Your Money or Your Life FT Press

Section 1: Client and Planner Attitudes, Values and Biases Section 1 includes Chapters 1, 2 and 3, and provides an overview of client and planner attitudes, values, and biases. This section discusses the importance of understanding how a client's psychology, background, learning style and values can all impact the financial planning process. It also discusses the importance of the financial planner framing advice in a way that accounts for all those psychological characteristics, leading to a more effective client-planner relationship and a higher probability of success. Research has shown that when clients can see that financial planning recommendations are demonstrably connected to their personal values and goals, they are much more likely to act on those recommendations and achieve success. Chapter 1: Framing Advice in Light of Client's Risk Tolerance (Swarn Chatterjee and Dave Yeske) Chapter 2: Developing a Productive Client-planner Relationship That Addresses the Psychological Elements of Financial Planning (Megan McCoy and Neal Van Zutphen) Chapter 3: Identifying and Responding to Client Values and Goals (Megan McCoy and Meghaan Lurtz) Section 2: Behavioral Finance Section 2 includes Chapters 4 and 5, and introduces key concepts from the area of behavioral finance. This section provides an understanding of the impact of cognitive biases and heuristics on people's financial decision-making and well-being, and discusses strategies for overcoming some of the common client psychology barriers in the financial planning process. Chapter 4: Impact of Cognitive Biases and Heuristics on Financial Decision-making and Well-being (Ron Sages and Swarn Chatterjee) Chapter 5: Client Psychology Barriers in the Financial Planning Process and Strategies for Overcoming Them (Ron Sages and Swarn Chatterjee) Section 3: Sources of Money Conflict Section 3 includes Chapters 6 through 10, and provides an overview of the major sources of money conflict. This section focuses on the harnessing of client's motivation for achieving their financial goals, examining couple and family financial transparency, and

discusses strategies for mediating potential financial conflicts and facilitating goal congruence. This section also discusses counseling strategies that can be used for identifying when money is being used for purposes of manipulation. Chapter 6: Building the Client's Motivation for Achieving Their Financial Goals (Rick Kahler) Chapter 7: Examining Couple and Family Financial Transparency (Emily Koochel and Meghaan Lurtz) Chapter 8: Mediating Financial Conflict (Sonya Lutter and Emily Koochel) Chapter 9: Facilitating Goal Congruence (Rick Kahler) Chapter 10: Identifying When Money Is Being Used as Manipulation (Saundra D. Davis, Meghaan Lurtz and Megan McCoy) Section 4: Principles of Counseling Section 4 includes Chapters 11 and 12, and introduces the principles of counseling. This section includes the application of counseling theory in the financial planning process, and discusses strategies for forging trusting client-planner relationships. Chapter 11: Applying Financial Counseling Skills to the Financial Planning Process (Emily Koochel, Megan McCoy and Saundra D. Davis) Chapter 12: Forging Trusting Relationships (Megan McCoy and Sonya Lutter) Section 5: General principles of effective communication Section 5 includes Chapter 13, and provides an overview of the general principles of effective communication. This topic is of great importance as effective communication has been shown to be the single largest predictor of client trust and relationship commitment, which in turn can lead to a greater propensity by clients to reveal personal and financial information, engage in effective conflict resolution, and act on financial planning recommendations. Chapter 13: Multifaceted Communication (Swarn Chatterjee and Ron Sages) Section 6: Crisis Events with Severe Consequences Section 6 includes Chapters 14 and 15, and discusses strategies for helping clients who experienced crisis events with severe consequences. The strategies discussed in this section focus on helping clients navigate unanticipated personal and environmental crises, and the importance of empathy when working with clients who experienced such events. As is true across all topics in this book, self-awareness and self-development by the financial planner is as important as understanding the client's psychology when helping them navigate difficult circumstances. Chapter 14: Navigating Change

(Sonya Lutter, Megan McCoy, Saundra D. Davis, and Lance Palmer Chapter 15: The Necessity of Empathy (Megan McCoy and Sonya Lutter)

Saving for Retirement will relieve confusion and barriers to action for Americans who are increasingly worried about retirement. The book removes everything from the readers' path that typically trips people up and hits the sweet spot for everyone aged 18 to 60. Using new figures (including troubling new projections of healthcare and long-term care costs), Gail Markjarvis helps readers calculate exactly how much money they'll need and how to get there. She presents easy, proven investing strategies for anyone at any age that will transform pocket change into hundreds of thousands of dollars. Packed with her readers'

personal stories, this book teaches powerful professional financial planning principles — but makes them simple enough for anyone to apply on their own.

Young people face unprecedented financial challenges: rising student debt, stiff competition for jobs, barriers to home ownership, dwindling state benefits and prospects of a longer working life. Today, students need financial knowledge and skills more than ever before, not just to build their own financial security, but to create the new generation of advisers that can help all citizens navigate the complex world of personal finance. *Essential Personal Finance* is a guide to all the key areas of personal finance: budgeting, managing debt, savings and investments, insurance, securing a home and laying the foundations for retirement. It also provides an introduction to some of the essential foundations of a modern undergraduate finance qualification, including: The nature of financial institutions, markets and economic policy that shape the opportunities and decisions that individuals face. The range of financial assets available to households, the risk-return trade-off, basics of portfolio construction and impact of tax. The importance of the efficient market hypothesis and modern portfolio theory in shaping investment strategies and the limitations of these approaches. Behavioural finance as a key to understanding factors influencing individual and market perceptions and actions. Using financial data to inform investment selection and to create financial management tools that can aid decision-making. A comprehensive companion website accompanies the text to enhance students' learning and includes answers to the end-of-chapter questions. Written by authors who contribute experience as financial advisers, practitioners and academics, *Essential Personal Finance* examines the motivations, methods and theories that underpin financial decision-making, as well as offering useful tips and guidance on money management and financial planning. The result is a compelling combination of an undergraduate textbook aimed at students on personal finance and financial services courses, and a practical guide for young people in building their own financial strength and capability. *Personal Finance: An Encyclopedia of Modern Money Management* American Bar Association

Sick of Hearing the Same Old Advice ? " Word Hard , Control your expenses , Credit Card is a "No , NO " Do not get into Debt !! Debunk all those assumptions that you will be Rich if you study hard and work hard . This Book is actually not one of those . "They don't teach you how to get rich at school, is all about the importance of money. The premise of the book clearly distinguishes the difference between the thinking of the rich and the poor. In essence, the only limitation between you and the rich is in your own mind, and achieving success lies in breaking these walls. At schools, you would have been stuck at algebra, Pythagorean Theorem, and organic chemistry but you never study financial planning, making money, or saving money. The book provides real-life examples to reprogram your thinking to that of the rich and wealthy. You can't just graduate and leave formal education and expect yourself to be financially well equipped. Many people think that having a good education is sufficient to the roads to acquire new wealth , well they can't be any more wrong! It is having the mindset of the wealthy that will make you

rich. That is why many lotto winners who becomes instant millionaires loses most of their money because they don't have the proper mindset to maintain or grow their money. You'll discover why some of your money beliefs might be wrong and that could be holding you back , you need to consider what are the principles and what behaviors the rich have , that you do not have (Yet) Laura Maya takes this idea and breaks it into twelve chapters. You wouldn't find a recipe to turn rich overnight. Rather, the book provides a solid foundation for setting the psychological stage for strong financial habits. Another feature of They don't teach you how to get rich at school is the anecdotal references in the book. Laura likes to use lots of anecdotes to illustrate her points and she is quite good at it. For me, I found these references very apt to my observations in life. What's Inside They Don't Teach You How To Get Rich at School The book is divided into twelve chapters: Chapter 1: How you think about money really matters Chapter 2: They don't teach you how to be rich at school Chapter 3: Myth or Lies , Which is True Chapter 4: Learn How the Rich Think to Become Wealthy Chapter 5: Wealth Empowering Beliefs Chapter 6: Change Your Money Mindset with Neuro Linguistic Programming Chapter 7: Change Your Money Mindset with Hypnotherapy Chapter 8: Break free from Ego Chapter 9: Strategies for Improving Your Chances to get Rich Chapter 10:Let Money begets money Chapter 11:Developing your money making skill, mental, emotional and financial intelligence The premise of this book is straightforward - Rich people are programmed to think differently. Essentially, there are 18 ways in which rich people and poor people think differently. This chapter walks you through these 18 points clearly differentiating how rich and poor people think. Studying hard, getting nice grades, and getting a job is not enough to be rich. That's one lie which we have been fed with since our childhood. There is a difference between scholastic, professional and financial education. The book further analyzes the root cause of why you are not rich. It all boils down to your education. You were never taught about how to be rich at school. Forget that, you never even learned personal finance or how to handle money. It further touches upon how you can get smart with personal finance.
