In recent years, India has asserted its desire not simply to be a balancing

power but to become a leading power on the world stage. As India's economic development has steadily progressed, so too have its foreign policy and security ambitions. However, India's ability to sustain high rates of economic growth at home and project power overseas rests on unsteady state capacities. Despite widespread concerns over the severe institutional constraints that India faces, there is a lack of scholarly research on the administrative and

organizational effectiveness of India's security institutions. Myriad inadequacies related to both procedure and personnel continue to hamper the Indian state's ability to perform one of its most essential functions: protecting Indians from security threats at home and abroad. Institutional Roots of India's Security Policy aims to deconstruct and interrogate disparities in India's security institutions through high-quality analytic examinations of more

than a dozen foreign policy and national security institutions spread across four domains: the armed services, intelligence, border and internal security, and police and investigative agencies. A one-stop resource on India's security institutions, this volume demystifies secretive institutions that have long eluded careful scrutiny, including India's paramilitary forces, the Intelligence Bureau (IB), the Research and Analysis Wing (R&AW), and the

Central Bureau of Investigation (CBI).

Disha's SSC English Language Guide is designed for students appearing for SSC exams such as CGL/ CHSL/ MTS/ GD Constable/ Stenographer. It is a kind of book that focusses on mastering techniques to crack these examinations.

- Structure of the book: The book has been divided into 18 chapters. Each chapter consists of: Theory with Examples; Level I Exercise; Level II

Exercise; Solutions to the 2 levels of exercises •

Level I – This level target is to expose the students to solve problems based on the concepts they have learned in theory part.

The student develops a good foundation. • Level II – This is a collection of moderate problems which will test a student on the application of the concepts. The problems provide a good platform to develop a very good problem solving aptitude so as to take up the competitive exams. • The detailed solution to each

and every question has been provided immediately after at the end of the 2 exercises. • The book contains past questions of various SSC exams.

Good Economics for Hard Times Prabhat Prakashan

This research report analyses the impact of information technology on policing, using the QPS as a case study. It examines the extent to which the implementation of information technology has modified the accountability structure

and the occupational culture of policing and whether information technology has significantly altered police practices at the street, supervisory and management levels.

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is

perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address

these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and

urgent, Good Economics for Hard Times makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

This note provides an overview of good practice standards in Social Impact Assessment (SIA). It has been prepared by the Inter-American Development Bank (IDB), to provide guidance to practitioners and decision-makers. By applying the approach presented in this note, it is expected that the quality,

consistency, and operational relevance of SIAs will improve. SIA facilitates the systematic integration of social issues in the planning and implementation of projects. It improves the quality and sustainability of projects, supports and strengthens national requirements, and enhances project acceptance and local ownership. The SIA helps to identify and manage potential adverse social impacts a project may cause or contribute to, and to maximize benefits

to local communities and other groups.

Rough Roads to Equality Jagran Prakashan Ltd. Freedom in the World, the Freedom House flagship survey whose findings

have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fifteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political

rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large

measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development. *OBJECTIVE Computer Awareness* National Maritime Foundation The heinous attack on Mumbai on 26 November 2008 '26/11' brought to the fore the compelling need to strengthen mechanisms for maritime and coastal security in

India. This book, ten years after the attack, aims to advance the academic discourse on the subject. The book traces the evolution of the coastal security construct in India and dwells extensively on the multifarious initiatives taken since '26/11'. The book also undertakes a comprehensive examination of multiple elements of the coastal security construct, and makes policy recommendations for further strengthening coastal security in India. A useful, updated, and

insightful resource for academics, policymakers, practitioners, as also those interested in the subject.

Sonia Gandhi's story represents the greatest

transformational journey made by any world leader in the last four decades. Circumstance and tragedy, rather than ambition, paved her path to power. Born into a traditional, middle-class Italian family, Sonia met and fell in love with Rajiv Gandhi, son of future Indian prime minister Indira Gandhi and grandson of Jawaharlal Nehru, while studying English in Cambridge. Cruelly tested by the assassinations of her mother-in-law and of her husband, Sonia grew into

a strong, authoritative but always private figure, now president of a coalition ruling over a billion people in the world's largest democracy. Through exclusive interviews with members of Sonia's party, political opponents and family friends, Rani Singh casts new light on Sonia. In the first mainstream biography of this inspirational figure, the author's compelling narrative retraces the path of the brave and beautiful Sonia Gandhi, examining what her life and legacy mean for

India.

When Harvard-trained sociologist Peter Moskos left the classroom to become a cop in Baltimore's Eastern District, he was thrust deep into police culture and the ways of the street--the nerve-rattling patrols, the thriving drug corners, and a world of poverty and violence that outsiders never see. In *Cop in the Hood*, Moskos reveals the truths he learned on the midnight

shift. Through Moskos's eyes, we see police academy graduates unprepared for the realities of the street, success measured by number of arrests, and the ultimate failure of the war on drugs. In addition to telling an explosive insider's story of what it is really like to be a police officer, he makes a passionate argument for drug legalization as the only realistic way to end drug violence--and let cops once again protect and serve. In a new afterword, Moskos

describes the many benefits of foot patrol--or, as he calls it, "policing green."
