This Premium edition includes 6 total full-length practice tests (4 in the book and 2 online), including one brand-new exam created for this edition

How the Other Half Lives Princeton Review

The author offers his personal take on America's poverty-stricken urban neighborhoods, recalling the lessons he has learned from time spent among the nation's poorest people.

Our Country Ottn Pub
A Novel that Stood the Test of Time "But I do know that about ten times as many people find their lives dull, and unnecessarily dull, as ever admit it; and I do believe that if we busted out and admitted it sometimes, instead of being nice and patient and loyal for sixty years, and then nice and patient and dead for the rest of eternity, why, maybe, possibly, we might make life more fun." - Sinclair Lewis, *Babbitt*
Although it was first published in 1922,

Babbitt reveals the flaws of our modern society. Are money going to make us happy? Is social status such an important aspect in our lives? Can't we just live in the moment? Asked some 90 odd years ago, these same questions haunt the Western society to this day. Can George F. Babbitt find the answer? This Xist Classics edition has been professionally formatted for e-readers with a linked table of contents. This eBook also contains a bonus book club leadership guide and discussion questions. We hope you'll share this book with your friends, neighbors and colleagues and can't wait to hear what you have to say about it. Xist Publishing is a digital-first publisher.

A Brief History with Documents Simon and Schuster Enhances the world history curriculum through analysis of primary and secondary sources. Features 23 new and revised document-based questions covering

significant eras. Teacher support includes scoring rubric and tips for implementation.

The Second Reconstruction Walch Publishing

The Jungle is a 1906 novel written by the American journalist and novelist Upton Sinclair (1878–1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty,

the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, *Appeal to Reason*, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito

in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.

Christian Cartoons

Walch Education

"An extremely good writer, [Ayers] is well worth reading . . . on the South and Southern history."—Stephen Sears, *Boston Globe*

The Southern past has proven to be fertile ground for great works of history. Peculiarities of tragic proportions—a system of slavery flourishing in a land of freedom, secession and Civil War tearing at a federal Union, deep poverty persisting in a nation of fast-paced development—have fed the imaginations of some of our most

accomplished historians. Foremost in their ranks today is Edward L. Ayers, author of the award-winning and ongoing study of the Civil War in the heart of America, the Valley of the Shadow Project. In wide-ranging essays on the Civil War, the New South, and the twentieth-century South, Ayers turns over the rich soil of Southern life to explore the sources of the nation's and his own history. The title essay, original here, distills his vast research and offers a fresh perspective on the nation's central historical event.

Cracking the AP U.S. History Exam

2020 W. W. Norton & Company

The creator of the hit podcast series *Tides of History* and *Fall of Rome* explores the four explosive decades between 1490 and 1530, bringing to life the dramatic and deeply human story of how the West was reborn. In the bestselling tradition of *The Swerve* and *A Distant Mirror*, *The Verge* tells the story of a period that marked a decisive turning point for both European and world history. Here, author Patrick Wyman examines two complementary and contradictory sides of the same historical

coin: the world-altering implications of the developments of printed mass media, extreme taxation, exploitative globalization, humanistic learning, gunpowder warfare, and mass religious conflict in the long term, and their intensely disruptive consequences in the short-term. As told through the lives of ten real people--from famous figures like Christopher Columbus and wealthy banker Jakob Fugger to a ruthless small-time merchant and a one-armed mercenary captain--*The Verge* illustrates how their lives, and the times in which they lived, set the stage for an unprecedented globalized future. Over an intense forty-year

period, the seeds for the so-called "Great Divergence" between Western Europe and the rest of the globe would be planted. From Columbus's voyage across the Atlantic to Martin Luther's sparking the Protestant Reformation, the foundations of our own, recognizably modern world came into being. For the past 500 years, historians, economists, and the policy-oriented have argued which of these individual developments best explains the West's rise from backwater periphery to global dominance. As *The Verge* presents it, however, the answer is far more nuanced.

Only Yesterday
Princeton Review
A guide to using document-based questions to teach middle school students about American history that explains how to help students analyze a wide variety of visual and graphic sources.

A History of the Modern Civil Rights Movement ABC-CLIO

A history of roaring prosperity—and economic cataclysm: “The one account of America in the 1920s against which all others must be measured” (The Washington Post). Beginning November 11, 1918, when President Woodrow Wilson declared the end of World War I in a letter to the American public, and continuing through his defeat, Prohibition, the Big Red Scare, the rise of women’s hemlines, and the stock market crash of 1929, *Only Yesterday*, published just two years after the crash, chronicles a decade like no other. Allen, who witnessed firsthand the events he describes, immerses you in the era of flappers, speakeasies, and early radio,

making you feel like part of history as it unfolds. This bestselling, enduring account brings to life towering historical figures including J. Pierpont Morgan, Henry Ford, Sigmund Freud, Albert Einstein, Al Capone, Babe Ruth, and Jack Dempsey. Allen provides insightful, in-depth analyses of President Warren G. Harding’s oil scandal, the growth of the auto industry, the decline of the family farm, and the long bull market of the late twenties. Peppering his narrative with actual stock quotes and breaking financial news, Allen tracks the major economic trends of the decade and explores the underlying causes of the crash. From the trial of Nicola Sacco

and Bartolomeo Vanzetti to the inventions, crazes, and revolutions of the day, this timeless work will continue to be savored for generations to come.

Ordinary Resurrections

The New Era of the 1920s: Key Themes and Documents
