Despite the incredible danger they all face, The House of Dreams is a place of true camaraderie and creativity—and the setting of a love affair that changed the course of the painter's life forever. But as Sophie digs further into his past, she begins to wonder whether some secrets are better left untouched. Inspired by the real-life heroism of Varian Fry and the volunteers who risked their lives to help save legendary figures like Marc Chagall, Hannah Arendt, and Max Ernst, Kate Lord Brown's *The House of Dreams* is a lyrically told novel of great courage, love, and the power of art.

But he was not prepared for what he found inside the city psychiatric center where he was to spend three grueling years. In truth, as Dr. Klitzman's absorbing account of his apprenticeship reveals, he never ceased to be surprised—by his patients, by the senior psychiatrists' conflicting advice on how to help them, and by the unpredictable results of the therapies, both psychoanalytic and biologic, that he and his fellow residents practiced. Nights in the emergency room, professional controversy, the minefield of hospital politics, the stress of his own therapy—everything is here, in a passionate and illuminating analysis of a doctor's struggle

An affecting biography of the author of *Anne of Green Gables* is the first for young readers to include revelations about her last days and to encompass the complexity of a brilliant and sometimes troubled life. Once upon a time, there was a girl named Maud who adored stories. When she was fourteen years old, Maud wrote in her journal, "I love books. I hope when I grow up to be able to have lots of them." Not only did Maud grow up to own lots of books, she wrote twenty-four of them herself as L. M. Montgomery, the world-renowned author of *Anne of Green Gables*. For many years, not a great deal was known about Maud's personal life. Her childhood was spent with strict, undemonstrative grandparents, and her reflections on writing, her lifelong struggles with anxiety and depression, her "year of mad passion," and her difficult married life remained locked away, buried deep within her unpublished personal journals. Through this revealing and deeply moving biography, kindred spirits of all ages who, like Maud, never gave up "the substance of things hoped for" will be captivated anew by the words of this remarkable woman.

To a modern visitor nothing will seem more British than a classic country house like Cliveden or Leeds Castle. But the truth is actually very different. That such fabulous places exist in their present form - or in the case of, say, Blenheim, survive in the ownership of the family - is as much as anything down to American money and taste. Now, for the first time, Clive Aslet's magnificent book reveals the extent of this remarkable phenomenon. Covering eighteen Americans and their houses - from the captivating May Goelet and Floors Castle in Scotland to the big game hunter Willie James and West Dean Park on the south coast - he illustrates the varied destinies by which stupendously wealthy Americans ended up owning great stately piles, and the variety of transformations they wrought upon them. Some of the marriages between aristocrats and heiresses were happy, others distinctly less so. Dowries went on new roofs to keep the rain out and electric lighting and central heating to modernise dwellings that could be as wintry as the hearts of their ancestral owners. For self-made magnates like William Randolph Hearst or Gordon Selfridge a country house was a rich man's folly - Hearst filled St Donat's castle in Wales with untold fittings and trophies but hardly ever visited it, Selfridge's pharaonic vision for Hengistbury Head never escaped the drawing board. For others, like Andrew Carnegie at Skibo or Sir Paul Getty at Wormsley, it was the chance to out-do the natives by creating idylls of baronial splendour or arcadian cricket fields. But the American influence, as Clive Aslet shows, was lasting, and profound beyond architecture and design. What became known as the 'country house look' was codified by an American - Nancy Lancaster. The greatest of early twentieth-century gardens, Hidcote, was created by an American, Lawrence Johnston. It was an American romance - with Wallis Simpson at Fort Belvedere - that caused Edward VIII to abdicate. Illustrated throughout with magnificent photographs,

An Exuberant Catalogue of Dreams is a fascinating chronicle of how it happened that, as Gladstone's Chancellor of the Exchequer remarked in 1898, 'We are all Americans now'.
