Boot-Click-Enter, Enter the world of IT based on Windows 7 and MS Office 2010, comprises of eight computer science textbooks for classes 1-8. The CCE compliant series is based on an interactive approach to teach various concepts related to Computer Science. This series is created to help students master the use of various kinds of software and IT tools. The books have been designed to keep pace with the latest technologies and the interests of the 21st century learners. The books for classes 1-5 are introductory. They introduce students to the basic features of Windows 7 and MS Office 2010, starting with the history of computers, what are the basic parts of the computer, how to use Tux Paint, WordPad, MS Paint, how to program in LOGO and also give an introduction to the Internet. However, the books for

classes 6–8 are for senior students and take a deep dive into the advanced features of Windows 7 and MS Office 2007, including how to do programming in QBasic, HTML and Visual Basic. Students learn to create animations using Flash and Photoshop, and how to communicate using the Internet. The ebook version does not contain CD.

Microsoft Office 2010: Introductory Pearson Education

Experience learning made easy—and quickly teach yourself how to build your own database with Access 2013. With Step by Step, you set the pace—building and practicing the skills you need, just when you need them! Includes downloadable practice files and a companion eBook. Build a database from scratch or ready templates Create easy-to-use data-entry forms Write queries to extract and manipulate data Design reports to summarize data in effective ways Import data from other databases and documents

This book-and-video package is the perfect introduction to Access 2010 Microsoft Access is the most popular database system in the world and this practical guide will soon have you building Access applications using the Access 2010. This book is designed for beginner-to intermediate-level Access users and covers the basics of building and working with the major features of the program. Over 60 lessons are included to discuss these features and provide step-by-step examples showing you exactly how each feature can be implemented in a real world Access database

application. The accompanying DVD provides clear, easy-to-follow videos of the authors demonstrating each of the examples discussed in the book, as well as extra commentary, so that no reader is left behind! Provides examples of building Access database applications from scratch or from existing database templates. Discusses how to use Access 2010 and the major components it provides, such as the Navigation Pane, Ribbon, and the many database object designers. Teaches the basics of building and working with each of the major Access database object types: tables, queries, forms, reports, macros, and VBA code modules. Introduces exciting new Access 2010 features, such as the new macro designer, the new Ribbon designer, and even how to customize the Access Backstage. Teaches the basics of writing VBA code and provides specific examples about how and when to use it. Each lesson includes a step-by-step written example and DVD video showing exactly how to accomplish the tasks discussed in the lesson. Even if you have no experience with Access 2010, this guide will have you building robust Access applications with the best of them! If you want to get quickly up to speed on Access 2010, Access 2010 24-Hour Trainer is the perfect place to start. Note: As part of the print version of this title, video lessons are included on DVD. For e-book versions, video lessons can be accessed at wrox.com using a link provided in the interior of the e-book.
