"This book is a reprint of a series of

articles that first appeared in Liturgical arts in 1935"--Page x."First edition." "List of books, periodicals and pamphlets introductory to a study of the Eastern rites": pages 95-110. The Eastern branches of the tree of life, by F.J. McGarrigle.--A new branch of the tree of life: the Syro-Malankara church, by Mar Ivanios.--The Ethiopic church, by Eugène cardinal Tisserant.--The code of canon law and the Catholics of Eastern rites, by J.M. O'Hara.--Liturgy and asceticism in the Eastern church, by John La Farge.--The spiritual and aesthetic value of icons, by Ildefonse Dirks.

The Eastern Catholic Churches

Ignatius Press

Written by experts from within their communities, this book compares the legal regimes of Christian churches as

systems of religious law. The ecumenical movement, with its historical theological focus, has failed to date to address the role of church law in shaping relations between churches and fostering greater mutual understanding between them. In turn, theologians and jurists from the different traditions have not hitherto worked together on a fully ecumenical appreciation of the potential value of church laws to help, and sometimes to hinder, the achievement of greater Christian unity. This book seeks to correct this ecumenical church law deficit. It takes account of the recent formulation by an ecumenical panel of a Statement of Principles of Christian Law, which has been welcomed by Pope Francis and the Ecumenical Patriarch of Constantinople, leader of the Orthodox

Church worldwide, as recognizing the importance of canon law for ecumenical dialogue. This book, therefore, not only provides the fruits of an understanding of church laws within ten Christian traditions, but also critically evaluates the Statement against the laws of these individual ecclesial communities. The book will be an essential resource for scholars of law and religion, theology, and sociology. It will also be of interest to those working in religious institutions and policy-makers.

A New Path for Christian Unity Paulist Press

It has been my strong desire for some time now to revise my book in order to emphasize ecumenism and unity proportionately a lot more than in the first (2004) edition. I'm much more

interested in finding common ground. I've also learned a thing or two about Orthodoxy over the past decade. I wanted this volume to be able to read by Orthodox and also Eastern Catholics, without having seizures or going into apoplectic fits (caused by my ignorance or overly polemical or biased writing). I exaggerate, of course, but perhaps not by much! Toward that end I have enlisted two very qualified Eastern Catholic friends to participate in the revised edition: Fr. Deacon Daniel Dozier and Pete Vere, JCL. The revision remains an apologetic for Catholicism and respectful critique of Orthodoxy, but now it also includes friendly ecumenical discussion and dialogue: feedback and input from the Eastern theological perspective. The overall tone, tenor, and

goal is considerably different. Unity is stressed as much as apologetics.

Six Studies on the Oriental Rites

USCCB Publishing

Throughout their shared history, Orthodox and Eastern Catholic Churches have lived through a very complex and sometimes tense relationship --not only theologically, but also politically. In most cases such relationships remain to this day; indeed, in some cases the tension has increased. In July 2019, scholars of both traditions gathered in Stuttgart, Germany, for an unprecedented conference devoted to exploring and overcoming the division between these churches. This book, the second in a two-volume set of the essays presented at the conference, explores the ecumenical and practical implications of

the relationship between Orthodox and Eastern Catholic Churches. Like the conference, the volume brings together representatives of these Churches, as well as theologians from different geographical contexts where tensions are the greatest. The published essays represent the great achievements of the conference: willingness to engage in dialogue, general openness to new ideas, and opportunities to address difficult questions and heal inherited wounds.

A Compilation of Writings, Artcles, Essays and Related Themes

USCCB Publishing

"... The purpose of this survey is to provide a clear overview of the eastern churches for the non-specialist by furnishing basic information about each

of them, and clearly indicating the relationship between them. [from back cover]

Volume 2: Ecumenical and Practical Perspectives on the Orthodox and Eastern Catholic Dialogue Cambridge University Press

This is the first scholarly treatment of nineteenth-century Christianity to discuss the subject in a global context. Part I analyses the responses of Catholic and Protestant Christianity to the intellectual and social challenges presented by European modernity. It gives attention to the explosion of new voluntary forms of Christianity and the expanding role of women in religious life. Part II surveys the diverse and complex relationships between the churches and nationalism, resulting in fundamental

changes to the connections between church and state. Part III examines the varied fortunes of Christianity as it expanded its historic bases in Asia and Africa, established itself for the first time in Australasia, and responded to the challenges and opportunities of the European colonial era. Each chapter has a full bibliography providing guidance on further reading.

Edizioni Orientalia Christiana

Throughout their shared history, Orthodox and Eastern Catholic Churches have lived through a very complex and sometimes tense relationship – not only theologically, but also politically. In most cases such relationships remain to this day; indeed, in some cases the tension has increased. In July 2019, scholars of

both traditions gathered in Stuttgart, Germany, for an unprecedented conference devoted to exploring and overcoming the division between these churches. This book, the first in a two-volume set of the essays presented at the conference, explores historical and theological themes with the goal of healing memories and inspiring a direct dialogue between Orthodox and Eastern Catholic Churches. Like the conference, the volume brings together representatives of these Churches, as well as theologians from different geographical contexts where tensions are the greatest. The published essays represent the great achievements of the conference: willingness to engage in dialogue, general openness to new ideas, and opportunities to address

difficult questions and heal inherited wounds.

The Catholic Eastern Churches

Springer Nature

From the author's preface: This book traces the life of Bishop Sotor Stephen Ortynsky, the first Eastern Catholic Bishop in the Western Hemisphere. The book also records the early years of the Ruthenian-Ukrainian "Greek Catholic Church" in the United States, which set the stage for the beginnings of the Eastern Catholic Churches in the United States. Bishop Ortynsky served as the first hierarch of the Ruthenian Greek Catholic Church in the United States. As the first Eastern Catholic bishop in the Western Hemisphere, he significantly influenced the U.S. Catholic Church in its structure and ecclesiology. The lack of

episcopal oversight at the inception of the Ruthenian Greek Catholic Church in the U.S. led to the fracturing of its membership. Ortynsky, in spite of his best efforts, became a target and scapegoat for much of the dissension within his church, and the lack of understanding from without. For many fellow Catholics in the Latin Church, Bishop Ortynsky stood in direct opposition to the Latin rite Catholic Church's unity of jurisdiction and uniformity of discipline. Various churches sought the conversion of Ruthenian Catholics. The diverse ethnic composition of the Ruthenian Greek Catholic Church was fertile ground for misunderstanding. Many members considered themselves Rusins, Ukrainians, Slovaks, Hungarians and

other ethnicities; nevertheless, in spite of these challenges Ortynsky persevered, asserting his church's rightful autonomy and evangelical mission to preach the Gospel to all nations. To understand the history of Catholicism in the United States, one needs to understand both the Western (Latin) and the Eastern Catholic Churches that took root in the Land of Washington. The Catholic Church is divided into East and West based on the ancient division of the Roman Empire. The Latin Church has been dominant in the West, while twenty-one Eastern Catholic Churches, devolving from the Antiochian, Alexandrian, Byzantine, and Armenian traditions, predominated in the East. The Ruthenian Catholic Church discussed in this book is presently

divided into two Churches: The Byzantine (Ruthenian) and the Ukrainian Catholic Churches. Both belong to the Byzantine tradition. In the late nineteenth century, the Latin Church had systematically consolidated its position in American society through its religious communities and institutions. By the 1870s, this church, which had spread throughout the planet in concert with the European empires with which it was aligned, began to face a new challenge to its identity. The Eastern Catholics from Eastern Europe and the Middle East had begun to immigrate to America, due to economic factors and the pressures of regional wars. This book addresses the confluence of these Western and Eastern Churches. It speaks to both the accomplishments and the shortcomings

of the Church's history-the "good" and the "bad"-and it follows a principle articulated by Rev. John Tracy Ellis, an outstanding historian of the Catholic Church in America, who cited the words of Pope Leo XIII, as he opened the Vatican Secret Archives, on August 18, 1883: "The first law of history is to dread uttering falsehood; the next is not to fear stating the truth." In that spirit, I have attempted to present a balanced and inclusive, though not exhaustive, view of the history that includes both the Eastern and Western strains of Catholicism, strains that form the crux of Catholic Church history in the United States. I believe this approach can inform and illuminate, while showing respect for both the Ukrainian Catholic Church and the Ruthenian Catholic

Church-and shedding light on their common heritage.

The Eastern Churches and Catholic Unity
Routledge

A resource for priests and families entering into interchurch marriages of Roman Catholics and Oriental Orthodox, specifically Syrian and Armenian.

The Future of the Oriental Catholic Churches

The Eastern Catholic Churches
An Introduction to Their
Worship and Spirituality

Examines the long and often difficult history of the Eastern-Church Catholics (e.g., Melkites, Maronites, Ruthenians, Copts, Ukrainians) and their relationship, often tenuous, with Rome.

The Canonical Role of the Eastern Catholic Churches in Fostering Ecumenism Springer Nature

Festschrift issued on eightieth birthday of Jōsaph Pārēkkāṭṭil, 1912-1987.

Decree on the Eastern Catholic Churches
Lulu.com

In the second edition of this major work, Dominican theologian Aidan Nichols provides a systematic account of the origins, development and recent history—now updated—of the relations between Rome and all separated Eastern Christians. By the end of the twentieth century, events in Eastern Europe, notably the conflict between the Orthodox and Uniate Churches in the Ukraine and Rumania, the tension between Rome and the Moscow patriarchate over the re-establishment of a Catholic hierarchy in the Russian Federation, and the civil war in the then federal People's Republic of Yugoslavia,

brought attention to the fragile relations between Catholicism and Orthodoxy, which once had been two parts of a single Communion. At the start of the twenty-first century, in the pontificate of Benedict XVI, a papal visit to Russia— at the symbolic level, a major step forward in the “healing of memories”— appears at last a realistic hope. In addition, the schisms separating Rome from the two lesser, but no less interesting, Christian families, the Assyrian (Nestorian) and Oriental Orthodox (Monophysite) Churches, are examined. The book also contains an account of the origins and present condition of the Eastern Catholic Churches— a deeper knowledge of which, by their Western brethren, was called for at the Second Vatican Council as well as by subsequent synods and popes.

Providing both historical and theological explanations of these divisions, this illuminating and thought-provoking book chronicles the recent steps taken to mend them in the Ecumenical Movement and offers a realistic assessment of the difficulties (theological and political) which any reunion would experience.

Oriental Orthodox-Roman Catholic Interchurch Marriages Oxford University Press

This book outlines the evolution of Orthodox Christian dogma, which emerged for the first time in 33 A.D., before shifting its focus to American Orthodoxy— a tradition that traces its origins back to the first Greek and Russian immigrants in the 1700s. --from publisher description.

Platform

This volume is a presentation, published
in the mid-1930s of "the history,
religious life, and present state of the
Eastern [Catholic] church". The Eastern
Catholic Churches are autonomous, self-
governing, and in full communion with
the Pope. Together with the Latin
Church, they compose the worldwide
Catholic Church. They preserve some
centuries-old eastern liturgical,
devotional and theological traditions,
shared in most cases with the various
other Eastern Christian churches with
which they were once associated.
Historically, Eastern Catholic Churches
were located in Eastern Europe, the
Asian Middle East, Northern Africa and
India. The terms Oriental Catholic and
Eastern Catholic include these, but are

broader, since they also cover Catholics who follow the Alexandrian, Antiochian, Armenian and Chaldean liturgical traditions.

Communio

Eastern Rite Catholic Churches occupy an ambiguous position between two religious worlds and challenge the idea of a sharp religious and political dichotomy between Eastern and Western Europe. After decades of repression under socialism, the churches known popularly in Central Europe as Greek Catholic have successfully undertaken a process of revitalisation. This has been marked by competition with other churches, both over material properties and over people's souls. How can a Greek Catholic "identity" be recreated? Can these churches provide a distinctive

"product" for the new "religious marketplace"? By exploring such questions the contributors to this volume shed fresh light on the social and political shaping of religious phenomena in the era of postsocialism and also on more general issues of belief, practice, transmission and syncretism.

An Introduction to Their Worship and Spirituality

In recent years a new interest in the Eastern Churches has emerged in the Western Churches both Catholic and Protestant. The reader of this work will find answers to such fundamental questions as "Who are Eastern Catholics?" "How did the Eastern Catholic Churches originate?" "Who are Orthodox Christians?" "How do Orthodox Christians differ from Eastern Catholics?"

"Why do so many diverse Eastern Churches exist?" While it cannot answer all these questions thoroughly, this concise booklet can help interested laity,

theological students, and ministers come to understand and respect Eastern Catholicism for its many contributions to the universal Catholic Church.
