It's time to revive your heart, release your purpose, and have an authentic relationship with God! Women want to live boldly and bravely in their faith, but many feel weighed down by... something. They pretend to live a full life, but wonder why life as a Christian lacks luster. To fill the aches, they feast unknowingly upon consumerism, self-worship, food obsession, seeking love in all the wrong places, and grasping for anything but Jesus.

Rachel shows women that in order to renew passion, purpose, and unwavering faith, they must intentionally choose to refine and restore their mind, body, and soul, acknowledging their subtle sins before Jesus. In **REFINE AND RESTORE**, Rachel shares the process of refining sins out of her life, which separated her from deeper intimacy with God, and restoring her heart back to the truth of who God really is. Through personal stories of confession and conviction (refining moments), readers will discover how Rachel found an authentic, vibrant relationship with God (restored wholeness)-inspiring readers to do the same.

Fear is a distraction, not the destination. Pat and Karen Schatzline came face to face with fear. They had to battle not only for Karen's health but also for the peace of their home. But in the midst of their pain Karen heard God ask her a question: Do you trust Me? The Schatzlines were fearful. Priscilla's book,

Returning to Intimacy to Rebuild and Restore Hearts to Christ, is about how she got so caught up in works for God that she forgot how to spend that intimate time that He so desired with her. Holy Spirit took her through a time of spiritual training and rest to humble herself as a child, at the master's feet. This meant putting all else aside and allowing Holy Spirit to teach her how to once again pray with heartfelt prayers by spending time in His presence, communicating only with Him, and most of all returning her intimately with her First Love! By God's direction, Returning to Intimacy to Rebuild and Restore Hearts to Christ, is the lesson plan He walked Priscilla

through so that she could show others how to become intimate with Him once again. This book is dedicated to all the men and women in prison who are searching to know the heart of God once again, and have a burning desire to return to intimacy with Him.

Nicholas Mag
Have you ever wondered why you lived through a difficult, life threatening, and heart-wrenching situation? Why did you survive the vehicle accident, shooting, fatal disease, financial devastation, abuse, neglect, overdose, domestic violence, or suicide attempt? Do you think your survival is in vain? Your suffering, survival,

and strength are not in vain! God has chosen you for a unique purpose. Your circumstance does not determine your identity; your God does. You are not what happened to you or what you did in your past. You can change and you can overcome. What once "harmed" you has now "armed" you. Let those circumstances which once harmed you now equip you with the essentials for your intended God-given purpose. Our faith is challenged and perfected in our trials. Our mission is manifested as we mend. Do you know the God of a second chance? I do! The intent of your trials is not to pull you away, but to build a platform for Him to work

through you to touch and change others. Understand you can allow your circumstances to do one of two things: destroy you or make you stronger. The Lord is asking you not to fear, but to have faith and trust in Him. God is calling you to rise up and turn your despair into destiny. Now is your time to Release, Restore and Rejoice!

Restorative Human Medical Care Unit 7435, sentience level fifty, is happiness level five out of ten to serve and heal the human master it loves. But Unit 7435 finds there is a price to be paid for love... and for failing in its primary mission. Restore is a standalone short story that takes place in the world of the Singularity novels. Start the novel series with *The Legacy Human* (Singularity 1).

A NOTE FROM THE AUTHOR The future is... unsettling. Technology isn't just racing forward, it's accelerating. This isn't just our imagination, it's a natural consequence of innovation building upon innovation. The gap between what we can imagine and reality shrinks every day. Our

relationship with technology is already one of the defining issues of the 21st century. As we integrate it ever-more-intimately into our lives and bodies and brains—as we mold our creations in our own image, not only physically, but mentally and emotionally—our tech will shape us in ways we will barely understand. The 21st century will challenge us to remember what it means to be only human. But creating a truly sentient Artificial Intelligence is far more complicated than first dreamed in Asimov's *Bicentennial Man*. As we learn more about the three pounds of meat and electricity between our ears, as well as consciousness itself, we are realizing

how difficult the job is. In a sense, creating an AI will force us to answer some of the deepest questions humanity has ever asked... about ourselves and our place in the universe. What does it mean to create intelligence if you intentionally limit it? Is it cruel or compassionate to keep your tech from evolving above a certain sentience level? I hope Restore will provoke a bit of thought in your own personal set of three pounds of meat and electricity. Keywords: Robots, androids, artificial, intelligence, singularity, cyborg, spiritual, religion, AI, cyberpunk, dystopian, free science fiction

Remedy Eldercide,

Restore ELDERPRIDE

will surely become an

election issue. Just look at the voting pool. 77 million baby boomers, that grew up expecting the best of everything, turned 60 in 2006. If the nursing home industry does not change they can only expect the worst. 36 million people have joined AARP because they want bargaining power. 1.7 million people are already institutionalized in nursing homes and are facing extinction. Millions more will have to face the possibility of one day joining the list of system victims. Every American has a personal, vested interest in changing this struggling industry. Without a comprehensive overhaul the current health care system will be bankrupt in 2020 with the cost

exceeding \$4 trillion dollars annually or 36% of the GNP. 6% of those costs are funding the nursing home industry. That means that unless we make a change we will spend 960 billion dollars, in four years, to fund a system that kills its patients and bankrupts itself and its operators. This book details three prevailing principles that makes this problem solvable:

Embrace the restorative care model
 Use computer technology and case management to customize care plans for each patient
 Pay for performance based on outcomes attained.
 RESTORATIVE CARE remedies Eldercide the systematic institutionalization of the elderly and disabled by restoring

function of the mind, the body, the emotions and the spirit...any of these that are slighted in treating the aging process results in chronic illnesses and dependence on prescription drugs and institutional care.

Health Care Reform (notably Obama Care) does not use Health Sciences and holistic methods for establishing processes that deal with the whole person and still depend on inductive reasoning (guessing) and treatment rather deductive processes and prevention of such diseases using the pursuit of definable and measurable outcomes. The MEDICAL MODEL (symptomatic treatment) and the SOCIAL MODEL (elderly housing) now in

practice models are not the solution for managing the aging processes. This book defines the problems facing society with the BOOMERS COMING at us and lays out the methods, systems and outcomes that need to be pursued by physicians, hospitals,

skilled nursing facilities, home care and hospice providers. It also proposes a SHIFT in the payment paradigm based on outcomes and funding using Self Health Insurance Funding Trusts that allow the individual to manage their own health care services and costs.
