Linguist Camilia Sadik discovered over 100 spelling rules. Logical learners need spelling rules to know when to spell a sound one-way and not the other, as in the final sound in fashion, ocean, suspicion, complexion, superstition, expression, and musician. Those with spelling difficulties are not learning disabled; they can learn but their learning style is a logical learning style. Logical learners have been learning the spelling of hundreds of words at a time from 100 Spelling Rules. Visit [SpellingRules.com](http://SpellingRules.com) to learn Now the spelling of 240 words instantly! 100 Spelling Rules is a book to teach 12,000 long words to older children in the 4th grade and up, adults, and ESL students. It can be used by teachers or as a self-

help book. Dyslexic persons are logical learners and can now learn to spell logically. Dyslexia in spelling and in writing letters in reverse ends, after learning to spell and after slowing down to write words slowly. Each of the 105 spelling lessons in *100 Spelling Rules* begins with a spelling rule, followed by a list of nearly all the words that follow that rule, and students are asked to read aloud slowly to memorize the spelling of hundreds of words at a time. The author, Linguist Camilia Sadik spent 15 years intensely dissecting English, discovering over 100 spelling rules, applying the spelling rules in 600 phonics-based spelling lessons, class-testing her discoveries, and preparing 10 breakthrough phonics-based spelling books. The 30 unique learning features in Sadik's books make learning to spell inescapable. Sadik's books are cumulative. To benefit from this book, those who missed learning phonics need to start with the books *Read Instantly* and *Learn to Spell 500 Words a Day*, which is in 6 volumes. For British spellings focusing on KS2 curriculum requirements. This colourful, fun book is ideal for kids (including dyslexics) who are struggling with spelling and phonics by systematically focusing on areas that other spelling books and schemes ignore: □ improving visual memory, □ using memory tricks, □ noticing letter patterns, □ knowing spelling rules & exceptions, □ building words with prefixes and suffixes, □ understanding the history of spelling and why spelling is the way it is. Using a combination of well-known, proven literacy techniques and spelling strategies, this book will help kids learn, remember, and improve their spellings while reinforcing and building: \* spelling knowledge, \* confidence, \* love of spelling and writing. The book is a great resource for teachers and tutors, too, because it explains why these "tricky" spellings are the way they are, including the rules and history of them - so you can answer those awkward questions about them. The book also provides some great ideas for exercises, group work, and games in the classroom. Reviews/feedback Graham J Spooner of The Sensible Tuition Company I enjoyed reading through the first little section actually with the 'tricks and tips' for how to develop your spelling. This is exactly the sort of thing that my students are asking me for advice on regularly - and there are a lot of things in here that I know will be directly useable in lessons. I like the gap filling exercises - again, something like this makes the book a GREAT resource for a tutor or teacher as we could lift/adapt these exercises for

1:1 work. I like the way you've really opened up the material with the word lists. Again (speaking from the perspective of a private tutor) I think this is particularly useful as a resource to test a student's understanding (perhaps bringing these words into a game of hangman or other gap fill exercises). The grammar bits were quite memorable, I like your no-nonsense approach and voice that you have here. It's just useful stuff delivered without unnecessary padding but still accessible! I think that overall the book definitely fills a 'gap' by getting students actually looking at words, decoding them and building their intuition about how they are made, remade and deconstructed. It's also got a nice balance in its content in that it is accessible to a student at 10-11, but also useful for a tutor to adapt and create exercises from without much stress. I really like the use of colour throughout. I also really enjoyed the history bits too (e.g. about Latin roots of words) - very interesting. From Jessica and Roman McA. My son didn't lose concentration and worked for 20 mins without one single complaint. He really liked the word searches. He said writing sentences and drawing pictures was fun. He also liked filling in the missing letters, which I think is a brilliant way of really taking in the sequence of the letters. Roman scored really well on the tests, which is pretty good considering he hates spelling!
