Human Rights of the Third Gender in India books catalog

This book provides a cross-sectoral, multi-scale assessment of different environmental problems via in-depth studies of the Indian subcontinent. Data collected from different ecosystems forms a strong foundation to explore the topics discussed in this book. The book investigates how mankind is presently under the appalling shadow of pollution, climate change, overpopulation and poverty. The continuing problem of pollution, loss of forests, disposal of solid waste, deterioration of environment, global warming and loss of biodiversity have made nations aware of environmental issues. Many countries are desperately trying to move away from this adverse situation through technological development and policy level approaches. Through a number of case studies

the authors provide details of ground level observations of the most environmentally stressed regions in the Indian subcontinent and beyond.

This book brings together leading international scholars with the aim of exploring ritual perspectives in the study of contemporary religions. It combines significant theoretical and methodological reflections and applies it to four main fields relevant to the study of contemporary religions: indigeneity; new spiritualities and ecology; lived religion (with Islam and Africa as case studies); and finally, religion and embodiment. The structure and content of the book takes its point of departure from the research topics and collegial network of the internationally acclaimed scholar of ritual studies, Professor Anne-Christine Hornborg. The book is dedicated to her.

culture.~ Chitra Banerjee Divakaruni, Award winning author of 'The Mistress of Spices' and 'Before We Visit the Goddess'When I read Shoumi Sen's Celebrate Durga Puja With Me, brilliantly illustrated by Abira Das, I must admit that I want to witness at least one Durga Pujo in my life?~ TokaBox *Alternative Organisations in India* Taylor & Francis This book is an ethnographic study of clay idol-makers of Kumartuli in Kolkata, India. Much of the visibility and identity of Kolkata's creative culture has been dependent upon the clay artists of Kumartuli for the last 100 years or so. This book explores the nature of the carefully constructed identity of these idol-makers as mritshilpis , or clay artists, who, as opposed to ordinary potters, work with their hands instead of a wheel. It looks at how the mritshilpis consciously embrace and expand their market based on this variation and elevated status as artists instead of artisans and studies the embeddedness of this identity within the commodity markets. It also shows that commodity markets, in this case the market of

clay idols, are an outcome of trends of urbanisation, popular demand, corporatisation and commodification of culture, all of which have shaped the contours of clay idol-making as not only an occupation but a brand identity. Drawing on extensive fieldwork and in-depth interviews, the book highlights the larger structural relationship between urbanisation, indigenous occupational categories and identity politics. It will be indispensable to scholars and researchers of sociology, social anthropology, political studies, cultural history, urban economy, art history, urbanisation, cultural studies and urban sociology.

Handbook of Rituals in Contemporary Studies of Religion Forgotten Books 2023-24 RRB General Knowledge Solved Papers Lonely Planet India Springer Nature The Festival of Indra details the textual and performative history of an important South Asian festival and its role in the development of classical Hinduism. Drawing on various genres of Sanskrit textual sources—especially the epic Mahābhārata—the book highlights the

innovative ways that this annual public festival has supported the stable royal power responsible for the sponsorship of these texts. More than just a textual project, however, the book devotes significant ethnographic attention to the only contemporary performance of this festival that adheres to the classical Sanskrit record: the Indrajatra of Kathmandu, Nepal. Here, Indra's tall pole remains the festival's focal point, though its addition of the royal blessing by Kumari, the "living goddess" of Nepal, and the regular presence of the fierce god Bhairav show several significant ways that ritual agents have re-constructed this festival over the past two thousand years. The Making of Goddess Durga in Bengal: Art, Heritage and the Public BRILL This book emphasises the need to empower marginalised communities to contribute to decision-making processes within policy realms. It contributes to ongoing debates in the social sciences about infrastructure rights and citizenship, and it throws insight on human-infrastructure interactions

in the informal neighbourhoods of the global South. The book delves into the complexities of caste, gender, class, and political identities and affiliations associated with the multiple factors of inclusion and exclusion particularly in the case of access to infrastructure in informal settlements in urban areas with an added productive function. This book is about how this historic inner-city, situated, religious idol-crafting community is transforming due to factors including access to physical and social infrastructure, local governance policies, socio-political hierarchies, and complexities of informal tenure. Drawing on sociocultural norms, and values of idol-crafting practices, it documents, analyses and presents the networks and relations of the neighbourhood through a spatial and material lens. Findings contribute to understanding how traditional practices of a crafting community are adapting, appropriating, producing, and reshaping informal spaces in Kumartuli. 'The book is aimed at academic audiences across the

world researching creative industries, Kolkata's regeneration agenda, and cultural tourism. It will be of interest to the wide disciplines of Urban Studies, Development Studies, Architecture and Planning, and Culture and Tourism Studies.

Excerpt from Durga Puja: With Notes and Illustrations About a week before the Durga 'puja holidays ensued I requested the author to write a paper on this chief national festival of the Hindus of Bengal, giving an account of the rites and ceremonies connected with it. He readily complied with my request, and although written at the spur of the moment and necessarily in great hurry, the paper has proved so interesting and has been so favorably received by the public that I have thought it proper to reprint it in the present form, chiefly with a view to circulate it among oriental scholars and others, who take interest in the religious institutions of the Hindus. The difficulties, which the author has met with in rendering into English the peculiar forms and expressions of Sanskrit Mantras and Slokas, may be easily imagined by those who have an

experience of such work, and it is I think sufficient to mention that he has paid more attention to matter than to manner. This book engages with the discourses on human rights as they apply to the transgender or the hijra community in India, capturing not only their larger struggle for legal rights and dignity but also their personal hardships. It situates the issues and

concerns of the Indian transgender community within a global context to explore the extent of social justice in independent India. By narrating stories of individuals, local movements and activities of groups like the Association of Transgender/Hijra in Bengal (ATHB) and others, the book gives context to the changes that globalisation has brought to the narrative around transgenders in India. This shift has challenged their marginalisation and has led to stories, films and queer individuals like Chapal Bhaduri – the jatra rani – and the iconic filmmaker Rituparno Ghosh to flourish and become relevant. This book brings these literatures and personal stories to the fore, allowing readers to perceive the changes and the challenges that Indian society faces when it comes to ensuring the rights for transgender people. This volume will be of interest to scholars of gender studies, queer studies, literature and social work along with readers who want to engage with the transgender movement and community in India. *Durga Puja* Taylor &

This book challenges the prevalent assumptions of caste, hierarchy and social mobility in pre-colonial and colonial Bengal. It studies the writings of colonial ethnographers, Orientalist scholars, Christian missionaries and pre-colonial literary texts like the Mangalkavyas to show how the concept of caste emerged and argues that the jati order in Bengal

was far from being a rigidly reified structure, but one which had room for spatial and social mobility. The volume highlights the processes through which popular myths and beliefs of the lower caste orders of Bengal were Sanskritized. It delineates the linkages between sedantized peasant culture and the emergence of new agricultural castes in colonial Bengal. Moreover, the author discusses a wide spectrum of issues like marginality and hierarchy, the spread of Brahmanical hegemony, the creation of deities and the process of Sanskritization, popular Saivism, the cult of Manasa in Bengal and the revolt of 1857 and the caste question. Rich in archival sources, this book will be an essential read for scholars and researchers of colonial history, Indian history, political sociology, caste studies, exclusion studies, cultural studies, social history, cultural history and South Asian studies, especially those interested in undivided Bengal. *Handbook of Hinduism in Europe (2 vols)* Taylor & Francis
