Many employers complain about the poor communication skills of many young people seeking employment; and many people in employment are handicapped by the poor quality of their written work. While bad spelling, ineffective punctuation and faults in grammar create barriers between the writer and the reader, good English makes the reader feel at ease. The benefits of being a good writer at work are: Managers need to be able to

communicate in order to get ideas across. If they cannot, they will be unable to make their viewpoint heard and they will be unable to influence customers, suppliers and colleagues as desired. If you can write well, you will find that your views are given prominence over those of others. Effective communication, and that includes writing, is the key to career success and advancement. This book is for those who have difficulty in getting thoughts into words or their ideas across, as well as those who are satisfied with their writing but are ready to consider the possibility of improving it. It is all about the ways in which writing at work is important - helping the reader to observe, remember, think, plan, organise and communicate.

*Fostering Literacy Independence in the Elementary Grades* John F. O'Sullivan Jr. Now available in a deluxe keepsake edition! A Time Best YA Book of All Time (2021) Run away to the Metropolitan Museum of Art with E. L. Konigsburg's beloved classic and Newbery Medal-winning novel *From the Mixed-Up Files of Mrs. Basil E. Frankweiler*. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation.

And she would go in comfort-she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.

runs out... The Lockwood brothers are supposed to be able to survive anything. Their dad, a hardcore believer in self-reliance, has stockpiled enough food and water at their isolated Nevada home to last for months. But when they are robbed of all their supplies during a massive blackout while their dad is out of town, John and Stew must walk 96 miles in the stark desert sun to get help. Along the way, they're forced to question their dad's insistence on self-reliance and ask just what it is that we owe to our neighbors, to our kin, and to ourselves. From talented newcomer J. L. Esplin comes this story of survival and determination as two young brothers confront the unpredictability of human nature in the face of desperate circumstances.
