America is no longer a "government by
the people and for the people."
According to information retrieved from
the "Council on Foreign Relations"
website, "in 1921 a group of diplomats,
financers, generals, and lawyers

concluded that Americans needed to be
better prepared for significant
responsibilities and decision making in
world affairs, with this in mind they
founded the 'Council on Foreign
Relations.'" In other words, a group of
elites created a government
independent of our elected government.
Diplomats, financers, generals, and
lawyers created their own government in
1921 which continues to operate and
circumvent our elected government to

this very day. Readers will learn from this book that the Council on Foreign Relations, the Establishment, the Deep State, and the Shadow Government are all one and the same. Their goal is a corporate controlled one world government, and it appears as if the majority of our representatives are serving them. Many Americans are just recently becoming aware of and thus concerned with the establishments GREEN NEW DEAL and are totally unaware that it is already "the law of the land" via Executive Order No. 12852. In 1993 President Bill Clinton DAMNED the United States with the creation of the "President's Council on Sustainable Development" which is the original title for the GREEN NEW DEAL.

This new edition of a 1999 classic shows how institutionalized corruption can be fought through sophisticated political-economic reform.

A blistering exposé of the National Rifle Association, revealing its people, power, corruption, and ongoing downfall, from acclaimed NPR investigative reporter Tim Mak “Tenacious, careful and incisive.”—Jonathan Swan • “Deeply and meticulously reported, colorfully and precisely written.”—Olivia Nuzzi • “Nonstop revelations are told with gripping detail and intimate insider knowledge.”—David Frum • “Fantastic.”—Chris Hayes The NRA once compelled respect—even fear—from

Republicans and Democrats alike. Once a grassroots club dedicated to gun safety, the NRA ballooned into a powerful lobbyist organization that maintained an iron hold on gun legislation in America. This influential nonprofit raised millions in small fees from members across the country, which funded hidden, lavish lifestyles of designer suits, private jets and yachts, martini lunches and Champagne dinners—while the group manipulated legislators and flirted with a Russian spy. Yet in 2012, the NRA’s grip on Washington began to loosen in the wake of the massacre at Sandy Hook Elementary. Facing nationwide outrage, NRA CEO Wayne LaPierre gave a speech claiming the solution was not fewer guns, but more guns, in schools. The

group’s rhetoric only escalated from there, a misstep that sparked a backlash and invited the scrutiny of the government. Unveiled here for the first time ever are surprising, revelatory details spotlighting decades of poor leadership and mismanagement by LaPierre; the NRA’s long association with marketing firm Ackerman-McQueen; NRA executives’ 2015 trip to Moscow, a by-invitation affair packed with meetings with Russian government officials, diplomats, and oligarchs seeking influence in American politics; as well as the power struggle between LaPierre and former NRA president Oliver North that fractured the organization. Misfire is the result of a four-year investigation by journalist Tim Mak, who scoured thousands of pages of never-before-

publicized documents and cultivated dozens of confidential sources inside the NRA's orbit to paint a vivid picture of the gun group's rampant corruption and slow decline, marking a sea change in the battle over gun rights and control in America.

Conrad Black, bestselling author of *Franklin Delano Roosevelt: Champion of Freedom*, *Richard M. Nixon: A Life in Full*, and *Flight of the Eagle: America's Rise from Colonial Upstart to the World's Superpower*, turns his attention to his friend President Donald J. Trump and

provides the most intriguing and significant, but certainly not uncritical, analysis yet of Trump's political rise. Ambitious in intellectual scope, contrarian in many of its opinions, and admirably concise, this is surely set to be one of the most provocative political books you are likely to read this year.

A concise, readable, useful discussion of ADR, how it's done, and its benefits that is intended for private and public sector

executives and their legal counsel. *Whistleblowing Nation* South Asia Books This explosive book lays bare the personalities and institutional relations behind the headlines. It goes beyond the recent events to discern the roots of contemporary U.S. covert activity within the past two decades. The Iran-Contra Connection delves in to the details of CIA and extra-CIA operations, including drug-trafficking, gun-running, government-toppling, and assassination. The Iran-Contra scandal is not merely a plan gone awry, the authors argue, but a consistent outgrowth of a long tradition of U.S. covert activity- from the Bay of Pigs invasion teams to the NSC organizational team; from the CIA and the World Anti-Communist League to the Israeli connection and the State Department.

Rape and Other Sexual Offences
Cambridge University Press
President, whistleblower, crusader. Exposure is the story of how Michael Woodford exposed the dark heart of Olympus. When Michael Woodford was made President and CEO of Olympus, he became the first Westerner ever to climb the ranks of one of Japan's corporate icons. Then his dream job turned into a nightmare. He learned about a series of bizarre mergers and acquisitions deals totalling \$1.7 billion - a scandal which if exposed threatened to bring down the entire company. He turned to his fellow executives but was met with hostility and a cover-up. Within weeks he was fired in a boardroom coup that shocked the international business world. As rumours emerged of Yakuza (mafia)

involvement in the scandal, Woodford fled Japan in fear of his life. He went straight to the press - becoming the first CEO of a multinational to blow the whistle on his own company. Exposure is a deeply personal memoir that reads like a thriller. As Woodford himself puts it, 'I thought I was going to run a health-care and consumer electronics company but found I had walked into a John Grisham novel.' 'Tells his tale like a thriller. A fine book by a fine man who did the right thing' -The Times 'A brilliantly gripping book, with a great hero at its heart' - Evening Standard Michael Woodford grew up in Liverpool and joined Olympus as a medical equipment salesman, rising through the ranks to run its UK, MEA and European businesses. In April 2011 he was appointed President and COO of the

Olympus Corporation - the first Western 'salary-man' to rise through the ranks to the top of a Japanese giant. That October he was made CEO, but only two weeks later was dismissed after querying inexplicable payments approaching \$2 billion. He was named Business Person of the Year 2011 by the Sunday Times, the Independent and the Sun, and won the Financial Times Arcelor-Mittal Award for Boldest Businessperson of the Year. He lives in London with his wife and two teenage children.

The Law of Whistleblowing: Cross-disciplinary, Contextual and Comparative Perspectives provides a contextual and cross-disciplinary analysis of legal responses to whistleblowing from a comparative perspective. Examining

developments in criminal, labour, corporate and administrative law, contributions in this volume provide one of the first comprehensive analyses of the emerging multi-level legal framework to protect whistleblowers.

Memoirs of an Attorney General

AuthorHouse

Ms. Gardiner's non-fiction novel is set amidst the glitter and intrigue of power politics not only in the nation's capitol but in the Commonwealth of Virginia. The scandal of the Small Business Administration that again rocked the nation upon the heels of the Watergate fiasco is a story of loyalty, dedication and a betrayal of both, by a man whose ruthless ambition eventually landed him in a federal prison. The book centers around a man with little education, who

through lying and intimidation, rose to a high position and who, aided by an unethical presidential appointee and organized crime, found his way upscale. A man who lied about everything without compunction did so for he possessed a charm and arrogance that guaranteed his success. The tragedy is that he hurt and destroyed others in the process, including dedicated civil servants. The lives of many 'little' people were left dangling. They had no voice! In spite of past threats on her life and that of her children, the author dares to write this revealing chapter of her public service life's exposure to white collar and organized crime elements that are often not just happenstance within the framework of our governmental, economic and judicial structures. Where

is the positive recognition of this class of dedicated peoples known as “whistleblowers”?

Civil Warriors transcript Verlag

There is a growing interest in corporate whistleblowing, but no comprehensive research has yet focused on public relations practice. Drawing on extensive research on Fortune 1000 and Wilshire 5000 corporations, this book reveals executives’ attitudes and relationships toward their organizations and their impact on whistleblowing. Perhaps unsurprisingly, it reveals that wrongdoing in corporations and the privileges of power coexist. Top-ranking public relations executives, who are mostly white and male, are more likely to be aware of wrongdoing but no more likely to blow the whistle, fundamentally

due to their positive relationship with their employers. Using the new lens of evolutionary theory, this study explains whistleblowing, retaliation, and relationships, and in the light of the connection between whistleblowing behavior and executives’ attitudes, it proposes a new theory of the phenomenon of Golden Handcuffs. As public attitudes to corporations, corporate social responsibility (CSR), and transparency harden, these findings have serious implications for companies globally. Researchers, scholars, and advanced students in public relations, organizational communication, corporate communication, strategic communication, corporate reputation, and CSR will find this book full of revealing insights.

Fifth in Rebekah's Methodical Series.
Methodical Agenda builds on the events surrounding 9/11 as the familiar characters explore the cause and effect of the events of that day. Through a series of investigations President Joel Sherman holds meetings in the Oval Office where all of the research is revealed and discussed. The team comes to a conclusive understanding of who was ultimately responsible for the destruction and wars that followed.

Who Won, who Lost, who Got Away
Simon and Schuster
Science is so powerful that the powerful want to control it. From the author of *Is Shame Necessary?*, a biting outline of corporate scientific denial and obfuscation techniques, highlighting the

tactics used to contradict climate change, ignore health risks, and undermine worker safety. The Playbook is a handbook for tobacco, oil, and pharmaceutical company executives--epistolary non-fiction--advising whom to hire, how to recruit experts, how to obfuscate, and how to relentlessly and effectively challenge the threat of science, policy, reporters, and activists. Jacquet likens the machinery of deception and delays to a casino, with its deliberative architecture and design--the dimmed chandeliers, the comfortable furniture, the dealers, the drinks--to keep the customers inside comfortable and gambling as long as possible. The Playbook will help any business buy time if it is threatened by science, the most reliable form of

knowledge the world has ever known. Part strategy, part social history, part resistance, *The Playbook* illuminates the methods and motives of many successful scientific denial campaigns, and the social forces that may outwit them.

A definitive portrait of Queen Elizabeth II

on the seventieth anniversary of her reign by a renowned royal biographer. Shy but with a steely self-confidence; inscrutable despite ten decades in the public eye; unflappable; devout; indulgent; outwardly reserved, inwardly passionate; unsentimental; inquisitive; young at heart. All of these describe Her Majesty Queen Elizabeth II, who has reigned through more seismic social change than any monarch in British history. From the Abdication to the Sussexes, from World War II to the loss of her life-long partner, she has witnessed family crises on a scale not seen since the days of George III. She is a 21st Century global phenomenon commanding unrivalled respect and affection. Sealed off during the greatest peacetime emergency of modern times,

she has stuck to her own maxim: 'I have to be seen to be believed.' And now she is preparing for an event without parallel in Europe since the reign of Louis XIV: her Platinum Jubilee, celebrating seventy years on the Throne. Robert Hardman, the acclaimed and respected author of *Her Majesty and Queen of the World* has already examined the Queen as a modern monarch and her role as a stateswoman abroad. Now, in this entirely new study, including unpublished Royal Family papers and photographs along with personal stories from other world leaders, he wraps up the full story of one of the undisputed greats in a thousand years of monarchy. Hardman distils Elizabeth's complex life into a must-read study of dynastic survival and renewal. It is a portrait of a

world leader who remains as intriguing today as the day she came to the Throne at age twenty-five. With peerless access to members of the Royal Family, staff, friends and royal records, *Queen of Our Times* brings fresh insights and scholarship to the modern royal story. There will be no more thorough, more readable, more original book on the record-breaking Elizabeth II as she reaches a landmark which, surely, can never be equaled.

Bradley Kuhns was a regular guy who happened to be very good at his job. That was the trouble - - he was too good.

Even worse, he was honest. A smart, exceptionally skilled polygraph(lie detector) examiner, Kuhns felt honored to enter the ranks of the elite Los Angeles Police Department. He soon discovered, though, that by the 1980s the polygraph section was coasting on its reputation, filled with marginally competent examiners who routinely manipulated and falsified the results of the lie detector exams in exchange for gifts of cash, gift cards, liquor and other items. Promotions were handed to those who "played along," while the few who didn't might find themselves on the losing end of an "unfortunate accident." Brad Kuhns offers a disturbing memoir that details the intimidation, threats and attempts on his life. With his heart on his sleeve, he chronicles the toll the stress

took on his health and weighs the heavy burden of fear and torment suffered by the women close to him. Kuhns ultimately went into hiding for two decades with only a select few trustworthy souls knowing the full extent of his chilling, touching story - - until now.

Woodford fled the country in fear for his life and went straight to the press—making him the first CEO of a global multinational to blow the whistle on his own company. The instant New York Times and USA Today bestseller America is suffering from PTSD—The Reckoning diagnoses its

core causes and helps us begin the healing process. For four years, Donald J. Trump inflicted an onslaught of overlapping and interconnected traumas upon the American people, targeting anyone he perceived as being an “other” or an enemy. Women were discounted and derided, the sick were dismissed as weak and unworthy of help, immigrants and minorities were demonized and discriminated against, and money was elevated above all else. In short, he transformed our country into a macro version of his malignantly dysfunctional family. How can we make sense of the degree to which our institutions and leaders have let us down? How can we negotiate a world in which all sense of safety and justice seems to have been destroyed? How can we—as individuals

and as a nation—confront, process, and overcome this loss of trust and the ways we have been forever altered by chaos, division, and cruelty? And when the dust finally settles, how can we begin to heal, in the midst of ongoing health and economic crises and the greatest political divide since the Civil War? Mary L. Trump is uniquely positioned to answer these difficult questions. She holds a Ph.D. in clinical psychology specializing in trauma, has herself been diagnosed with post-traumatic stress disorder, and happens to be Donald J. Trump's only niece. In *The Reckoning*, she applies her unique expertise to the task of helping us confront an all-encompassing trauma, one that has taken an immense toll on our nation's health and well-being. A new leader

alone cannot fix us. Donald J. Trump is only the latest symptom of a disease that has existed within the body politic since America's inception—from the original sin of slavery through our unceasing, organized commitment to inequality. Our failure to acknowledge this, let alone root it out, has allowed it to metastasize. Now, we are confronted with the limits of our own agency on a daily basis. Whether it manifests itself in rising levels of rage and hatred, or hopelessness and apathy, the unspeakable stress of living in a country we no longer recognize has affected all of us for a long time, in ways we may not fully understand. An enormous amount of healing must be done to rebuild our lives, our faith in leadership, and our hope for this nation. It starts with The

Reckoning.
