In A Closer Look, Lynne Dorfman and Diane Dougherty provide the tools and strategies you need to use formative assessment in writing workshop. Through Lynne and Diane's ideas, you will be able to establish an environment where students will internalize ways that they can assess their own writing and become independent writers. Lynne and Diane share methods for collecting and managing information, and show

practical, simple, and concise ways to document student thinking. In the accompanying online videos, they demonstrate conferences with individual writers, small groups, and whole groups. Quick, easy-to-manage assessment methods emphasize that formative assessment does not have to take a long time to be worthwhile and effective. Vignettes from classroom teachers, principals, and authors add a variety of perspectives and classroom experiences on this important topic. A

Closer Look shows that when students are in charge of their own writing process and set and reach their own goals, writing becomes a vibrant, energetic part of the day.

The evaluation of student performance and knowledge is a critical element of an educator's job as well as an essential step in the learning process for students. The quality and effectiveness of the evaluations given by educators are impacted by their ability

to create and use reliable and valuable evaluations to facilitate and communicate student learning. The Handbook of Research on Assessment Literacy and Teacher-Made Testing in the Language Classroom is an essential reference source that discusses effective language assessment and educator roles in evaluation design. Featuring research on topics such as course learning outcomes, learning analytics, and teacher collaboration, this book is ideally designed

for educators, administrative officials, linguists, academicians, researchers, and education students seeking coverage on an educator's role in evaluation design and analyses of evaluation methods and outcomes.

High-stakes accountability and the growing move towards standardized testing are placing

teacher knowledge and assessment skills under ever-increasing scrutiny. Teachers know what is going on in their classrooms and have first-hand reliable evidence of what their students can accomplish. They can be the major factor in student assessment and help their students better demonstrate what they have learned. Smart Tests shows educators how to create well-structured evaluation tools that match assessment tasks to the purpose and content of instruction.

Teachers learn how to relate testing directly to classroom goals and activities and make assessment an integral part of learning and teaching, not just the end result. They will find the information they need to build assessment tasks that give students in grades K-8 the opportunity to succeed. These tasks encourage students to apply new knowledge, reflect and defend their thoughts and opinions, and connect what they learn the world beyond the classroom.

Fostering Literacy Independence in the Elementary Grades

Teacher Created Resources

The first books to present specific guidance for teaching the Common Core State Standards. Forty-three states plus the District of Columbia and the U.S. Virgin Islands have signed on to adopt the Common Core State Standards (CCSS). The need for curriculum guides to assist teachers

in helping students meet these standards has become imperative. Created by teachers, for teachers, the research-based curriculum maps in this book present a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades K-5. The maps address every standard in the CCSS, yet are flexible and adaptable to accommodate diverse teaching styles. Each grade is broken down into six units that include

focus standards, suggested works, sample activities and assessments, lesson plans, and more. Teachers can use the maps to plan their year and craft their own more detailed lesson plans. Any teacher, school, or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards. Teacher Created Resources Activities for English Language Learners Across the Curriculum is a must-have resource that

features activities designed to help students improve English skills. Easy-to-use lessons are provided in each content area and include step-by-step instructions, as well as suggestions for whole and small group instruction and modifications based on students' levels of language proficiency. Definitely an invaluable resource for diverse classrooms, this book also includes background information on language acquisition and language proficiency level. In

addition, new Bloom's Taxonomy questions are included to promote oral language development skills.
