Race, Gender and Empire in American Detective Fiction Open Road Media Smilla's Sense of Snow presents one of the toughest heroines in modern fiction. Smilla Qaavigaaq Jaspersen is part Eskimo but she lives in Copenhagen and keeps to herself. When her six-year

old neighbor is killed, Smilla doesn't believe it was an accident and begins her own investigation of a case that even the police don't want to get involved in. Der Krimi Springer Satoru Saito examines the similarities between detective fiction and the novel in prewar Japan. Arguing that interactions between the genres were critical moments of literary engagement, Saito

demonstrates how detective fiction provided a framework through which to examine and critique Japan's literary formations and its modernizing society." **Gumshoe America** Springer Detective Fiction and the Rise of Forensic Science Cambridge University Press *Tears of the Giraffe* University of Wales Press 'Detective Fiction' is a clear and

compelling look at some of the best known, yet least-understood characters and texts of the modern day.

The essays in this revised and expanded volume explore a variety of structuring taxonomies, the relationships

between the aesthetic forms, styles and methodologies of detective and crime fiction in the late-Victorian and Edwardian period. The influences on the artists in the genre are as varied as the interests of the period in scientific method, forensics, archaeology, aesthetics, medicine, and the paranormal. But the formalizing tendencies of investigative process remain, and it

is this adherence, in artist and detective alike, to seeing crime and its resolution as a stylistic imposition of structure on disorder that is under examination.

An anthology of thirty-three short stories traces the evolution of American crime fiction in works by Erle Stanley Gardner, Rex

<p>Stout, Ellery Queen, Ed McBain, Sue Grafton, Sara Paretsky, Bret Harte, William Faulkner, and Tony Hillerman <u>The Oxford Book of American Detective Stories</u> Bloomsbury Publishing This book highlights detection's malleability by analyzing the works of particular groups of authors from specific time periods written in response to other texts. It traces the roles that</p>	<p>gender, race and empire have played in American detective fiction from Edgar Allan Poe's works through the myriad variations upon them published before 1920 to hard-boiled fiction (the origins of which derive in part from turn-of- the-20th- century notions about gender, race and nationality), and it concludes with a discussion of contemporary mystery series</p>	<p>with inner-city settings that address black male and female heroism. <i>Victims Or Villains</i> Duke University Press Books In this remarkable book, Martha Hailey DuBose has given those multitudes of readers who love the mystery novel an indispensable addition to their libraries. Unlike other works on the subject, <i>Women of Mystery</i> is not merely a directory of the novelists</p>

and their publications with a few biographical details. DuBose combines extensive research into the lives of significant women mystery writers from Anna Katherine Green and Mary Roberts Rinehart with critical essays on their work, anecdotes, contemporary reviews and opinions and some of the women's own comments. She takes us through the Golden Age of the British

women mystery writers, Christie, Sayers, Marsh, Allingham and Tey, to the leading crime novelists of today, focused on the women who have become legends of the genre. And though she laments, "so many mysteries, so little time," she makes a good effort a mentioning "some of the best of the rest." When DuBose writes of the lives of her principal players, she relates them to their times,

their families, their personal situations and above all to their books. She subtly points out that Sayers, whose experience with the men in her life was inevitably disastrous, created in Lord Peter the ideal lover -- one who is all that a woman desires and needs. DuBose gives us the curriculum vitae that Dorothy Sayers created to help her bring Peter Wimsey to a virtual actuality. Ngaio Marsh

would give up an active presence in the theatrical world she loved, but she recreated it for herself as well as her readers in many of her novels. The biographies of these woman are as engrossing as the stories they wrote, and Martha DuBose has shined a different, intimate and intriguing light on them, their works, and the lives that informed those works. This book is so full of treasure it's hard to

see how any mystery enthusiast will be able to do without it. And what a gift it would make for anyone on your list who has been heard to announce "I love a mystery." both the originating sources and adapted texts. But it is also more than this. It is a study of the politics of representation in the last decades of the twentieth century, and the role television detective fiction plays in this. It is about the mutually-informing interrelation of cultural texts and political rhetoric, about the connection between the popular-cultural depiction of

crime and criminality and how we come to understand human behaviour and culpability; most of all, it is a detailed consideration of what the process of adaptation reveals about the shifting nature of the world in which we live. With specific reference to television series such as *The Adventures of Sherlock Holmes*, *Miss Marple*, *Inspector Morse*, *A Touch of Frost*, *Cadfael*,

and *Midsomer Murders*, *Adapting Detective Fiction* uses adaptation as the basis for an exercise in later twentieth-century cultural history, illustrating the fundamental role detective fictions play in popular beliefs about the nature of crime and Englishness. Teaching Crime Fiction Bloomsbury Publishing A History of American Crime Fiction places crime fiction within a context of

Psychology Press Detective Fiction and the Ghost Story is a lively series of case studies celebrating the close relationship between detective fiction and the ghost story. It features many of the most famous

authors from both genres including Conan Doyle, Agatha Christie, M. R. James and Tony Hillerman.

Under Lock & Skeleton Key

Harvard Univ Council on East Asian This book is a study of the 'mothers' of the mystery genre. Traditionally the invention of crime writing has been ascribed to Poe, Wilkie Collins and Conan Doyle, but they had formidable women rivals, whose work has been until

recently largely forgotten. The purpose of this book is to 'cherchez les femmes', in a project of rediscovery. Oxford University Press, USA In the days of the Raj, a newly arrived Scotland Yard detective is confronted with the murder of a British official—in his mouth a note warning the British to leave India, or else . . . Calcutta, 1919. Captain Sam Wyndham, former

Scotland Yard detective, is a new arrival to Calcutta. Desperately seeking a fresh start after his experiences during the Great War, Wyndham has been recruited to head up a new post in the police force. He is immediately overwhelmed by the heady vibrancy of the tropical city, but with barely a moment to acclimatize or to deal with the ghosts that still haunt him, Wyndham is caught up in a

murder investigation that threatens to destabilize a city already teetering on the brink of political insurgency. The body of a senior official has been found in a filthy sewer, and a note left in his mouth warns the British to quit India, or else. Under tremendous pressure to solve the case before it erupts into increased violence on the streets, Wyndham and his two new colleagues—arrogant

Inspector Digby and Sergeant Banerjee, one of the few Indians to be recruited into the new CID—embark on an investigation that will take them from the opulent mansions of wealthy British traders to the seedy opium dens of the city. Masterfully evincing the sights, sounds, and smells of colonial Calcutta, *A Rising Man* is the start of an enticing new historical crime series.

Detective Fiction in a Postcolonial and Transnational World Popular Press
Edgar Allan Poe essentially invented the detective story in 1841 with *Murders in the Rue Morgue*. In the years that followed, however, detective fiction in America saw no significant progress as a literary genre. Much to the

dismay of moral crusaders like Anthony Comstock, dime novels and other sensationalist publications satisfied the public's hunger for a yarn. Things changed as the century waned, and eventually the detective was reborn as a figure of American literature. In part these changes were due to a combination of social conditions, including the rise and decline of the police as an

institution; the parallel development of private detectives; the birth of the crusading newspaper reporter; and the beginnings of forensic science. Influential, too, was the new role model offered by a wildly popular British import named Sherlock Holmes. Focusing on the late 19th century and early 20th, this volume covers the formative years of American detective

fiction. Instructors considering this book for use in a course may request an examination copy here. *Detective Fiction* Springer Portrayed as dubious moneylenders, underworld operatives, megalomaniacs, Bolshevik saboteurs, or unscrupulous war-profiteers, Jewish characters have surfaced in English detective fiction from the very beginning. Starting with Conan Doyle, and focusing on the Golden Age of the genre, Tunrball uses multiple examples to trace the evolution of Jewish caricature in British crime writing, and examines fictional representations of Jews in relation to burgeoning antisemitic sentiment within British society. Attention is paid to crime writers as wide-ranging as Baroness Orczy, Sydney Horler, R. Austin Freeman, Ngaio Marsh, and S. T. Haymon, and the depiction of Jews by Golden Age giants Dorothy L. Sayers, Agatha Christie, and Anthony Berkeley Cox. [Crime Fiction in the City](#) McFarland Crime Fiction in German is the first volume in English to offer a comprehensive overview of German-language crime fiction from its origins in the early nineteenth century to its vibrant growth

in the new millennium. As well as introducing readers to crime fiction from Germany, Austria, Switzerland and the former East Germany, the volume expands the notion of a German crime-writing tradition by investigating Nazi crime fiction, Jewish-German crime fiction, Turkish-German crime fiction and the Afrika-Krimi. Significant trends, including the

West German social crime novel, women's crime writing, regional crime fiction, historical crime fiction and the Fernsehkrimi television crime drama are also explored, highlighting the genre's distinctive features in German-language contexts. This volume includes a map of German-speaking Europe, a chronology of key crime publishing

milestones, primary texts and trends, as well as an annotated bibliography of print and online resources in English and German. *Victorian Detective Fiction and the Nature of Evidence* Cambridge University Press
