HICKS DARION

Its Fate and Survival The Croatan Indians of Sampson County, North Carolina
Their Origin and Racial Status
 1879- include reports of the quartermaster-general, surgeon general and judge advocate-general.
Their Origin and Racial Status UNC Press Books
 Eleven short stories by national award-winning author Doug Frelke. According to one reviewer, "Frelke's characters, like his stories, are skillfully crafted and unforgettable. His voice as storyteller alternately stuns, soothes and shocks. Let this writer lead you into his surprising shadow world. And when your scalp tingles or you're stricken with a haunting sense of déjà vu, don't be surprised."
[Description of High-resolution Seismic Reflection Data Collected in Albemarle and Croatan Sounds, North Carolina \(cruise NE-82-1\)](#) Wildside Press
 In 1913 the State of North Carolina officially recognized Robeson County Indians as "Cherokees," a designation that went largely unnoticed by the Federal Government. When the same Indians petitioned for Federal recognition and assistance in 1915, the Senate tasked the Office of Indian Affairs to report on the "tribal rights and conditions" of those Robeson County Indians. Special Indian Agent Orlando McPherson, a Midwesterner who was in the final stages of a long career as a civil servant, was commissioned to investigate. The resulting federal report is essentially literature review in the guise of fact-finding. It relies heavily on Robeson county legislator Hamilton McMillan's musings on the relationship between Sir Walter Raleigh's Lost Colony and the Indians around Robeson County. The report reaches many erroneous conclusions, in part because it was based in an anthropological framework of white supremacy, segregation-era politics, and assumptions about racial "purity." In fact, later researchers would establish that the Lumbees, as Malinda Lowery writes, "are survivors from the dozens of tribes in that territory who established homes with the Native people, as well as free European and enslaved African settlers, who lived in what became their core homeland: the low-lying swamplands along the border of North and South Carolina." Excavations would later establish the presence of Native people in that homeland since at least 1000 A.D. Ironically, McPherson's murky colonial history connecting Lumbees to early colonial settlers was used to legitimize them and to deflect their categorization as African-Americans. The McPherson report documents one important phase of an Indian people's long path to self-determination and political recognition, a path that would designate them variously as Croatan, Cherokee Indians of Robeson County, Siouan Indians of the Lumber River, and finally, Lumbee--the title of their own choosing and the one we use today. A DOCSOUTH BOOK. This collaboration between UNC Press and the University of North Carolina at Chapel Hill Library brings classic works from the digital library of Documenting the American South back into print. DocSouth Books uses the latest digital technologies to make these works available in paperback and e-book formats. Each book contains a short summary and is otherwise unaltered from the original publication. DocSouth Books provide affordable and easily accessible editions to a new generation of scholars, students, and general readers.

The U.S. Fish and Wildlife Service has accepted responsibility for the development of inventory technologies and methodologies for designation and classification of wetlands. The Service's definition of wetlands follows Cowardin et al. (1979): transitional between terrestrial and aquatic

systems where the water table is usually at or near the surface or the land is covered by shallow water ... wetlands must have one or more of the following three attributes: (1) at least periodically, the land supports predominantly hydrophytes; (2) the substrate is predominantly undrained hydric soil; and (3) the substrate is nonsoil and is saturated with water or covered by shallow water at some time during the growing season of each year ... The upland limit of wetland is designated as: (1) the boundary between land with predominantly mesophytic and xerophytic cover; (2) the boundary between soil that is predominantly hydric and soil that is predominantly nonhydric; or (3) in the case of wetlands without vegetation or soil, the boundary between land that is flooded or saturated at some time each year and land that is not.

Magazine of American History UNC Press Books

These are dark and darkening times, challenging us to look deeper to grasp the roots and dynamics of the looming civilizational crisis. Chronic illness of the planet calls for radically new thinking if there is to be any hope of renewal. When We Are Human offers thought at a necessary and primal level. All previous civilizations have failed, and now there's just one global civilization, which is starkly, grandly failing. To deny or avoid this fact is to remain in the sphere of the superficial, the irrelevant. The physical environment is reaching the catastrophe stage as the seas warm, rise, acidify, and fill with plastics. Icebergs ahead and floating past beachgoers idly watching the planet die. So much is failing, so much is interrelated in the technosphere of ever-greater dependence and estrangement. Social existence, now strangely isolated, is beset by mass shootings, rising suicide rates, slipping longevity, loneliness, anxiety, and the maddening stream of lies and concocted politics. Zerzan trains his passionate focus on several fields of discourse: anthropology, history, philosophy, technology, psychology, and the spiritual. Points of light that become a kaleidoscope refracting new insights and contributing an overall picture of late civilization.

Werewolf: The Apocalypse is about anger over the loss of what the shapeshifting Garou hold dearest: Gaia, the Earth itself. Corruption from without and within has caused the destruction not only of the Garou's environment, but also of their families, friends and culture, which extends in an unbroken line to the very dawn of life. No matter how righteously the Garou hold themselves, no matter how they prey on their destroyers, the corruption spreads. Now the time for reconciliation is past. This grave insult against Gaia can end in only one way: blood, betrayal... and rage. Werewolves in Pre-Columbian North America.

[Annual Report](#)

Wetlands recently have been afforded increased protection through various changes in Federal regulations. These changes have resulted in significant part from an increased realization of the many unique values and functions of wetland ecosystems. The purpose of this study was to determine the relation between hydric and nonhydric soils and wetland vegetation: Do hydric soils

support hydrophytic vegetation? Are hydrophytes (or 'wetland' species) generally restricted to hydric soils? The Osceola National Forest, Florida, was the principal test area for this study.

Watson's Magazine

Mary Johnston (1870-1936) was a best-selling American novelist and women's rights advocate. Her first book *Prisoners of Hope* (1898) dealt with colonial times in Virginia, as did her second novel *To Have and to Hold* (1900) and 1904's *Sir Mortimer*. During her long career, Johnston wrote 23 novels, several short stories, one drama, and two long narrative poems. Croatan relates a fictional account of Sir Walter Raleigh's lost Virginia colony.

House Documents, Otherwise Publ. as Executive Documents

A true, bestselling story from the battlefield that faithfully portrays the horror, the madness, and the trauma of the Vietnam War More than half a million copies of *Chickenhawk* have been sold since it was first published in 1983. Now with a new afterword by the author and photographs taken by him during the conflict, this straight-from-the-shoulder account tells the electrifying truth about the helicopter war in Vietnam. This is Robert Mason's astounding personal story of men at war. A veteran of more than one thousand combat missions, Mason gives staggering descriptions that cut to the heart of the combat experience: the fear and belligerence, the quiet insights and raging madness, the lasting friendships and sudden death—the extreme emotions of a "chickenhawk" in constant danger. "Very simply the best book so far about Vietnam." -St. Louis Post-Dispatch

Notes from the Age of Pandemics

The Croatan Indians of Sampson County, NC, written by George Edwin Butler (1868-1941) and composed only a year after Special Indian Agent Orlando McPherson's *Indians of North Carolina* report, was an appeal to the state of North Carolina to create schools for the "Croatan" of Sampson County just as it had for those designated as Croatan in, for example, Robeson County, North Carolina. Butler's report would prove to be important in an evolving system of southern racial apartheid that remained uncertain of the place of Native Americans. It documents a troubled history of cultural exchange and conflict between North Carolina's native peoples and the European colonists who came to call it home. The report reaches many erroneous conclusions, in part because it was based in an anthropological framework of white supremacy, segregation-era politics, and assumptions about racial "purity." Indeed, Butler's colonial history connecting Sampson County

Indians to early colonial settlers was used to legitimize them and to deflect their categorization as African-Americans. In statements about the fitness of certain populations to coexist with European-American neighbors and in sympathetic descriptions of nearly-white "Indians," it reveals the racial and cultural sensibilities of white North Carolinians, the persistent tensions between tolerance and self-interest, and the extent of their willingness to accept indigenous "Others" as neighbors. A DOCSOUTH BOOK. This collaboration between UNC Press and the University of North Carolina at Chapel Hill Library brings classic works from the digital library of Documenting the American South back into print. DocSouth Books uses the latest digital technologies to make these works available in paperback and e-book formats. Selected and edited by Bryan Gienza, Director of the Southern Historical Collection, each book contains a short summary and is otherwise unaltered from the original publication. 13th Congress, 2d Session-49th Congress, 1st Session

Nearly 25,000 titles with current values fill this hardbound book. Much more than just a typical price guide, the book is a directory with scores of actual buyers listed by the subject matter they are searching for, as well as dealers offering the books at listed prices. It will put you in touch with a person interested in buying or selling the books you have piled on your bookshelves

Soil Survey

As the last surviving member of the first English colony, a little girl is all alone on a foreign continent. Learning to survive and to flourish, Usdi Unegv Ski, known to the English as Virginia Dare, finds a place for herself in this new and sometimes harsh world. There is danger when Ski finds herself kidnapped by strangers who think she is a spirit. But is a stranger really calling the shots or is it someone that she is close to? Will she lose someone she loves before she can find out the truth? Ski finds that seeking adventure and being content can seem like opposite goals, but in the end she succeeds in melding the two together into a life she loves and one that her parents would have been proud of.
