CHRISTIAN MISSION "Dana Robert distills a quarter of a century of her research into an erudite and accessible single-volume account of how Christianity became the largest religious tradition in the world. There is no better place for any reader to start becoming informed about this important subject." David Hempton, Harvard University "Remarkable for the range and depth of the material Robert is able to pack into so short a book. Reliable and readable, it is especially valuable for its treatment of the relation between western and non-western missionary activity." David A. Hollinger, University of California, Berkeley "Dana Robert's richly textured book shows us that the history of Christian missions is far from being merely a European colonial story, and will be immensely valuable to students and general readers who are concerned to uncover the historical roots of Christianity's current status as a truly global faith." Brian Stanley, University of Edinburgh The Gospels record that Christ commanded his disciples to "go forth and teach all nations." Thus

began the history of Christian mission, a phenomenon which brought about massive shifts in the nature and practice of Christianity, and one that many say reflects the single most important movement of intercultural encounter over a sustained period of human history. To understand Christianity as a global movement, therefore, it is essential to study the role of mission – defined as the transmission of the Gospel across cultures. Erudite and enlightening, this brief book explores the 2,000 years of mission history, covering topics such as the meaning of the missionary through history, gender and missions, and missions in culture and politics. Given that in the twenty-first century, Christianity is now largely practiced outside the West, *Christian Mission* is an inspirational and invaluable resource to broaden our understanding of the nature of Christianity as a truly multi-cultural world religion.

Christian mission in the twenty-first century has become the responsibility of a global church. The heart of 'mission' is the drive to cross geographical, cultural and social barriers in order to share the good news of Jesus Christ with all peoples. Drawing on his involvement in missionary work over many years, Samuel Escobar explores how the church spreads the Christian faith. God's Word forms the foundation for his reflections, while he uses insights from theological and historical studies as well as from the social sciences to gain a clearer understanding of the church's missionary calling. His stimulating and challenging analysis contributes significantly to a global evangelical dialogue on mission today and in the future.

Encountering Theology of Mission WCIU Press

From the early phases of modern missions, Christian missionaries supported many humanitarian activities, mostly framed as subservient to the preaching of Christianity. This anthology contributes to a historically grounded understanding of the complex relationship between Christian missions and the roots of humanitarianism and its contemporary uses in a Middle Eastern context. Contributions focus on ideologies, rhetoric, and practices of missionaries and their apostolates towards humanitarianism, from the mid-19th century Middle East crises, examining different missionaries, their society's worldview and their networks in various areas of the Middle East. In the early 20th century Christian missions increasingly paid more attention to organisation and bureaucratisation ('rationalisation'), and media became more important to their work. The volume analyses how non-missionaries took over, to a certain extent, the aims and organisations of the missionaries as to humanitarianism. It seeks to discover and retrace such 'entangled histories' for the first time in an integral perspective. Contributors include: Beth Baron, Philippe Bourmaud, Seija Jalagin, Nazan Maksudyan, Michael Marten, Heleen (L.) Murre-van den Berg, Inger Marie Okkenhaug, Idir Ouahes, Maria Chiara Rioli, Karène Sanchez Summerer, Bertrand Taithe, and Chantal Verdeil

Newly updated and expanded by Christopher J. H. Wright, John Stott's classic book presents an enduring and holistic view of Christian mission that must encompass both evangelism and social action. Through a thorough biblical exploration, Stott provides a biblically based approach to mission that addresses both spiritual and physical needs.

A History of Christian Missions traces the expansion of Christianity from its origins in the Middle East to Rome, the rest of Europe and the colonial world, and assesses its position as a major religious force worldwide. Many of the world's religions have not actively sought converts, largely because they have been too regional in character. Buddhism, Islam and Christianity, however, are the three chief exceptions to this, and Christianity in particular has found a home in almost every country in the world. Professor Stephen Neill's comprehensive and authoritative survey examines centuries of missionary activity, beginning with Christ and working through the Crusades and the colonization of Asia and Africa up to the present day, concluding with a shrewd look ahead to what the future may hold for the Christian Church.

Document from the year 2015 in the subject Theology -

Miscellaneous, , language: English, abstract: There are an increasing number of missionaries and church leaders in Africa and Europe whose views of the gospel and the principle of submission are not very clear. Some views of the gospel are obviously shaped by postmodernism, feminism or liberation theology; and while some church and mission leaders understand submission in authoritarian terms others favour a laissez-faire approach. These different views and attitudes, however, raise some important questions: How can missionaries work together in a team or cooperate with indigenous churches if they do not agree on the nature of the gospel? What motivates missionaries for ministry if it is not the Good News as we can find it in the Bible? How can missionaries serve on the mission field if they hold to or are confronted with an unbiblical view of submission? The first part of this book examines several false versions of the gospel which Christians encounter on the mission field in Africa and elsewhere today. Furthermore, it looks at the difference the biblical gospel makes in our lives and calls us back to the cross of Christ as our only hope. The second part of this book examines the complex issues of submission, authority and accountability in

the various relationships that exist whenever a missionary goes out to serve God and His Church. Some of the most vivid contemporary problems are addressed from a biblical perspective. It is my hope that everyone, from sending church, mission organisation, receiving church and missionaries themselves will find this book an important read to clarify the issues and be better prepared to serve in cross-cultural mission.

The Future of Christian Mission in India Moody Publishers
This readable survey on the history of missions tells the story of pivotal turning points in the expansion of Christianity, enabling readers to grasp the big picture of missional trends and critical developments. Alice Ott examines twelve key points in the growth of Christianity across the globe from the Jerusalem Council to Lausanne '74, an approach that draws on her many years of classroom teaching. Each chapter begins with a close-up view of a particularly compelling and paradigmatic episode in Christian history before panning out for a broader historical outlook. The book draws deeply on primary sources and covers some topics not addressed in similar volumes, such as the role of British abolitionism on mission to Africa and the relationship between imperialism and mission. It demonstrates that the expansion of Christianity was not just a Western-driven phenomenon; rather, the gospel spread worldwide through the efforts of both Western and non-Western missionaries and through the crucial ministry of indigenous lay Christians, evangelists, and preachers. This fascinating account of worldwide Christianity is suitable not only for the classroom but also for churches, workshops, and other seminars.

Western Christians in Global Mission Syracuse University Press
Colonial missionaries, both Catholic and Protestant, arrived in India with the grandiose vision of converting the pagans because, like St. Peter (Acts 4:12) and most of the church fathers, they honestly believed that there is no salvation outside the church (*extra ecclesiam nulla salus*). At the end of the "great Protestant century," however, Christians made up less than 3 percent of the population in India, and the hope of the missionary was nearly shattered. But if one looks at mission in India qualitatively rather than quantitatively, one sees a number of positive outcomes. Missionaries in India, particularly Protestant missionaries espousing the social gospel, in collaboration with a few British evangelical administrators, dared to challenge numerous social

evils and even began to eradicate them. The scientific and liberal English education began to enlighten and transform the Indian mindset. Converts belonging to the upper caste, although small in number, laid the foundation stone of Indian theology and an inculturated church using Indian genius. The end of colonialism in India coincided with the painful death of colonial mission theology. Now, the power of the Word of God, extricated from political power, is slowly and peacefully gaining ground, like the mustard seed of the parable. A paradigm shift from the ecclesio-centric mission to *missio Dei* offers reason for further optimism. In short, the future of mission in India is as bright as the kingdom of God. In today's new context, theologians, despite objections from some quarters, are struggling to discover the Asian face of Jesus, disfigured by the Greco-Roman Church. And the missionary is challenged to become a living Bible that, undoubtedly, everyone will read.

The Best Kept Secret of Christian Mission Baker Academic
The complex relationship between America and the Arab world goes back further than most people realize. In *Artillery of Heaven*, Ussama Makdisi presents a foundational American encounter with the Arab world that occurred in the nineteenth century, shortly after the arrival of the first American Protestant missionaries in the Middle East. He tells the dramatic tale of the conversion and death of As'ad Shidyaq, the earliest Arab convert to American Protestantism. The struggle over this man's body and soul—and over how his story might be told—changed the actors and cultures on both sides. In the unfamiliar, multireligious landscape of the Middle East, American missionaries at first conflated Arabs with Native Americans and American culture with an uncompromising evangelical Christianity. In turn, their Christian and Muslim opponents in the Ottoman Empire condemned the missionaries as malevolent intruders. Yet during the ensuing confrontation within and across cultures an unanticipated spirit of toleration was born that cannot be credited to either Americans or Arabs alone. Makdisi provides a genuinely transnational narrative for this new, liberal awakening in the Middle East, and the challenges that beset it. By exploring missed opportunities for cultural understanding, by retrieving unused historical evidence, and by juxtaposing for the first time Arab perspectives and archives with American ones, this book counters a notion of an inevitable clash of civilizations and thus reshapes our view of the history of America in the Arab world.

Sharing the Good News might be understood as the prime directive of the Church from its earliest times, but the Church soon discovered unforeseen obstacles and its own set of temptations, including its lust for power and domination. Although the gospel might be joyfully offered, it was not always received in the same spirit. And the Church was not always gracious with dissent and criticism. Even so, the Church continues to reach out to the least, the last, and the lost—attempting to bring them into the family of God. But for mission to be effective today, it must take advantage of indigenous resources and recognize its limitations as well as its gifts. This book broadly introduces prominent missionary practices and major historical figures using three perspectives. First, it takes into account the missionary activity proceeding from the margins rather than only discussing the center of theological and ecclesial activity. Second, it narrates the cross-cultural, cross-confessional, and cross-religious dynamics that characterize Christian missionary activity. And third, it emphasizes that much missionary activity is generated by national rather than international missionaries. The text concludes with a chapter on the postmodern and postcolonial

world.

Artillery of Heaven InterVarsity Press

Social justice and mission are hot topics today: there's a wonderful resurgence of motivated Christians passionate about spreading the gospel and caring for the needs of others. But in our zeal to get sharing and serving, many are unclear on gospel and mission. Yes, we are called to spend ourselves for the sake of others, but what is the church's unique priority as it engages the world? DeYoung and Gilbert write to help Christians "articulate and live out their views on the mission of the church in ways that are theologically faithful, exegetically careful, and personally sustainable." Looking at the Bible's teaching on evangelism, social justice, and shalom, they explore the what, why, and how of the church's mission. From defining "mission", to examining key passages on social justice and their application, to setting our efforts in the context of God's rule, DeYoung and Gilbert bring a wise, studied perspective to the missional conversation. Readers in all spheres of ministry will grow in their understanding of the mission of the church and gain a renewed sense of urgency for Jesus' call to preach the Word and make disciples.

A Time for Mission Columbia University Press

The essays in this volume study cultural conversions that arose from missionary activities in the Middle East, Africa, and South Asia during the nineteenth and twentieth centuries. Both Catholic and Protestant missionaries effected changes that often went beyond what they had intended, sometimes backfiring against the missions. These changes entailed wrenching political struggles to redefine families, communities, and lines of authority. This volume's contributors examine the meanings of "conversion" for individuals and communities in light of loyalties

and cultural traditions, and consider how conversion, as a process, was often ambiguous. The history of Christian missions emerges from these pages as an integral part of world history that has stretched beyond professing Christians to affect the lives of peoples who have consciously rejected or remained largely unaware of missionary appeals.

Uncomfortable John Wiley & Sons

What will it take to accomplish Christ's mission in our lifetime?

That's the question evangelicals have been asking for over a century, but our efforts to reach the unreached and finish the task have often sacrificed the important for the immediate. The greatest challenge in evangelical missions isn't a lack of urgency, but a lack of discernment. As we've prioritized movements that are simple and reproducible, the gospel and faithful churches are now threatened. Our mission itself could be disqualified. In *Mission Affirmed*, Elliot Clark seeks to reshape our motivation by considering the example of Paul the missionary. The desire for God's approval is what formed his ambition and directed his methods, and it should guide ours too. In these pages, we rediscover how pursuing God's praise can both motivate and regulate our gospel ministries. We also refocus—as missionaries, pastors, churches, and individuals—on what matters more than a mission accomplished: a mission God affirms. *Biblical Ministry Advice*: Provides a holistic look at Paul's ministry, methods, and motivation *A Great Resource for Church Leaders*: Helps churches vet and send missionaries *First-Hand Ministry Insights*: Provides a practical solution for common weaknesses in modern missions, with descriptive examples from the author's experiences as a missionary Published in Conjunction with the Gospel Coalition (TGC)
