*Malcolm X for Beginners* North Atlantic Books  
A monumental biography of the

subcontinent from the award-winning author of *The World Is What It Is: The Authorized Biography of V. S. Naipaul*. Second only to China in the magnitude of its economic miracle and second to none in its potential to shape the new century, India is fast undergoing one of the most momentous transformations the world has ever seen. In this dazzlingly panoramic book, Patrick French chronicles that epic change, telling human stories to explain a larger national narrative. Melding on-the-ground reports with a deep knowledge of history, French exposes the cultural foundations of India's political, economic and social complexities. He reveals how a nation

identified with some of the most wretched poverty on earth has simultaneously developed an envied culture of entrepreneurship (here are stories like that of C. K. Ranganathan, who trudged the streets of Cuddalore in the 1980s selling sample packets of shampoo and now employs more than one thousand people). And even more remarkably, French shows how, despite the ancient and persistent traditions of caste, as well as a mind-boggling number of ethnicities and languages, India has nevertheless managed to cohere, evolving into the world's largest democracy, largely fulfilling Jawaharlal Nehru's dream of a secular liberal order.

French's inquiry goes to the heart of all the puzzlements that modern India presents: Is this country actually rich or poor? Why has its Muslim population, the second largest on earth, resisted radicalization to such a considerable extent? Why do so many children of Indians who have succeeded in the West want to return "home," despite never having lived in India? Will India become a natural ally of the West, a geostrategic counterweight to the illiberal rising powers China and Russia? To find the answers, French seeks out an astonishing range of characters: from Maoist revolutionaries to Mafia dons, from chained quarry laborers to self-made billionaires. And he

dives into the personal lives of the political elite, including the Italian-born Sonia Gandhi, one of the most powerful women in the world. With a familiarity and insight few Westerners could approach, Patrick French provides a vital corrective to the many outdated notions about a uniquely dynamic and consequential nation. His India is a thrilling revelation.

 'Godan' is an epic in Hindi prose. It is the most famous work of Munshi Premchand. 'Godan' gives a vivid picture of the condition of Indian farmers during the author's

lifetime. The novel is relevant today because the rural folks' problems still exist. Farmers have generally been exploited by money-lenders, government officials and superstitious community members. Hori, a well-off cultivator, suffers for his dependence on these exploiters. He works very hard, grows various crops, yet starves with his family because almost all his crops are given away to clear the creditor's dues. He efforts to protect his family dignity but fails because he was continuously exploited.

It operates at three different levels: the gross or mythological, the emotional and the spiritual. Prasad infused the vision of a rishi, a sage, into this work. The reader experiences poetic currents of human emotions - anxiety, hope, desire, love, shyness, sorrow, conflict - and finally emerges at an elevated level of consciousness. Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts

were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.
