In the Shadow of Jezebel (Treasures of His Love Book #4) NSTA Press

After six years of economic development work in Africa, Ernesto Sirolli witnessed how little most foreign aid programs were actually doing for the people they hoped to help--from creating a communal tomato field on the banks of the Zambezi river (only to be demolished by the river's hippos at harvest time) to donating snow-plows to African nations! However well intentioned, Sirolli points out, inappropriate development often creates more problems than it solves. Thus was the genesis of this exciting and unique alternative to traditional economic development termed "Enterprise Facilitation"- where depressed communities can build hope and prosperity by first helping individuals to recognize their talents and business passion, and then providing the skills to transform their dreams into meaningful and rewarding work.

Appreciative Inquiry Harper Collins
Princess Jehosheba wants nothing more than to please the harsh and demanding Queen Athaliah, daughter of the notorious Queen Jezebel. Her work as a priestess in the temple of Baal seems to do the trick. But when a mysterious letter from the dead prophet Elijah predicts doom for the royal household, Jehosheba realizes that the dark arts she practices reach beyond the realm of earthly governments. To further Athaliah and Jezebel's strategies, she is forced to marry Yahweh's high priest and enters the unfamiliar world of Yahweh's temple.

Can her new husband show her the truth and love she craves? And can Jehosheba overcome her fear and save the family--and the nation--she loves? With deft skill, Mesu Andrews brings Old Testament passages to life, revealing a fascinating story of the power of unconditional love.

Artificial Intelligence Rowman & Littlefield

When communities face complex public health emergencies, state local, tribal, and territorial public health agencies must make difficult decisions regarding how to effectively respond. The public health emergency preparedness and response (PHEPR) system, with its multifaceted mission to prevent, protect against, quickly respond to, and recover from public health emergencies, is inherently complex and encompasses policies, organizations, and programs. Since the events of September 11, 2001, the United States has invested billions of dollars and immeasurable amounts of human capital to develop and enhance public health emergency preparedness and infrastructure to respond to a wide range of public health threats, including infectious diseases, natural disasters, and chemical, biological, radiological, and nuclear events. Despite the investments in research and the growing body of empirical literature on a range of preparedness and response capabilities and functions, there has been no national-level, comprehensive review and grading of evidence for public health emergency preparedness and response practices comparable to those utilized in medicine and other public health fields. Evidence-Based Practice for Public Health Emergency Preparedness and Response reviews the state of the

evidence on PHEPR practices and the improvements necessary to move the field forward and to strengthen the PHEPR system. This publication evaluates PHEPR evidence to understand the balance of benefits and harms of PHEPR practices, with a focus on four main areas of PHEPR: engagement with and training of community-based partners to improve the outcomes of at-risk populations after public health emergencies; activation of a public health emergency operations center; communication of public health alerts and guidance to technical audiences during a public health emergency; and implementation of quarantine to reduce the spread of contagious illness.

A dozen papers from the Workshop on Qing Management and the Bonds of Civil Community, 1600-1014, held in Cumberland Falls, Kentucky in October 1998 examine the strategies and institutions the Qing government used to solve practical problems and needs of a regionally diverse and culturally complex empire. Most of the contributing historians are American. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).

Interpersonal Relationships in Education: From Theory to Practice Springer

This book brings together recent research on interpersonal relationships in education from a variety of perspectives including research from Europe, North America and Australia. The work clearly demonstrates that positive teacher-student relationships can contribute to student learning in classrooms of various types. Productive learning environments are characterized by supportive and warm interactions throughout the class: teacher-student

and student-student. Similarly, at the school level, teacher learning thrives when there are positive and mentoring interrelationships among professional colleagues. Work on this book began with a series of formative presentations at the second International Conference on Interpersonal Relationships in Education (ICIRE 2012) held in Vancouver, Canada, an event that included among others, keynote addresses by David Berliner, Andrew Martin and Mieke Brekelmans. Further collaboration and peer review by the editorial team resulted in the collection of original research that this book comprises. The volume (while eclectic) demonstrates how constructive learning environment relationships can be developed and sustained in a variety of settings. Chapter contributions come from a range of fields including educational and social psychology, teacher and school effectiveness research, communication and language studies, and a variety of related fields. Together, they cover the important influence of the relationships of teachers with individual students, relationships among peers, and the relationships between teachers and their professional colleagues.

A heartfelt exploration of faith and love and friendship, *What Happened To Sophie Wilder* is a beautiful, absorbing work about the redemptive power of storytelling: a literary love story. Charlie Blakeman has just published his first novel, to almost no acclaim. He's living on New York's Washington Square, struggling with his follow-up, and floundering within his pseudointellectual

coterie when his college love, Sophie Wilder, returns to his life. Sophie is also struggling, though Charlie isn't sure why, since they've barely spoke, after falling out a decade before. Now Sophie begins to tell Charlie the story of her life since then, particularly the story of the days she spent taking care of a dying man with his own terrible past and of the difficult decision he forced her to make. When she disappears once again, Charlie sets out to discover what happened to Sophie Wilder. Christopher Beha's debut novel explores faith, love, friendship, and, ultimately, the redemptive power of storytelling.

'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seeks and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and

analysis, *Folk Devils and Moral Panics* is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

L.M. Montgomery's writings are replete with enchanting yet subtle and fluid depictions of nature that convey her intense appreciation for the natural world. At a time of ecological crises, intensifying environmental anxiety, and burgeoning eco-critical perspectives, L.M. Montgomery and the Matter of Nature(s) repositions the Canadian author's relationship to nature in terms of current environmental criticism across several disciplines, introducing a fresh approach to her life and work. Drawing on a wide range of Montgomery's novels as well as her journals, this collection suggests that socio-ecological relationships encompass ideas of reciprocity, affiliation, autonomy, and the capacity for transformation in both the human and more-than-human worlds, and that these ideas are integral to Montgomery's vision and her literary

legacy. Framed by the twin themes of materiality and interrelationships, essays by scholars of literature, law, animal studies, anthropology, and ecology examine place, embodiment, and difference in Montgomery's works and embrace the multiplicities embedded in the concept of nature. Through innovative critical approaches, L.M. Montgomery and the Matter of Nature(s) opens up conversations about humans' interactions with nature and the material environment.

A Dynamic New Approach to Organizational Change Dialogic Organization Development is a compelling alternative to the classical action research approach to planned change. Organizations are seen as fluid, socially constructed realities that are continuously created through conversations and images. Leaders and consultants can help foster change by encouraging disruptions to taken-for-granted ways of thinking and acting and the use of generative images to stimulate new organizational conversations and narratives. This book offers the first comprehensive introduction to Dialogic Organization Development with chapters by a global team of leading scholar-practitioners addressing both theoretical foundations and specific practices.

We Can Do This! Lucia Marquand

We enter an era of the unknown - global conditions move with unprecedented speed, unpredictably, disruptively, and uncontrollably. Conflict is unceasing and increasingly polarized. Global warming and the spread of deadly diseases are a threat to all. How are we to go on? One thing is clear: in these perilous conditions working together is

imperative. As Gergen advances in this clear and compelling work, successful collaboration requires a radical transformation in our understanding of relationships. So long as we cling to the view that relationships are made up of separate entities - persons, communities, organizations or nations - our survival will be threatened. Rather, as Gergen proposes, we must reverse our understanding: it is out of the process of relating that emerge what we take to be the entities and their character. Care for the entities must be replaced by care for the process. This brief introduction to a relational perspective is bountifully illustrated with innovative practices - in education, healthcare, organizational development, peace building and more. All function to enhance well-being through relational process.

Advance Praise for Appreciative Leadership: "A must-read for leaders at all levels who believe that both common sense and business sense require engaging and encouraging rather than

mandating or manipulating. It may become my most-recommended book." -
 - Frank Rogers-Witte, Ph.D., Director, Executive Staff Effectiveness, Hewlett-Packard IPG "Building on a simple but powerful idea, Appreciative Leadership offers an approach to organizational transformation applicable to institutions as varied as businesses, universities, church bodies, and health systems. Packed with dozens of stories and suggestions, it offers key insights translated into replicable strategies for action." -- Jane McAuliffe, Ph.D., President, Bryn Mawr College "The positive basis of power is illuminated brilliantly in this courageous leadership book. Appreciative Leadership touches the heart of leadership--the kind people most deeply desire--in a way that will change lives, businesses, and every relationship you wish to build." -- David L. Cooperrider, Ph.D., Professor of Social Entrepreneurship, Case Western Reserve University "Leadership driven by principles and integrity is more important today than ever. Appreciative Leadership shows how to blend principles of collaboration, quality, and service for both long-term achievement and practical daily impact. It provides a model of success for a new generation of leaders." -- R. Edward Howell, Vice President and Chief Executive Officer, University of Virginia Medical Center The Positive Approach to Leadership That Brings Out the Best in Everyone Appreciative Inquiry has become one of the most popular new management tools in business today. Its premise is simple yet profound: Instead of focusing on what's wrong in the workplace, learn about and build upon what works. Dr. Diana Whitney--a leader in the field of Appreciative Inquiry--and colleagues Amanda Trosten-Bloom and Kae Rader

bring the next generation of these ideas forward, with practical and proven tools for leadership. A refreshingly different approach to managing organizations, Appreciative Leadership turns conventional management thinking on its head, demonstrating how to get results with "positive power." All you need are the five "I's" . . . INQUIRY: Leading with positively powerful questions. ILLUMINATION: Bringing out the best in people and situations. INCLUSION: Engaging with others to cocreate the future. INSPIRATION: Awakening the creative spirit. INTEGRITY: Making choices for the good of the whole. This revolutionary approach brings people together, drives companies forward--and takes your leadership skills to a whole new level. Appreciative Leadership shows you how to fully engage your team through positive inquiry and open dialogue--so that everyone feels included and valued, inspired and motivated . . . and ready to work together to win. In this user-friendly guide, you'll discover exciting new techniques to open up discussions, exchange ideas, agree on a plan, and follow up on your goals. You'll learn simple tips on how to keep your team on track with a can-do attitude. And you'll find satisfying new ways to be engaged, passionate, and present. This book isn't a quick-fix solution to your management problems. It's a full-time, lifelong commitment to your values, your vision, and your connection to others. This is how the best leaders in the world bring

out the best in people, their organizations, and themselves. This is Appreciative Leadership.
