"The latest entry in National Geographic's popular photo line gives readers a front-row seat to the wonders of landscape photography. Choosing from among the world's best portfolios, curators at National Geographic have arranged a symphony of photographs that tell the story of a single day, from dawn's first light to the closing moments of sunset, from daylight to dark. Short legends accompany every

photograph to explain the picture, the scene it conveys, or how the photographer captured it, along with quotations from literature that provide historical context. With the widest possible array of perspectives, close-ups, and details, these photos present a lifetime of vision, each page a new experience of time and light"--

Explore the star-studded cosmos with this fully updated, user-friendly skywatcher's guide, filled with charts, graphics, photographs, and expert tips for viewing -- and understanding -- the wonders of space. Stargazing's too much fun to leave to astronomers. In these

inviting pages, "Night Sky Guy" Andrew Fazekas takes an expert but easygoing approach that will delight would-be astronomers of all levels. Essential information, organized logically, brings the solar system, stars, and planets to life in your own backyard. Start with the easiest constellations and then "star-hop" across the night sky to find others nearby. Learn about the dark side of the moon, how to pick Mars out of a planetary lineup, and which kinds of stars twinkle in your favorite constellations. Hands-on tips and techniques for observing with the naked eye, binoculars, or a telescope help make the most out of sightings and astronomical

phenomena such as eclipses and meteor showers. Photographs and graphics present key facts in an easy-to-understand format, explaining heavenly phenomena such as black holes, solar flares, and supernovas. Revised to make skywatching even easier for the whole family, this indispensable guide shines light on the night sky--truly one of the greatest shows on Earth!

Kids Camp! National Geographic Books Offers tips and advice for how to improve bird watching skills, from choosing equipment and guides to where to watch and what features to look for when trying to identify a bird.

Boxing's colourful history is filled with chapters of high drama and simmering controversy. Many boxing fans are familiar with the outcome of the most memorable bouts, but few know the secrets surrounding them. In 'The 12 Greatest Rounds of Boxing', Ferdie Pacheco not only selects the dozen best rounds ever

fought, but reveals what went on behind the scenes at these fights, from chicanery and Mob influence to romantic liaisons and the zaniness that seems to go hand in glove with boxing. Did Muhammad Ali's 1965 'Phantom Punch' really knock out Sonny Litson, or was Sonny simply too scared to get off the canvas? With World War II looming, was German heavyweight champoin warned by Adolf Hitler to beat Joe Louis - or else? Did Jack Dempsey have something illegal in his glove when he battered Jess Willard into bloody submission in 1919? The fascinating behind the scenes stories are related by Pacheco and a renowned grup of boxing experts,

offering an intimate glimpse of boxing inimitable characters and the often bizarre world they inhabit. National Geographic Complete Birds of North America National Geographic Books Provides a guide for beginning stargazers, including sky maps and constellation charts, identification tips, and space facts and jokes.

Perfect book for the birder and anti-birder alike
A humorous look at 50 common North American dumb birds:
For those who have a

disdain for birds or bird lovers with a sense of humor, this snarky, illustrated handbook is equal parts profane, funny, and—let's face it—true. Featuring common North American birds, such as the White-Breasted Butt Nugget and the Goddamned Canada Goose (or White-Breasted Nuthatch and Canada Goose for the layperson), Matt Kracht identifies all the idiots in your backyard and details exactly why they suck with humorous, yet angry, ink drawings. With The Field Guide to Dumb Birds of North America, you won't need to wonder what all that racket is anymore! • Each entry is accompanied by facts about a bird's (annoying) call, its (dumb) migratory

pattern, its (downright tacky) markings, and more. • The essential guide to all things wings with migratory maps, tips for birding, musings on the avian population, and the ethics of birdwatching. • Matt Kracht is an amateur birder, writer, and illustrator who enjoys creating books that celebrate the humor inherent in life's absurdities. Based in Seattle, he enjoys gazing out the window at the beautiful waters of Puget Sound and making fun of birds. "There are loads of books out there for bird lovers, but until now, nothing for those that love to hate birds. The Field Guide to Dumb Birds of North America fills the void, packed with snarky illustrations that chastise the flying

animals in a funny, profane way. " – Uncrate A humorous animal book with 50 common North American birds for people who love birds and also those who love to hate birds • A perfect coffee table or bar top conversation-starting book • Makes a great Mother's Day, Father's Day, birthday, or retirement gift
