MENTAL HEALTH NURSING

(KEPERAWATAN

KESEHATAN JIWA) EGC

Kasus gawat darurat tidak terpisahkan dari kehidupan manusia. Kondisi gawat darurat boleh terjadi di mana dan kapan saja, sehingga pertolongan yang diberikan oleh petugas kesehatan dapat dilakukan di luar rumah sakit atau di komunitas (pra hospital dan post hospital) serta di rumah sakit sendiri (in hospital). Tidak jarang ditemukan kasus kematian bahkan kecacatan terjadi akibat pemberian tindakan tidak

sesuai dengan SOP (Standar Operasional Prosedur) sehingga kasus kematian atau kecacatan setiap tahunnya meningkat khususnya pada kasus kegawatdaruratan. Seorang mahasiswa perlu memiliki buku pedoman praktikum guna menambah wawasan pengetahuan dan keterampilan mahasiswa dalam pemberian tindakan gawat darurat serta mempersiapkan mahasiswa tenaga kesehatan yang siap pakai nantinya di lahan praktik. Buku ini berisikan tentang prosedur serta penilaian dari setiap tindakan dalam kasus gawat darurat. Buku pedoman praktikum ini dapat digunakan oleh mahasiswa tenaga kesehatan untuk belajar secara mandiri baik di laboratorium maupun di lahan praktik (komunitas dan rumah sakit) sehingga dengan adanya buku ini mahasiswa lebih percaya diri dan terampil dalam melakukan tindakan gawat darurat. Harapannya tidak ada lagi ditemukan kasus malapraktik di lahan praktik karena petugas kesehatan tidak melakukan tindakan sesuai dengan SOP yang berlaku. Penulis

menyadari masih banyak kekurangan dari buku pedoman ini, sehingga penulis meminta saran dan pendapat dari teman sejawat untuk kesempurnaan buku pedoman praktik ini. NANDA International Nursing Diagnoses Media Pustaka Indo Based on years of research at the University of Iowa, this one-of-a-kind reference provides linkages between three standardized languages recognized by the American Nurses Organization: NANDA, Nursing Interventions Classification (NIC), and Nursing Outcomes Classification (NOC).
