*Signaling of the New York
City Subway - Wikipedia*

Cbtc Communication Based Train ControlThe IRT Flushing Line, and the trains used on the 7 and <7> services, do not have ATS for two reasons: they are isolated from the main-line A Division, and

they were already planned to get communications-based train control (CBTC) before the ATS on the A Division, or ATS-A project, had started. ATS allows dispatchers in the
