**Understanding**  
**Sustainable**  
**Transformational**  
**Citizenship** IGI Global  
Emotional, physical and  
social well-being describe

human health from birth.  
Good health goes hand in  
hand with the ability to  
handle stress for the  
future. However,  
biological factors such as  
diet, life experiences such  
as drug abuse, bullying,  
burnout and social factors  
such as family and  
community support at the

school stage tend to mold  
health problems, affecting  
academic achievements.  
This book is a compilation  
of current scientific  
information about the  
challenges that students,  
families and teachers face  
regarding health and  
academic achievements.  
Contributions also relate

to how physical activity, psychosocial support and other interventions can be made to understand resilience and vulnerability to school desertion. This book will be of interest to readers from broad professional fields, non-specialist readers, and those involved in education policy.

**Reshaping Traditional Libraries into Next Generation Libraries**

Bloomsbury Publishing Education plays a vital role in the positive development of

communities at both a local and global level. By becoming more informed, citizens can make better contributions to society. Open and Distance Learning Initiatives for Sustainable Development is a critical reference source for emerging academic perspectives on the role of higher education programs in contemporary society. Including a range of pertinent topics such as mobile learning, environmental education, and community building, this book is ideally

designed for educators, researchers, students, and professionals interested in the intersection between sustainable development and education.

The Subjection of Women

IGI Global

Written by one of the founders of modern political philosophy, Thomas Hobbes, during the English civil war, Leviathan is an influential work of nonfiction. Regarded as one of the earliest examples of the social contract theory, Leviathan has both

historical and philosophical importance. Social contract theory prioritizes the state over the individual, claiming that individuals have consented to the surrender of some of their freedoms by participating in society. These surrendered freedoms help ensure that the government can be run easily. In exchange for their sacrifice, the individual is protected and given a place in a steady social order. Articulating this theory, Hobbes argues for a strong,

undivided government ruled by an absolute sovereign. To support his argument, Hobbes includes topics of religion, human nature and taxation. Separated into four sections, Hobbes claims his theory to be the resolution of the civil war that raged on as he wrote, creating chaos and taking causalities. The first section, Of Man discusses the role human nature and instinct plays in the formation of government. The second section, Of Commonwealth explains

the definition, implications, types, and rules of succession in a commonwealth government. Of a Christian Commonwealth imagines the religion's role government and societal moral standards. Finally, Hobbes closes his argument with Of the Kingdom of Darkness. Through the use of philosophical theory and historical study, Thomas Hobbes attempts to convince citizens to consider the cost and reward of being governed. Without an understanding

of the sociopolitical theories that keep government bodies in power, subjects can easily become complicit or allow society to slip into anarchy. Created during a brutal civil war, Hobbes hoped to educate and persuade his peers. Though *Leviathan* was a work of controversy in its time, Hobbes' theories and prose has survived centuries, shaping the ideas of modern philosophy. This edition of *Leviathan* by Thomas Hobbes is now presented with a stunning new cover

design and is printed in an easy-to-read font. With these accommodations, *Leviathan* is accessible and applicable to contemporary readers. [The Poetics of Aristotle](#) Managing Knowledge and Scholarly Assets in Academic Libraries Knowledge management strategies play an important role across numerous industries. These processes and strategies can be adopted into higher education sectors for use in managing scholarly assets. Managing

Knowledge and Scholarly Assets in Academic Libraries is an essential reference source for the latest research on approaches for adopting and implementing various facets of knowledge management in academia. Featuring expansive coverage on a range of topics and perspectives, such as knowledge mapping, social media applications, and linked data, this publication is ideally designed for librarians, students, managers, and scholars seeking current

research on the innovative measures of knowledge management in libraries.

**This Fissured Land** IGI Global

A Kitchen in the Corner of the House collects twenty-five gem-like stories on motherhood, sexuality, and the body from the innovative and perceptive Tamil writer Ambai. In A Kitchen in the Corner of the House, Ambai's narrators are daring and courageous, stretching and reinventing their homes, marriages, and worlds. With each story,

her expansive voice confronts the construction of gender in Tamil literature. Piecing together letters, journal entries, and notes, Ambai weaves themes of both self-liberation and confinement into her writing. Her transfixing stories often meditate on motherhood, sexuality, and the liberating, and at times inhibiting, contours of the body.

Penguin Classics

This volume brings together internationally known researchers representing different

theoretical perspectives on students' self-regulation of learning. Diverse theories on how students become self-regulated learners are compared in terms of their conceptual origins, scientific form, research productivity, and pedagogical effectiveness. This is the only comprehensive comparison of diverse classical theories of self-regulated learning in print. The first edition of this text, published in 1989, presented descriptions of such

differing perspectives as operant, phenomenological, social learning, volitional, Vygotskian, and constructivist theories. In this new edition, the same prominent editors and authors reassess these classic models in light of a decade of very productive research. In addition, an information processing perspective is included, reflecting its growing prominence. Self-regulation models have proven especially appealing to teachers, coaches, and tutors

looking for specific recommendations regarding how students activate, alter, and sustain their learning practices. Techniques for enhancing these processes have been studied with considerable success in tutoring sessions, computer learning programs, coaching sessions, and self-directed practice sessions. The results of these applications are discussed in this new edition. The introductory chapter presents a historical overview of

research and a theoretical framework for comparing and contrasting the theories described in the following chapters, all of which follow a common organizational format. This parallel format enables the book to function like an authored textbook rather than a typical edited volume. The final chapter offers an historical assessment of changes in theory and trends for future research. This volume is especially relevant for students and professionals in educational psychology,

school psychology, guidance and counseling, developmental psychology, child and family development, as well as for students in general teacher education.

The Last Girl Vintage Canada

Repackage of a classic sociology text in which the author develops the idea of resistance to social and economic pressures.

*Dionysius Longinus on the Sublime* Routledge

Many studies during the past few decades have

sought to determine whether the death penalty has any deterrent effect on homicide rates.

Researchers have reached widely varying, even contradictory, conclusions. Some studies have concluded that the threat of capital punishment deters murders, saving large numbers of lives; other studies have concluded that executions actually increase homicides; still others, that executions have no effect on murder rates. Commentary among researchers,

advocates, and policymakers on the scientific validity of the findings has sometimes been acrimonious. Against this backdrop, the National Research Council report *Deterrence and the Death Penalty* assesses whether the available evidence provides a scientific basis for answering questions of if and how the death penalty affects homicide rates. This new report from the Committee on Law and Justice concludes that research to date on the effect of capital

punishment on homicide rates is not useful in determining whether the death penalty increases, decreases, or has no effect on these rates. The key question is whether capital punishment is less or more effective as a deterrent than alternative punishments, such as a life sentence without the possibility of parole. Yet none of the research that has been done accounted for the possible effect of noncapital punishments on homicide rates. The report recommends new avenues of research that

may provide broader insight into any deterrent effects from both capital and noncapital punishments. How Conceptual Frameworks Guide Research CRC Press In Mining Engineering operations, mines act as sources of constant danger and risk to the miners and may result in disasters unless mining is done with safety legislations and practices in place. Mine safety engineers promote and enforce mine safety and health by complying with

the established safety standards, policies, guidelines and regulations. These innovative and practical methods for ensuring safe mining operations are discussed in this book including technological advancements in the field. It will prove useful as reference for engineering and safety professionals working in the mining industry, regulators, researchers, and students in the field of mining engineering. **DIGITAL LIBRARIES** Graphic Arts Books

Chetan Bhagaot is author of one blockbuster book, "One Indian Girl." The New York times did not call him anything yet, USA detains him in airport every time he visits USA, Bhagaot got fired from an "Investment Bank" and trying to make a living out of writing books, Chetan Bhagaot is currently double timing his two Half Girlfriends Panusha and Ranusha. Please buy his book to support him maintaining his two half girlfriends. Here is one paragraph excerpt from the book "One Indian

Girl." Sonja is a divorced and attractive Indian girl. She is working as a software engineer in an investment bank, USA. She has money (\$\$\$\$), she can afford sex outside marriage. She also has opinion on everything. She is dating various marriage prospects, will she get her dream guy?

**Open and Distance Learning Initiatives for Sustainable Development** Random House

How Students Learn: Science in the Classroom builds on the discoveries

detailed in the best-selling How People Learn. Now these findings are presented in a way that teachers can use immediately, to revitalize their work in the classroom for even greater effectiveness. Organized for utility, the book explores how the principles of learning can be applied in science at three levels: elementary, middle, and high school. Leading educators explain in detail how they developed successful curricula and teaching approaches, presenting

strategies that serve as models for curriculum development and classroom instruction. Their recounting of personal teaching experiences lends strength and warmth to this volume. This book discusses how to build straightforward science experiments into true understanding of scientific principles. It also features illustrated suggestions for classroom activities.

Midnight's Children IGI Global

There is an existing gap currently in the academic

discourse pertaining to the treatment of juveniles before, during and after their conflict with the law. This book attempts to identify this lacuna in the Indian juvenile justice system and study its impact on our children. It remedies this crucial gap by juxtaposing 'what is' with 'what ought to be' by analysing the results of a study conducted in observation homes and special homes in the National Capital Territory of Delhi, Haryana and Punjab. The data was studied on parameters

which reflect upon all aspects of the life and experiences of juveniles before their conflict with the law, inside the homes as well as their post-release prospects. This data was then tested vis-à-vis the requirements of the standard of living, reformation, rehabilitation and reintegration mandated under the Juvenile Justice Act, 2000, as well as the Juvenile Justice Act, 2015. Presenting a comprehensive account, the book further details the amendments in the

juvenile justice laws after the Nirbhaya case and offers a critique to it on the grounds of both descriptive realities as well as the current normative understanding of juvenile justice.

#1 NEW YORK TIMES  
BESTSELLER • We all have dreams—things we fantasize about doing and generally never get around to. This is the story of Azar Nafisi's dream and of the nightmare that made it come true. For two years

before she left Iran in 1997, Nafisi gathered seven young women at her house every Thursday morning to read and discuss forbidden works of Western literature. They were all former students whom she had taught at university. Some came from conservative and religious families, others were progressive and secular; several had spent time in jail. They were shy and uncomfortable at first, unaccustomed to being asked to speak their minds, but soon they began to open up and to

speak more freely, not only about the novels they were reading but also about themselves, their dreams and disappointments. Their stories intertwined with those they were reading—*Pride and Prejudice*, *Washington Square*, *Daisy Miller* and *Lolita*—their *Lolita*, as they imagined her in Tehran. Nafisi's account flashes back to the early days of the revolution, when she first started teaching at the University of Tehran amid the swirl of protests and

demonstrations. In those frenetic days, the students took control of the university, expelled faculty members and purged the curriculum. When a radical Islamist in Nafisi's class questioned her decision to teach *The Great Gatsby*, which he saw as an immoral work that preached falsehoods of "the Great Satan," she decided to let him put *Gatsby* on trial and stood as the sole witness for the defense. Azar Nafisi's luminous tale offers a fascinating portrait of the Iran-Iraq war viewed from

Tehran and gives us a rare glimpse, from the inside, of women's lives in revolutionary Iran. It is a work of great passion and poetic beauty, written with a startlingly original voice. Praise for *Reading Lolita in Tehran* "Anyone who has ever belonged to a book group must read this book. Azar Nafisi takes us into the vivid lives of eight women who must meet in secret to explore the forbidden fiction of the West. It is at once a celebration of the power of the novel and a cry of outrage at the

reality in which these women are trapped. The ayatollahs don't know it, but Nafisi is one of the heroes of the Islamic Republic."—Geraldine Brooks, author of *Nine Parts of Desire*  
[Science in the Classroom](#)  
 SAGE Publications  
 The main objective of this Seminar proceedings book is to analyse the performance of the present development programmes, the issues and challenges and also reflect and think about whether and to what extent the benefits of

these programmes have percolated to the weaker sections of our society- indeed, have they reached those they were meant to reach ?

**One Indian Girl** SAGE Publishing India  
 Master's Thesis from the year 2017 in the subject American Studies - Literature, grade: 10, , course: Literature, language: English, abstract: This study focuses on the style of the author Nicholas Sparks in his two novels: "The Notebook" and "The best of me". These two novels

appeared at two important phases of his development as an author: the first one at the outset of his career and the other one at a time when he was already an acclaimed author. The main objectives are to analyze his style and to study its evolution over fifteen years by comparing his two masterpieces. In the end I summarize the main features of his style and draw conclusions about the development of his artistic creativity in general and his style in

particular. Nowadays most of people read novels especially romantic novels but they read only the story as a preface without knowing the point of view, style, literary devices or tone etc. While reading a novel or a book, we must connect ourselves to the story or character or maybe to emotions in order to have that feeling. This study will concentrate in two novels of Nicholas Sparks, The Notebook and The best of me. Nicholas Sparks was born in Omaha, Nebraska on

December 31, 1965, son of Patrick Michael (1942-1996) and Jill Emma Marie Sparks (1942-1989). During his childhood he moved around a lot with his family and lived in multiple locations like, Minnesota, Los Angeles, and Grand Island, Nebraska, finally settling in Fair Oaks, California at the age of eight. His father was a professor, his mother was a homemaker, then an optometrist's assistant. He lived in Fair Oaks until he finished high school,

he graduated valedictorian in 1984, and received a full scholarship to the University of Notre Dame. Nicholas Sparks as a freshman was part of a relay team and broke the Notre Dame school record in 1985, a record which still stands, but he was injured and spent the summer recovering. During that summer, he wrote his first novel, but it was never published. Critical Global Semiotics National Academies Press WINNER OF THE NOBEL PEACE PRIZE • In this “courageous” (The

Washington Post) memoir of survival, a former captive of the Islamic State tells her harrowing and ultimately inspiring story. Nadia Murad was born and raised in Kocho, a small village of farmers and shepherds in northern Iraq. A member of the Yazidi community, she and her brothers and sisters lived a quiet life. Nadia had dreams of becoming a history teacher or opening her own beauty salon. On August 15th, 2014, when Nadia was just twenty-one years old, this life ended.

Islamic State militants massacred the people of her village, executing men who refused to convert to Islam and women too old to become sex slaves. Six of Nadia's brothers were killed, and her mother soon after, their bodies swept into mass graves. Nadia was taken to Mosul and forced, along with thousands of other Yazidi girls, into the ISIS slave trade. Nadia would be held captive by several militants and repeatedly raped and beaten. Finally, she managed a narrow

escape through the streets of Mosul, finding shelter in the home of a Sunni Muslim family whose eldest son risked his life to smuggle her to safety. Today, Nadia's story—as a witness to the Islamic State's brutality, a survivor of rape, a refugee, a Yazidi—has forced the world to pay attention to an ongoing genocide. It is a call to action, a testament to the human will to survive, and a love letter to a lost country, a fragile community, and a family torn apart by war.

**The Bloomsbury Research Handbook of Indian Aesthetics and the Philosophy of Art**  
Univ of California Press  
Across the Black Waters is widely rated as an outstanding novel. It is a simple story about the ultimate futility and sorrow of war. It is a journey not just from a small village in Punjab to Flanders, from father to soldier, field to front — but from a soul that nurtures to one that kills. Overlooking the claims of war classics like All Quiet on the Western Front, the

British Council selected and adapted this novel into a play to mark the 80th anniversary of the end of World War I. "The foremost of Indian novelists." — Daily Telegraph "His descriptions of brutality match in compassion and outrage, and perhaps also in poetic flair, those of Wilfred Owen, Siegfried Sasson, or David Jones." — Alastair Niven, British Literary Critic *Social, Health, and Environmental Infrastructures for Economic Growth*

Routledge  
Research methodology is as old as academia itself. Research methodology shifts in strategy as it crosses different disciplines and theories. This, too, is true with the shifting landscape of research opportunities and technologies available to global researchers. To achieve the most accurate and substantial research, it is important to be knowledgeable of emerging research methodologies. The Research Anthology on

Innovative Research Methodologies and Utilization Across Multiple Disciplines discusses the most recent global research innovations made across multiple fields. This anthology further discusses how these research methodologies can be applied to a variety of specific fields. Covering topics such as creative thinking, qualitative research, and the research method landscape, this book is essential for students and faculty of higher

education, scientists, researchers, sociologists, computer scientists, and academicians.

**Handbook of Research on Connecting Research Methods for Information Science**

**Research** KY Publications  
 "The object of this essay is to explain as clearly as I am able, the grounds of an opinion which I have held from the very earliest period when I had formed any opinions at all on social or political matters, and which, instead of being weakened or modified, has been

constantly growing stronger by the progress of reflection and the experience of life: That the principle which regulates the existing social relations between the two sexes- the legal subordination of one sex to the other- is wrong in itself, and now one of the chief hindrances to human improvement ; and that is ought to be replaced by a principle of perfect equality, admitting no power or privilege on the one side, nor disability on the other."--Page 1.

A Memoir in Books Univ of California Press

In the era of social connectedness, people are becoming increasingly enthusiastic about interacting, sharing, and collaborating through online collaborative media. However, conducting sentiment analysis on these platforms can be challenging, especially for business professionals who are using them to collect vital data. Sentiment Analysis and Knowledge Discovery in Contemporary Business is

an essential reference source that discusses applications of sentiment analysis as well as data mining, machine learning algorithms, and big data streams in business

environments. Featuring research on topics such as knowledge retrieval and knowledge updating, this book is ideally designed for business managers, academicians, business professionals,

researchers, graduate-level students, and technology developers seeking current research on data collection and management to drive profit.
