The Custodians Ozark Mountain Publishing

We are children of the stars. This is our legacy and our heritage. In the history of the cosmos, Earth is a young planet. Our

souls, on the other hand, have been around forever and will continue to be around forever. Thus Earth is not our only home. We have lived many lives in unusual environments before deciding to journey here and learn the lessons of Earth. After our schooling is completed on this planet, we will journey onward to discover new worlds to explore. The memories of these soul journeys are recorded in our subconscious, and in *Legacy from the Stars* hypnotherapist Dolores Cannon shows that they can be retrieved through regressive hypnosis. She reports dramatic cases where the subjects relived other lifetimes in strange environments -- inhabitants of other planets. After reading her latest book, you may agree that "we are all extraterrestrials," and Earth is merely a

stop-over in our long adventure.

The Reality Revolution St. Martin's Essentials

Alison Thompson, a filmmaker living in New York City, was enjoying Christmas with her boyfriend in 2004 when she saw the news reports online: a 9.3 magnitude earthquake had struck the sea near Indonesia, triggering a massive tsunami that hit much of southern Asia. As she watched the death toll climb, Thompson had one thought: She had to go help. A few years earlier, she had spent eight months volunteering at Ground Zero after 9/11. She'd learned then that when disaster strikes, it's not just the firemen and Red Cross who are needed—every single person can make a difference. With \$300 in cash, some basic medical supplies, and a vague idea that she'd go

wherever she was needed, Thompson headed to Sri Lanka. Along with a small team of volunteers, she settled in a coastal town that had been hit especially hard and began tending to people's injuries, giving out food and water, playing games with the children, collecting dead bodies, and helping rebuild the local school and homes that had been destroyed. Thompson had intended to stay for two weeks; she ended up staying for fourteen months. She and her team helped start new businesses and set up the first tsunami early-warning center in Sri Lanka, which continues to save lives today. *The Third Wave* tells the inspiring story of how volunteering changed Thompson's life. It begins with her first real introduction to disaster relief after 9/11 and ends with

her more recent efforts in Haiti, where she has helped create and run, with Sean Penn, an internally-displaced-person camp and field hospital for more than 65,000 Haitians who lost their homes in the 2010 earthquake. In *The Third Wave*, Thompson provides an invaluable inside glimpse into what really happens on the ground after a disaster—and a road map for what anyone can do to help. As Alison Thompson shows, with some resilience, a healthy sense of humor, and the desire to make a difference, we all have what it takes to change the world for the better. *Sleeper, Awaken!* Ozark Mountain Publishing
This is the fifth book in the revolutionary *Convuluted Universe* series that begun in 2001.

THE BEGINNING What do you do when you discover information that is before its time? What do you do when your curiosity takes you on an adventure that is so bizarre that there is nothing "normal" to relate to? This is what

happened to Dolores Cannon in 1968, long before she began her career as a past-life hypnotherapist and regressionist. Travel back with us to that time when the words "reincarnation, past-lives, regression, walk-ins, New Age" were unknown to the general population. This is the story of two normal people, who accidentally stumbled across past-lives while working with a doctor to help a patient relax. It began so innocently, yet it crossed the boundaries of the imagination to open up an entirely new way of thinking at a time when such a thing was unheard of. It went totally against the belief systems of the time. It was so startling that they should have stopped, but their curiosity demanded that they continue to explore the unorthodox. The experiment

changed the participants and everyone involved, and their beliefs would never be the same. Dolores Cannon is now a world-renowned hypnotherapist who has explored thousands of cases in the forty years since 1968, and has written fifteen books about her discoveries. Her books are translated into more than 20 languages. She is teaching her unique form of hypnosis all over the world.

When she lectures people ask, "How did you get started on all of this?" This is the story of her beginnings. The book was written in 1980, her very first book. It has laid dormant, gathering dust, until now, waiting. Now is the time for it to come forth. Enjoy the adventure!

Keepers of the Garden Llewellyn Worldwide

Through regressive hypnosis a lost legend of the history of mankind has been retrieved from the recesses of time. Did the American Indians descend from the inhabitants of an alien spacecraft that crashed in the Alaska-

Canada region thousands of years ago? Starcrash indicates that aliens continued to come to Earth, some intentionally and by accident, throughout our history. In order to adjust to harsh conditions they were forced to interbreed with the local aborigines. This was the only way to insure the survival of their race. Does their blood still flow in the veins of certain American Indian tribes?

When Time Began Ozark Mountain Publishing

A case of reincarnation, where a Young American girl relives the life and death of a Japanese man through regressive hypnosis.

Our world is undergoing a reality revolution. More and more people are discovering the power of their minds to shape the world around them faster than ever before. The question is: how do you create the reality of your design? Brian Scott wants to help you find the answer. After walking away unscathed from a

near-fatal shooting in his home, Brian began a fanatical search for answers. He deepened his research into parallel realities, quantum mechanics, and consciousness to uncover what happened in his close call with death. Along the way, he developed a series of techniques capable of creating profound transformations. In *The Reality Revolution: The Mind-Blowing Movement to Hack Your Reality*, Brian introduces you to the techniques that have helped his clients find lasting love, create wealth, and revitalize health. You'll learn how to surf through parallel realities and unlock the power of your mind through a mix of researched and science-backed techniques like qi gong, meditation, quantum jumping, energy work, and reality transurfing. If you're ready to

create an incredible reality for yourself, this book shows you the way. *Unspirituality* Ozark Mountain Publishing Unspirituality removes the delusion of the spiritual self and its story. Childhood suppression is at the seat of religious and spiritual delusion which becomes the arena for the retrieval of a shamed imagination. Unspirituality strips away centuries of delusion. The spiritual story was once an answer to the anxieties of the natural world, but now has become a colorful cage in which humans are trapped. It is an insidious trance that has perpetuated needless suffering for our species up to the modern day. We have been led to look in the wrong direction. We have been bamboozled, beguiled, betrayed. We have been cheated for far too long. We have been led to believe

our enemy lies "out there." We have been led to "believe." Our plight lies in the emotional investment of our identification with the image. I predict an awakening on this planet of epic proportions, where the realization of this conspiracy will spring to life. I see the long hardened road of religious and spiritual delusion coming to an abrupt end, like a domino effect, cascading across the globe. Our species is angry on a deep level. We know something has been wrong for a long time. We are tired of being thrown the scraps. This is primal, guttural; the scream of an exhausted humanity who will not take no for an answer. Who refuse to be duped

any longer. It is the voice of reason and the shout of change! This book is a reminder of who we are in the natural world and a call to stand up and be proud to be human without the spiritual story.
