The first comprehensive textbook on effective church planting from a veteran church planter. The Apostle Paul was a veteran church planter who "laid a foundation like

a wise and master builder" and there is much we can learn from his example. Paul indicated that there were basic skills and experiences required to successfully plant a church. Church Plantology examines the wide variety of church planting methods and ideologies in contemporary pastoral practice and outlines a

biblical model based on the New Testament. During his time in prison, Paul spent much of his time writing to Titus, Timothy, and others who'd served alongside him in the trenches to complete their training as church plantings. We can continue to apply these time-tested, proven methods, following the pioneering example of the

early church. Today, the casualty rate in is high. What if we could reduce the odds of failing? Church Plantology by Peyton Jones is a robust guide to planting that will help planters to provide the foundation necessary to survive beyond the initial first years so that they don't end up a walking statistic.

A leader in the House Church movement, William Tenny-Brittian offers this step-by-step guide for starting,

growing, and multiplying a House Church and a House Church Network. If you're a potential House Church leader, this book will help you with ideas for starting out, gathering folks, staying focused, and maintaining accountability. If you're a current House Church leader, this book will help you multiply your House Church as it provides tried-and-true methods of training and accountability for House Church starts. And if you're a new church plant coordinator or you have a

vision for a House Church planting movement, this book will help you organize the three tasks of a network pastor: recruiting, training, and launching new churches.

Read table of contents, intro., first chapter, press release, etc. right here: <http://joelcomiskeygroup.com/plant.html> You can also call: 1-888-344-2355 (Joel Comiskey Group). This book clearly explains how to plant churches that are simple enough to

keep on reproducing and even grow into a movement of churches. Planting Churches that Reproduce is the fruit of Comiskey's extensive research and personal experience (three church plants in a wide variety of settings). Comiskey not only uses the latest North American church planting statistics but also extends the illustrations to include worldwide church planting. More than anything else, this book will provide practical solutions for those planting churches today.

Comiskey's book is a must-read for all those interested in starting Christ-honoring, multiplying churches. __ LEONARD SWEET (Drew University) wrote: Better late than never but best never late. Where has this book been? How different might the church be today if Comiskey's invaluable resource had been available even ten years ago? Don't discover Comiskey ten years from now and exclaim, Where have I been! The book we've needed and been waiting for is here now.

Tag, you're it. ALAN HIRSCH (Author of The Forgotten Ways) wrote: Here is a thoroughly practical, encouraging and thoughtful contribution to the small but growing body of literature on multiplication movements. This is an important book not only because it involves a return to a more genuinely biblical ecclesiology but also because it envisions the much more dynamic form of church that will advance the cause of Jesus in the 21st Century.

JEANNETTE BULLER (Church planter and coach) wrote: Joel Comiskey brings both his experience and the experience of others together in a clear, easy to understand fashion that will be helpful to any simple church planter today. As I read, I kept thinking of chapters I wanted to recommend to the various church planters I coach. Based on timeless principles of church planting, Comiskey lays a firm foundation for multiplying churches which I believe is on the

heart of God. His practical application of these principles keeps the reader focused on the path toward church planting success. BOB ROBERTS (Pastor NorthWood, author of The Multiplying Church) wrote: Joel Comiskey does a great job in his book of explaining what a simple church is and how to plant them. He provides solid theology, numerous examples and strategic steps for planting simple churches. We will use it with our planters as a resource. Ive read a lot of

books on simple, cell, house churches defending them or promoting them - I don't think I've read anything as clear and as concise as this or as practical to get them started as this. PETER WAGNER (Presiding Apostle, International Coalition of Apostles) wrote: Joel Comiskey's lifelong passion for multiplying churches does not allow him to get stuck in the past. I love this excellent book because it is a book for the future. Joel's blueprint will help many find their proper

position for enriching their life and for extending the kingdom of God. DR. TOM JONES (Stadia East Regional Director) wrote: Joel Comiskey is a veteran church planter. His new book *Planting Churches that Reproduce* is biblical, practical and inspirational. If indeed church planters are going to get serious about evangelistic reproducing movements that start new testament churches then we must take a long and creative look at Simple churches or some variation of the house church movement.

The typical suburban church planting model will not get the job done alone. JIMMY SEIBERT (senior pastor of Antioch Community Church) wrote: Over the last ten years Joel's writings and research have deeply influenced who we are as a people. His genuine love for Jesus and his heart to capture what God is doing and saying is bearing great fruit for the body of Christ. His latest book, *Planting Churches that Reproduce*, is at the heart of what God is speaking to the body of Christ

worldwide, whether in the United States or around the world. RALPH NEIGHBOUR (author, professor, and church planter) wrote: Once again, Joel Comiskey has felt the pulse of the body of Christ and has given a prescription for its well being. This book is a combination of spiritual insights coupled with personal experience in the field of planting Biblical communities. I recommend this for the group that God forms to form a new Christ centered missional

congregation. BEN WONG (founder of CCMN) wrote: Joel Comiskey's books have always been a blessing to me personally they have brought special insight into issues that people in cell churches are interested in. Joel, you have out done yourself again! You have written a book that will be used to bring the house church and cell church people together. Well done! All those who are interested in the new move of God for these final days must read this book! BOB LOGAN (author, professor,

and church planter) wrote: *Planting Churches that Reproduce* is a good solid manual for planters who want to get back to the basics and discover what church is really all about. Comiskey helps Christian leaders make the paradigm shift from buildings and events to people and evangelism-- and then provides clear strategies for moving forward. He underscores that what makes a church effective is not about size so much as it is about how well it can reproduce. AUBREY MALPHURS (lead

Vision Navigator with the Malphurs Group) wrote: If you're a church planter or part of a church plant that is passionate about reaching the Next Generation-the future of the North American church, then this book is a must read!

 The struggle is real. Sure. But often times we can over-complicate our lives. *Planting God* inspires us with a simple idea. God reveals Himself to us so we can plant Him into the lives of people around us.

In this valuable book, Derek Schoenhoff shares exciting life-stories, asks thoughtful questions and applies Biblical truth. You will cultivate your knowledge of God, energize your ability to communicate with Him, unearth powerful principles for your restoration and wholeness, uncover strategies of the enemy in your life, and simplify your calling and purpose. God has made Himself accessible to everyone, but only you can choose to open yourself up to

Him. Whether you have been a Christian for many years, or are just discovering Him, this book will help you on your journey, so you can be passionately Planting God. *Planting Churches That Reproduce* T4t Press With nearly fifty years combined global church-planting experience, Craig Ott and Gene Wilson are well qualified to write a comprehensive, up-to-date guide for cross-cultural church planting. Combining substantive biblical principles and missiological

understanding with practical insights, this book walks readers through the various models and development phases of church planting. Advocating methods that lead to church multiplication, the authors emphasize the role of the missionary church planter. They offer helpful reflection on current trends and provide best practices gathered from research and empirical findings around the globe. The book takes up a number of special issues not addressed in most

church planting books, such as use of short-term teams, partnerships, and wise use of resources. Full of case studies and real examples from around the world, this practical text will benefit students, church planters, missionaries, and missional church readers. As a response to the unique challenges facing the twenty-first-century American church, church planting has become a popular topic. But at a time when churches that

spread the seed of the Word through preaching, the sacraments, and prayer are greatly needed, much of the focus has been on planting churches that adapt pop culture to meet ;consumer demand.; In *Planting, Watering, Growing*, the authors of this collection of essays weave together theological wisdom, personal experiences, and practical suggestions, guiding readers through the foundations and methods of planting confessional churches

that uphold the Word of God.

church embarked on a

feasible journey of Vision 2020 that included every established church to plant one church and send one student to Bible school each year. From the time this vision was adopted, some churches have responded positively and some are still struggling on where and how to get involved. This booklet is a church planting and growth manual that will assist those that feel it is too difficult to plant and raise a church and those who would like to add knowledge in their task.

Starting a New Church
Wipf and Stock Publishers
According to the author perhaps our greatest responsibility is to evangelize our own generation. Yet established churches are not able to do that. In fact, rising generations of Americans live in ignorance of Jesus Christ and have no moral absolutes. Aggressive church planting, the author believes, is the answer to the problem, because new churches focus on the needs of each new generation and

present biblical truth in the cultural context that best reaches those people. The objectives of this book are to lay down the challenge to consider becoming a church planter while at the same time screen out wishful thinking and focus on the practical challenges of church planting. This authoritative and edgy message is the next thing in evangelism.

Church planting is not just about gathering new communities of people who are already Christians. Planting churches flows naturally out of making disciples. In this concise guide, pastor J. D. Payne explains the process and stages of church planting, with biblical foundations and practical steps for planting teams both domestically and internationally.

The Book of Acts TUMI Press

The Great Commission provides more than a weekly activity of soulwinning or visitation; it reflects the very heartbeat of God. It is more than a directive for local church outreach programs; it is God's plan for the establishment of local churches around the world. God's Passion is a church planting manual that will both challenge and equip you to align your heart with God's. This book includes teaching on the biblical model of church planting as well as several

chapters of intensely practical resources for both the sending church and the church planter. These chapters will encourage you to make Christ's last command your highest priority, and to invest your life--as a supporting church member, a sending pastor, or a church planter--into the passion of God.

The House Church Manual
Crossway

This book is a practical step-by-step guide for church planters and their coaches. It covers

everything they need to know to start healthy, growing churches that are biblically faithful and yet culturally relevant. While addressing the who, why, and where of planting new congregations, this comprehensive manual focuses primarily on the "how-tos." The authors use a five-stage "life cycle" (conception, pre-natal development, birth/infancy, adolescent growth, and adult reproduction) to flesh out the entire process of starting and growing a new church. Under each

of these stages, a host of essential ministry and planning tasks is addressed so the planter can keep his "baby" church on course and can have the joy of watching the new church grow to maturity and eventually reproduce itself.

World Impact's vision is clear and bold: to recruit, empower, and release urban leaders who will plant churches and launch indigenous church planting movements. We have established The Evangel School of Urban Church Planting to equip church planters to plant healthy churches among the city's poor. Through assessment, coaching, and consultation, we facilitate church plant teams to use biblical wisdom as they engage

unreached urban neighborhoods, with the goal of planting churches where Christ will be honored, the Word of God preached, and justice and compassion demonstrated for all to see. This guidebook is the official text for the Dean Training course to help churches and ministries sponsor their own church plant training. Designed as a manual for deans who help steer urban church planters, this workbook provides a blueprint for the whys and wherefores of the entire process, from

formation of the team to transitioning leadership of the newly planted church. On completion of their course and Dean Commissioning, Deans are then certified to host their own Evangel School sessions within their ministry context. This text is keyed to other valuable resources specifically designed for the Evangel Church Plant Schools in order to help urban church planters plant churches in the city (i.e., Ripe for Harvest: A Guidebook for Planting Healthy Churches in the

City and Planting Churches among the City's Poor, Vols. 1 and 2). In addition, online videos, PowerPoint presentations, and other supplemental resources developed for Evangel Church Plant Schools are available to help a church, organization, or ministry train teams to plant churches among the poor.
