This book opens with introductory spreads explaining that beasts are wild animals that can't be tamed and gives tips on how to spot them in their natural habitats. Subsequent spreads, illustrated with scenic compositions, are dedicated to specific beasts, including armadillos, bears, tigers and the Tasmanian Devil. Later spreads approach the world of beasts thematically, looking at mythical beasts, Ice-Age beasts, beasts on your street and how to save beasts in danger. The text is chatty, funny and full of amazing facts.

How can a prime number be 'sexy' and 'safe' at the same time? Why shouldn't Aussie cricketers be scared of the number 87? And how many bacteria live in your pants ... All the answers and more are in Adam Spencer's Big Book of Numbers. This is a book for readers of all ages who love numbers, who want to love numbers, or who just love to laugh and learn about the wonderful world we live in. For 15 years Adam Spencer has been entertaining us. On triple j and ABC radio and television, he's established himself as Australia's funniest and most famous mathematician. And now, by popular demand, we have his Big Book of Numbers, a fascinating journey from 1 to 100. Praise for Adam Spencer's Big Book of Numbers 'If you find this book boring, you should be in a clinic.' John Cleese 'Funny yet with hidden depths, like its author. A brilliant introduction to the world of numbers.' Brian Cox 'Even the page numbers will start to look fascinating once you've read this book!' Amanda Keller 'This book will bring out the inner geek in anyone who knows how to count to 100.' Brian Schmidt, Winner, 2011 Nobel Prize in Physics 'Funny, informative and, even better for dummies like me, all the answers are in the back.' Wil Anderson 'Excellent. Can't wait to geek-out my dinner party guests with my new maths facts!' Maryanne Demasi, Catalyst, ABC Television

Jack Hanna Big Book of Why Animals answers the why and did you know questions about all kinds of animals that kids commonly ask, but adults can rarely answer. What's the difference between a crocodile and an alligator? Why do animals' eyes glow in the dark? Why do cats purr? Written in an informative, engaging manner, each answer is accompanied by either a photo or an illustration to show the reasons why. Of course, Jack goes beyond answering the question, and dips into a combination of science, history and humor to further explain the answer in an easy-to-follow, straightforward manner. Jack Hanna Big Book of Why is a must-have book to satisfy the most curious of kids.

What is a family? Once, it was said to be a father, mother, boy, girl, cat and dog living in a house with a garden. But as times have changed, families have changed too, and now there are almost as many kinds of families as colours of the rainbow - from a mum and dad or single parent to two mums or two dads, from a mixed-race family to children with different mums and dads, to families with a disabled member. Mary Hoffman takes a look through children's eyes at the wide varieties of family life: from homes, food, ways of celebrating, schools and holidays to getting around, jobs and housework, from extended families, languages and hobbies to pets and family trees - and she concludes that, for most people, their own family is the best one of all! With Ros Asquith's delightful pictures, this book takes a fresh, optimistic look at families of today.
