First published in 2010. Being a successful editor is about more than just knowing how to operate a certain piece of software, or when to make a certain transition. On the contrary, there are many unwritten laws and a sense of propriety that are never discussed or taught in film schools or in other books. Based on their own experiences, first as upcoming assistant editors, then as successful Hollywood editors, the authors guide you through the ins and outs of establishing yourself as a respected film and video editor. Insight is included on an array of technical issues such as script breakdown, prepping for sound effects, organizing camera and sound reports, comparison timings, assembly footages and more. In addition, they also provide first-hand insight into industry protocol, providing tips on interviewing, etiquette, career planning and more, information you simply won't find in any other book. The book concludes with a chapter featuring Q+A sessions with various established Hollywood editors about what they expect from their assistant editors.

A spooky and kooky tale about a lonely duck and his unexpected new friend—now in an 8 x 8 trim size and paperback Told in rollicking rhyme, this picture book introduces Quackenstein, a lonely duck in his “lair” at the zoo. One day, Quack is inspired to adopt an egg from the nursery and—much like his inspiration, Dr. Frankenstein—he’s shocked by what emerges from the egg. The “monster” chases him throughout the zoo in a fast-paced and funny parody of monster movies. In the twist ending, the monster (actually an adorable platypus) and Quack resolve their differences and settle down as a not-so-spooky family.

Hybrid Learning and Education Alfred Music

The Second International Conference on Hybrid Learning was organized by the School of Continuing and Professional Studies of The Chinese University of Hong Kong and University of Macau in August 2009. ICHL 2009 was an inventive experience for the Hong Kong and Macau tertiary higher education. The conference aims to provide a good platform for knowledge exchange on hybrid learning by focusing on student centered education. The technique is to supplement traditional classroom learning with eLearning. The slogan is “Education leads eLearning,” not vice versa. The methodology is that at least 30% of learning activities are done by eLearning. The outcome is for students to learn at any time at any place. eLearning can increase students’ learning productivity and reduce teachers’ administration workload alike. It is a new culture for students, teachers and school administrators to adopt in the twenty-first century. The conference obtained sponsorship from Pei Hua Education Foundation Limited, City University of Hong Kong, ACM Hong Kong Section, and Hong Kong Computer Society. Hybrid learning originated from North America in 2000, and is an ongoing trend. It is not merely a simple combination of direct teaching and eLearning. It encompasses different learning strategies and important elements for teaching and learning. It emphasizes outcome-based teaching and learning, and provides an environment for knowledge learning. Students are given more opportunities to be active learners and practice practical skills such as communication, collaboration, critical thinking, creativity, self-management, self-study, problem solving, analysis and numeracy.

Portraits and landscapes from the cinematographer famed for his work with Sam Mendes and the Coen brothers This is the first monograph by the legendary Oscar-winning cinematographer Sir

Roger Deakins (born 1949), best known for his collaborations with directors such as the Coen brothers, Sam Mendes and Denis Villeneuve. It includes previously unpublished black-and-white photographs spanning five decades, from 1971 to the present. After graduating from college Deakins spent a year photographing life in rural North Devon, in Southwest England, on a commission for the Beaford Arts Centre; these images are gathered here for the first time and attest to a keenly ironic English sensibility, while also documenting a vanished postwar Britain. A second suite of images expresses Deakins' love of the seaside. Traveling for his cinematic work has allowed Deakins to photograph landscapes all over the world; in this third group of images, that same irony remains evident.

The Appearance of Impropriety offers a bracing antidote for executives, group leaders, and anyone

in public life: A reminder of some basic rules of good conduct that must be taken back from the pundits and bureaucrats that surround us. As Peter Morgan and Glenn Reynolds entertainingly and devastatingly describe, Americans have made legitimate ethical concerns into absurd standards, and wielded our moral whims like dangerous weapons.

Some differences between Catholicism and Protestantism can be tricky to grasp, but one of them just requires the ability to count: Catholic bibles have seventy-three books, whereas Protestant bibles have sixty-six - plus an appendix with the strange title Apocrypha. What's the story here? Protestants claim that the medieval Catholic Church added six extra books that had never been considered part of the Old Testament, either by Jews or early Christians. Catholics say that the Protestant Reformers removed those books, long considered part of Sacred Scripture, because they didn't like what they contained. In *Why Catholic Bibles Are Bigger*, Gary Michuta presents a revised and expanded version of his authoritative work on this key issue. Combing the historical record from pre-Christian times to the Patristic era to the Reformation and its aftermath, he traces the canon controversy through the writings and actions of its major players.

Texts from Mittens is a series of text message conversations between a snappy, self-absorbed housecat named Mittens and his long-suffering human, a single woman who works away from home during the day. Mittens relentlessly hassles his human all day long, while only taking breaks to watch Judge Judy, hang with his best friend Stumpy, complain about the antics of Drunk Patty the neighbor, ask Grandma for money to buy useless items from QVC, and harass the "filthy beast" dog, Phil. Angie Bailey is an award-winning writer and blogger, humorist, and professional member of the Cat Writers' Association. Her primary blog, Catladyland, has won many awards, and her humor writing is featured nearly daily on Catster.com, one of the most popular cat sites on the Web. The Civil Rights Act of 1964 was a momentous victory for civil rights activists, but one major obstacle remained in the path toward equal rights for African Americans: the right to vote. In the South, segregationists prevented African Americans from voting. Civil rights leaders believed it was time for strong action and chose Selma, Alabama, as the rallying point. There, the marches and protests captured the nation's attention. Through gripping primary source photographs, author David Aretha explores this important time in American history.
