A French Horn solo composed by Wolfgang  
Amadeus Mozart.  
**Concerto in C Major for the Pianoforte**

Alfred Music

Mozart's Piano Concertos, especially those composed during the years 1784-'91, are still held in high esteem, two centuries later, by both amateur music-lovers and professional musicians. Strangely enough, only very few comprehensive studies exist

on this remarkable section of Mozart's output. The present study, first published in German in a slightly abridged form, deals with Mozart's evolution as a composer of piano concertos; sheds light on the connections between the concertos and other fields of creative activity, as well as on those with other composers of his time. Finally, attention is paid to problems of performance practice. The author, born in 1914, emeritus professor of Utrecht University and former chairman of the Zentralinstitut für Mozart-Forschung, Salzburg, has been involved with the subject of Mozart's concertos for about 60 years.

Like Chopin, Gillock wrote 24 preludes featuring all major and minor keys. The newly engraved 50th anniversary edition contains the composer's original notes, as

well as a CD recording performed by Henry Doskey, who studied piano with Gillock while the Lyric Preludes were being written in the late 1950s. Friends for more than 35 years, Gillock designated Doskey as the "authoritative interpreter, and judge of authenticity of stylistic treatment" of his music. 36 pages.

Köchel-Edition, No. 467 ... Alfred Music

Mozart's piano concertos speak with their own voice much more than his symphonies, operas or church and chamber music. In this genre, the composer-performer appears on stage as the ideal musician. The composer speaks to us with the voice of music, expressing our thoughts and feelings in ways that we cannot achieve. The strength of this voice is traditionally attributed to the elements of the theme and harmony, Mozart's use of a unique and, in a sense, invented

form. The fact is that all Mozart's concertos are different from each other, and their strength and the way they influence us depends not only on the theme and harmony but perhaps above all on the character and sound.

**Mozart's Piano Concertos** Alfred Music

This early work on Mozart's Piano Concertos is both expensive and hard to find in its first edition. It contains analyses of the themes and structure of some of Mozart's greatest piano compositions. This is a fascinating work and thoroughly recommended for anyone interested in music theory. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Ferruccio Busoni's Duetto concertante for two pianos, four hands, is based on Mozart's Finale of Concerto No. 19 in F Major, K. 459, for piano and orchestra. Edited by the dynamic piano duo team of Anderson & Roe, this work is a brilliant example of Busoni's prowess as a transcriber as it retains the lightness and clarity of Mozart's textures while utilizing the resources of the modern piano. Metronome marks are editorial and ornaments are realized in footnotes. Fingerings, dynamics, and articulation have been supplemented by the editors.

Two copies required.
