**A Novel** McFarland

Ohio's small towns have great stories. Little Ohio presents 100 of the state's tiniest towns and most miniature villages. With populations under 500, these charming and unique locations dot the entire state—from Lake Seneca in the Northwest corner to Neville, bordering the Ohio River and the state of Kentucky. Little Ohio even ventures into Lake Erie, telling the story of Put-in-Bay. The selected locations help readers to appreciate the broader history of small-town life in Ohio. Yet each featured town boasts a distinct narrative, as unique as the citizens who call these places home. Some villages offer hundreds of years of history, such as Tarlton, laid out before Ohio had even gained statehood. Others were built with more expedience, such as Yankee Lake, a town that was incorporated simply so its founder could host dances on Sundays without breaking state law. With full-color photographs, fun facts, and fascinating details about every locale, it's almost as if you're walking down Main Street, waving hello to folks who know you by name. These residents are innovators, hard workers, and—most of all—good neighbors. They're people who have piled into small school houses to wait out roaring flood waters, rebuilt after disastrous fires took their homes, and captured bandits straight out of the Wild West. Little Ohio, written by lifelong resident Karen Robertson, is for anyone who grew up in a small town and for everyone who takes pride in being called an Ohioan. It's one book with one hundred places to love.

**A Personal History of the Company That Transformed Television** MIRA

There are two ages in the history of television: before HBO and after HBO. Before the launch of Home Box Office in 1972, the industry had changed little since the birth of broadcast network television in the late 1940s. The arrival of the premium cable channel began a revolution in the business and programming of TV. For the generation that has grown up with the vast array of viewing choices available today, it is almost inconceivable that our ever-expanding media universe began with a few hours of unimpressive programming on a single cable channel. Written by an insider, this is the story of HBO's reconfiguration of television and the company's continual reinvention of itself in a competitive and dynamic industry.

**Raw. Vegan. Not Gross.** Bethany House

This book examines regional dynamics in contemporary east and southeast Asia, scrutinizing the effects of Japanese dominance on the politics, economics, and cultures of the area. The contributors ask whether Japan has now attained, through sheer economic power and its political and cultural consequences, the predominance it once sought by overtly military means. The discussion is framed by the profound changes of the past decade. Since the end of the Cold War and the breakup of the Soviet Union, regional dynamics increasingly shape international and national developments. This volume places Japan's role in Asian regionalism in a broader comparative perspective with European regionalism and the role Germany plays. It assesses the competitive logics of continental and coastal primacy in China. In starkest form, the question addressed is whether Chinese or Japanese domination of the Asian region is more likely. Between a neo-mercantilist emphasis on the world's movement toward relatively closed regional blocs and an opposing liberal view that global markets are creating convergent pressures across all national boundaries and regional divides, this book takes a middle position. Asian regionalism is identified by two intersecting developments: Japanese economic penetration of Asian supplier networks through a system of production alliances, and the emergence of a pan-Pacific trading region that includes both Asia and North America. The contributors emphasize factors that are creating an Asia marked by multiple centers of influence, including China and the United States.

"As gritty and hard-driving a thriller as you'll find....The action never stops, the language sings and stings." —Washington Post The City Primeval in Elmore Leonard's relentlessly gripping classic noir is Detroit, the author's much-maligned hometown and the setting for many of the Grand Master's acclaimed crime novels. The "Alexander the Great of crime fiction" (Pittsburgh Post-Gazette) shines in these urban mean streets, setting up a downtown showdown between the psychopathic, thrill-killing "Oklahoma Wildman" and the dedicated city cop who's determined to take him down. The creator of U.S. Marshal Raylan Givens of TV's Justified fame, Elmore Leonard is the equal of any writer who has ever captivated readers with dark tales of heists, hijacks, double-crosses, and murder—John D. MacDonald, Dashiell Hammett, James M. Cain, and Robert Parker included—and nobody then or now is better.
