Engaging students in community change has far-reaching benefits that not only support but also extend beyond academic achievement. Students who participate in such efforts become better connected to their schools and communities while learning and practicing the principles of democratic citizenship. Students with a high degree of school connectedness are less likely to make risky choices. In 1998, ASCD and The Robert Wood Johnson Foundation joined together to support school-community partnerships that used public health as a focus for student learning and community involvement. This book describes the lessons learned from the projects and provides insight into how schools and community public health agencies can work together to improve student achievement, behavior, and health. Using examples from diverse communities, the author discusses the intersections between education and public health, keys to successful projects, and ways to connect to the curriculum.

*From Bauhaus to Our House* Univ of North Carolina Press

Honoring the fiftieth anniversary of *Brown v. Board of Education*, a leading civil rights advocate and author of the historic Supreme Court brief recounts the triumphs, tragedies, setbacks, and continuing challenges of the civil rights movement.

Argues that the separation of church and state has unfortunately and unnecessarily led to a culture-wide trivialization of religious beliefs, forcing the devout to deny the importance of their beliefs

*Attentive, Positive, and Purposeful Change* Metropolitan Books

With intelligence, insight, and humor, Odette Harper Hines describes her life—a life that reversed the pattern of the Great Migration by beginning in prosperity in the urban North and moving into the small-town South. Recorded by Judith Rollins over eight years, this intimate narrative is an unusual collaboration between two African American women who represent two generations of civil rights activists. Born in New York into a comfortable family, Hines' activism began in the Abyssinian Baptist Church in her teens and continued throughout her life as she witnessed the Great Depression in Harlem, worked on the WPA Writers Project, became publicity director of the NAACP, and

volunteered for the Red Cross in Europe during WWII. When she moved to Louisiana in 1946, she continued to challenge racial injustice and risked her life to house civil rights workers in the early 1960s (Rollins, among them). She later started and directed the Headstart Program in her parish. Throughout this narrative, Hines describes her relationships with such figures as Mary McLeod Bethune, Adam Clayton Powell, Walter White, Thurgood Marshall, Ella Baker, Marcus Garvey, Claude McKay, Ralph Ellison, and many others. Yet Hines' memoir is not only about her public life. She courageously reveals her personal life and private pain. Twenty-eight photographs—mostly from Hines' family album—accentuate this oral history that is, as Rollins states in her Introduction, "a complex and textured portrait of an extraordinary twentieth century American woman." Author note: Judith Rollins is Associate Professor of Africana Studies and Sociology at Wellesley College, and the author of *Between Women: Domesticity and Their Employers* (Temple).

*A Ten Year Chronicle of Your Garden* Penguin

EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

**R.C. Hickman's Photographs of Black Dallas, 1949-1961** "O'Reilly Media, Inc."

Following on *Making Civil Rights Law*, which covered Thurgood Marshall's career from 1936-1961, this book focuses on Marshall's career on the Supreme Court from 1961-1991, where he was first Afro-American Justice. The first book on Justice Thurgood Marshall's years on the Supreme Court based on a comprehensive review of the Supreme Court papers of Justices Marshall and William J. Brennan, this work describes Marshall's special approach to constitutional law in areas ranging from civil rights and the death penalty to abortion and poverty. It also describes the Supreme Court's operations during Marshall's tenure, the relations among the justices, and the particular roles played by Chief Justice Warren Burger, Justice Brennan, and Justice Antonin Scalia. The book locates the Supreme Court's actions from 1967 to 1991 in a broader historical and political context, explaining how Marshall's liberalism became increasingly isolated on a Court influenced by nation's drift in a more conservative direction.

**Crime and Punishment in Black America** Crown

The fascinating, forgotten story of the 1970s attempt to build a city dedicated to racial equality in the heart of "Klan Country" In 1969, with America's cities in turmoil and racial tensions high, civil rights leader Floyd McKissick announced an audacious plan: he would build a new city in rural North Carolina, open to all but intended primarily to benefit Black people. Named Soul City, the community secured funding from the Nixon administration, planning help from Harvard and the University of North Carolina, and endorsements from the New York Times and the Today show. Before long, the brand-new settlement - built on a former slave plantation - had roads, houses, a health care center, and an industrial plant. By the year 2000, projections said, Soul City would have fifty thousand residents. But the utopian vision was not to be. The race-baiting Jesse Helms, newly elected as senator from North Carolina, swore to stop government spending on the project. Meanwhile, the liberal Raleigh News & Observer mistakenly claimed fraud and corruption in the construction effort.

Battered from the left and the right, Soul City was shut down after just a decade. Today, it is a ghost town – and its industrial plant, erected to promote Black economic freedom, has been converted into a prison. In a gripping, poignant narrative, acclaimed author Thomas Healy resurrects this forgotten saga of race, capitalism, and the struggle for equality. Was it an impossible dream from the beginning? Or a brilliant idea thwarted by prejudice and ignorance? And how might America be different today if Soul City had been allowed to succeed?

#### **Graph Algorithms** Vintage

Discover how graph algorithms can help you leverage the relationships within your data to develop more intelligent solutions and enhance your machine learning models. You'll learn how graph analytics are uniquely suited to unfold complex structures and reveal difficult-to-find patterns lurking in your data. Whether you are trying to build dynamic network models or forecast real-world behavior, this book illustrates how graph algorithms deliver value—from finding vulnerabilities and bottlenecks to detecting communities and improving machine learning predictions. This practical book walks you through hands-on examples of how to use graph algorithms in Apache Spark and Neo4j—two of the most common choices for graph analytics. Also included: sample code and tips for over 20 practical graph algorithms that cover optimal pathfinding, importance through centrality, and community detection. Learn how graph analytics vary from conventional statistical analysis Understand how classic graph algorithms work, and how they are applied Get guidance on which algorithms to use for different types of questions Explore algorithm examples with working code and sample datasets from Spark and Neo4j See how connected feature extraction can increase machine learning accuracy and precision Walk through creating an ML workflow for link prediction combining Neo4j and Spark

*Soul City* Univ of North Carolina Press

Lesser Feasts and Fasts has not been updated since 2006. This new edition, adopted at the 79th General Convention (resolution A065), fills that need. Biographies and collects associated with those included within the volume have been updated; a deliberate effort has been made to more closely balance the men and women represented within its pages.

*Black America and the Untold Stories of Our Country's Gardeners, Farmers, and Growers* Penguin

Eyewitnesses play an important role in criminal cases when they can identify culprits. Estimates suggest that tens of thousands of eyewitnesses make identifications in criminal investigations each year. Research on factors that affect the accuracy of eyewitness identification procedures has given us an increasingly clear picture of how identifications are made, and more importantly, an improved understanding of the principled limits on vision and memory that can lead to failure of identification. Factors such as viewing conditions, duress, elevated emotions, and biases influence the visual perception experience. Perceptual experiences are stored by a system of memory that is highly malleable and continuously evolving, neither retaining nor divulging content in an informational vacuum. As such, the fidelity of our memories to actual events may be compromised by many factors at all stages of processing, from encoding to storage and retrieval. Unknown to the individual, memories are forgotten, reconstructed, updated, and distorted. Complicating the process further, policies governing law enforcement procedures for conducting and recording identifications are not standard, and policies and practices to address the issue of misidentification vary widely.

These limitations can produce mistaken identifications with significant consequences. What can we do to make certain that eyewitness identification convicts the guilty and exonerates the innocent? Identifying the Culprit makes the case that better data collection and research on eyewitness identification, new law enforcement training protocols, standardized procedures for administering line-ups, and improvements in the handling of eyewitness identification in court can increase the chances that accurate identifications are made. This report explains the science that has emerged during the past 30 years on eyewitness identifications and identifies best practices in eyewitness procedures for the law enforcement community and in the presentation of eyewitness evidence in the courtroom. In order to continue the advancement of eyewitness identification research, the report recommends a focused research agenda. Identifying the Culprit will be an essential resource to assist the law enforcement and legal communities as they seek to understand the value and the limitations of eyewitness identification and make improvements to procedures.

*African Americans and the Struggle for Access and Equity in Higher Education in Texas* National Academies Press

With libraries under the gun to provide more and better services, and with fewer resources in many cases, they need to come up with innovative and reliable ways to fund new initiatives. Providing targeted access to the most promising major givers, *The Big Book of Library Grant Money 2002-2003* is the largest directory available, pulled from an authoritative and upto-the-minute database of library-specific funders. This forward-looking edition includes more than 2,175 private and corporate foundations and givers that have either indicated an interest in giving money to libraries or have already done so. Organized by state, potential donors in *The Big Book* are profiled with contact and portfolio information, past contributions summary and analysis, and application information. With historical data, you can track contributions and assets and predict future giving patterns. Offering you the most hooks for connecting with actual people, *The Big Book* also provides biographical information on more than 34,000 foundation officers, directors, trustees, and corporate officers. As an added feature, ALA's own development office experts have included tips on winning grants for libraries. Tailo

**Thurgood Marshall and the Supreme Court, 1936-1961** Da Capo Press

After critiquing—and infuriating—the art world with *The Painted Word*, award-winning author Tom Wolfe shared his less than favorable thoughts about modern architecture in *From Bauhaus to Our Haus*. In this examination of the strange saga of twentieth century architecture, Wolfe takes such European architects as Ludwig Mies van der Rohe, Le Corbusier, and Bauhaus art school founder Walter Gropius to task for their glass and steel box designed buildings that have influenced—and infected—America's cities.

**How Our Greatest Invention Makes Us Richer, Smarter, Greener, Healthier, and Happier** Birch Lane Press

This revised and expanded edition traces the lives of key American civil rights leaders as they willingly risk their lives for the civil rights cause, including A. Philip Randolph, Thurgood Marshall, Adam Clayton Powell, Jr., Fannie Lou Hamer, and Ella Baker.

*Servants of the People* Lee Valley

*Conquer the Soil* profiles 45 hidden figures of horticulture—the Black men and women whose

accomplished careers in the plant world are little known or untold. Among them are Wormley Hughes, an enslaved African-American who was head gardener at Monticello and dug Jefferson's grave; Annie Vann Reid, an ex-teacher turned entrepreneur in South Carolina who owned a five-acre greenhouse and nursery in the 1940s that sold millions of plants and seeds; and David August Williston, a graduate of Cornell University and the first African-American landscape architect, a student of Liberty Hyde Bailey, and the designer of the Tuskegee University campus. The lively text is enriched by illustrations of each individual, making this a beautiful package. In *Conquer the Soil*, Abra Lee--a rising star in the plant world--gives these women and men the spotlight they deserve and enriches our collective understanding of the history of horticulture.

Argues that civil disobedience is necessary to the progress and prosperity of a democracy

[Activist Architecture](#) Little, Brown

Simple Justice is the definitive history of the landmark case *Brown v. Board of Education* and the epic struggle for racial equality in this country. Combining intensive research with original interviews with surviving participants, Richard Kluger provides the fullest possible view of the human and legal drama in the years before 1954, the cumulative assaults on the white power structure that defended segregation, and the step-by-step establishment of a team of inspired black lawyers that could successfully challenge the law. Now, on the fiftieth anniversary of the unanimous Supreme Court decision that ended legal segregation, Kluger has updated his work with a new final chapter covering events and issues that have arisen since the book was first published, including

developments in civil rights and recent cases involving affirmative action, which rose directly out of *Brown v. Board of Education*.

**A Gardener's Journal** American Library Association

Chronicles the life of Justice Thurgood Marshall, discussing his youth, his tenure on the Supreme Court, and his decisions

*The Culture Of Disbelief* American Library Association

For ninety years, young society women in San Antonio, Texas have donned custom-designed dresses and trains to take part in the Coronation of a queen and her court. These royal robes, which weigh fifty pounds and more and cost an average of \$18,000, are highly embellished with rhinestones and beads. The Coronation is part of the ten-day, century-old festival celebrating the final battle of the 1836 Texas revolt against Mexico. This book provides a significant contribution to the study of social elites in Western society through a material culture analysis of the Coronation costumes worn by the Euro-American debutantes. Set against the backdrop of a city undergoing many demographic, socioeconomic, and political changes, the themes of Coronation pageants represent the mythologized ethnic and class history which reinforces the hierarchical positioning of its participants. The royal robes serve as the canvas upon which this theme is carried out. The Coronation, held in a city with a Hispanic majority, has come under attack for its elitism, but participation in it is still important for the old Euro-American aristocracy and for a very few extremely wealthy Hispanic families. Integral to the continuation of this increasingly contested tradition is the emotional appeal that wearing these intricately decorated gowns holds for participants.
